INTRODUCTION

Catalog of Federal Domestic Assistance

The Catalog of Federal Domestic Assistance is a government-wide compendium of Federal programs, projects, services, and activities that provide assistance or benefits to the American public. It contains financial and nonfinancial assistance listings administered by departments and establishments of the Federal government.

In 1984, Public Law 98-169 authorized the transfer of responsibilities of the Federal Program Information Act from the Office of Management and Budget to the General Services Administration (GSA). The transfer took place in July 1984. These responsibilities include the dissemination of Federal domestic assistance information through the Catalog of Federal Domestic Assistance, pursuant to the Federal Program Information Act, Public Law 95-220, as amended by Public Law 98-169. GSA now maintains the Federal assistance information database from which assistance information is obtained. The Office of Management and Budget serves as an intermediary agent between the Federal agencies and GSA, thus providing oversight to the necessary collection of Federal domestic assistance data. As the basic reference source of Federal assistance listings, the primary purpose of the Catalog is to assist users in identifying listings that meet specific objectives of the potential applicant, and to obtain general information on Federal assistance listings. In addition, the intent of the Catalog is to improve coordination and communication between the Federal government and State and local governments. A change for this year's Catalog of Federal Domestic Assistance is a transition in naming convention. In 2018, www.cfda.gov officially transitioned to www.beta.sam.gov. As the new authoritative source for domestic assistance (including both this catalog and the site) and eventually other federal awards, any reference to an "assistance program" will now be called an "assistance listing" or "listing".

The Catalog provides the user with access to assistance listings administered by Federal departments and agencies in a single publication. Listing information is cross referenced by functional classification (Functional Index), subject (Subject Index), applicant (Applicant Index), deadline(s) for assistance listing application submission (Deadlines Index), and authorizing legislation (Authorization Index). These are valuable resource tools that, if used carefully, can make it easier to identify the specific areas of a listing's interest more efficiently. Other sections of the Catalog provide users with information on assistance listings added and deleted since the last edition of the Catalog, a crosswalk of CFDA numbers and title changes, regional or local assistance locations, intergovernmental review requirements, definitions of the types of assistance under which listings are administered, proposal writing, grant application procedures, and additional sources of information on Federal assistance listings and services. Assistance listings selected for inclusion in the Federal assistance database are defined as any function of a Federal agency that provides assistance or benefits for a State or States, territorial possession, county, city, other political subdivision, grouping, or instrumentality thereof; any domestic profit or nonprofit corporation, institution, or individual, other than an agency of the Federal government. A "Federal domestic assistance listing" may in practice be called an assistance listing, an activity, a service, a project, a process, or some other name, regardless of whether it is identified as a separate listing by statute or regulation. It will be identified in terms of its legal authority, administering office, funding, purpose, benefits, and beneficiaries. "Assistance" or "benefits" refers to the transfer of money, property, services, or anything of value, the principal purpose of which is to accomplish a public purpose of support or stimulation authorized by Federal statute. Assistance includes, but is not limited to grants, loans, loan guarantees, scholarships, mortgage loans, insurance, and other types of financial assistance, including cooperative agreements; property, technical assistance, counseling, statistical, and other expert information; and service activities of regulatory agencies. It does not include the provision of conventional public information services. For years, GSA has published a printed version of the Catalog of Federal Domestic Assistance (CFDA or Catalog), as required by legislation. That same legislation allowed GSA to distribute free copies of the printed Catalog to designated recipients. In fiscal year 2003, nearly 10,000 paper copies of the Catalog were distributed at no cost to the recipients

Current legislation, however, authorizes GSA to determine in what form to prepare and publish the Catalog. Consistent with the Administration's Electronic-Government initiatives, the Government Paperwork Elimination Act, and a move to a paper free environment, GSA will now disseminate the Catalog electronically through the CFDA website on the Internet. As a result, effective immediately, GSA will no longer print and distribute free copies of the Catalog.

The Internet and GSA's free website <http://www.beta.sam.gov> will be the primary means of disseminating the Catalog. The [beta.sam.gov](http://www.beta.sam.gov) site will also contain a PDF file version of the Catalog that, when printed by any user, will have the same layout as the printed document that the Government Printing Office (GPO) has provided.

GPO will continue printing and selling the CFDA to interested buyers. For information about purchasing the Catalog of Federal Domestic Assistance from GPO, call the Superintendent of Documents at 202-512-1800 or toll free at 866-512-1800, or you may reach GPO's on-line bookstore at bookstore.gpo.gov.

Types Of Assistance

Currently, assistance listings in the Catalog are being classified by GSA into 15 types of assistance. (Cooperative Agreements as a type of assistance is used for assistance listings administered under that mechanism. However, the definition does not appear in this section.) Benefits and services of the listings are provided through seven financial types of assistance and eight non-financial types of assistance. The following list defines the types of assistance that are available through the assistance listings. Code letters below (A through O) which identify the type of assistance) will follow assistance listing titles in the Agency Index, Applicant Eligibility Index, the Functional Index, Deadlines Index, and in the list of added listings.

- A. Formula Grants - Allocations of money to States or their subdivisions in accordance with distribution formulas prescribed by law or administrative regulation, for activities of a continuing nature not confined to a specific project.
- B. Project Grants - The funding, for fixed or known periods, of specific projects. Project grants can include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, survey grants, and construction grants.
- C. Direct Payments for Specified Use - Financial assistance from the Federal government provided directly to individuals, private firms, and other private institutions to encourage or subsidize a particular activity by conditioning the receipt of the assistance on a particular performance by the recipient. This does not include solicited contracts for the procurement of goods and services for the Federal government.
- D. Direct Payments with Unrestricted Use - Financial assistance from the Federal government provided directly to beneficiaries who satisfy Federal eligibility requirements with no restrictions being imposed on the recipient as to how the money is spent. Included are payments under retirement, pension, and compensatory assistance listings.
- E. Direct Loans - Financial assistance provided through the lending of Federal monies for a specific period of time, with a reasonable expectation of repayment. Such loans may or may not require the payment of interest.
- F. Guaranteed/Insured Loans - Assistance listings in which the Federal government makes an arrangement to identify a lender against part or all of any defaults by those responsible for repayment of loans.
- G. Insurance - Financial assistance provided to assure reimbursement for losses sustained under specified conditions. Coverage may be provided directly by the Federal government or through private carriers and may or may not involve the payment of premiums.
- H. Sale, Exchange, or Donation of Property and Goods - Assistance listings which provide for the sale, exchange, or donation of Federal real property, personal property, commodities, and other goods including land, buildings, equipment, food and drugs. This does not include the loan of, use of, or access to Federal facilities or property.
- I. Use of Property, Facilities, and Equipment - Assistance listings which provide

for the loan of, use of, or access to Federal facilities or property wherein the federally owned facilities or property do not remain in the possession of the recipient of the assistance.

- J. Provision of Specialized Services - Assistance listings that provide Federal personnel directly to perform certain tasks for the benefit of communities or individuals. These services may be performed in conjunction with nonfederal personnel, but they involve more than consultation, advice, or counseling.
- K. Advisory Services and Counseling - Assistance listings which provide Federal specialists to consult, advise, or counsel communities or individuals to include conferences, workshops, or personal contacts. This may involve the use of published information, but only in a secondary capacity.
- L. Dissemination of Technical Information - Assistance listings that provide for the publication and distribution of information or data of a specialized or technical nature frequently through clearinghouses or libraries. This does not include conventional public information services designed for general public consumption.
- M. Training - Assistance listings that provide instructional activities conducted directly by a Federal agency for individuals not employed by the Federal government.
- N. Investigation of Complaints - Federal administrative agency activities that are initiated in response to requests, either formal or informal, to examine or investigate claims of violations of Federal statutes, policies, or procedure. The origination of such claims must come from outside the Federal government.
- O. Federal Employment – Assistance Listings that reflect the Government wide responsibilities of the Office of Personnel Management in the recruitment and hiring of Federal civilian agency personnel.

Contents of the Catalog

The Catalog contains Federal domestic assistance listings available to: State and local governments (including the District of Columbia and federally-recognized Indian tribal governments); Territories (and possessions) of the United States; domestic public, quasi-public, and private profit and nonprofit organizations and institutions; specialized groups; and individuals.

Listings in the Catalog provide information on the:

- Federal agency administering a listing;
- Authorization upon which a listing is based;
- Objectives and goals of a listing;
- Types of financial and non-financial assistance offered under a listing;
- Uses and restrictions placed upon a listing; Eligibility requirements;
- Application and award process;
- Amount of obligations for the past, current, and future fiscal years;
- Regulations, guidelines and literature relevant to a assistance listing;
- Information contacts at the headquarters, regional, and local offices;
- Listings that are related based upon listing objectives and uses;
- Examples of funded projects;
- Criteria for selecting proposals; and
- Individual agency policies and Federal management policy directives pertaining to a listing.

Listings in the Catalog provide a wide range of benefits and services, which have been grouped into 20 basic functional categories, and 176 subcategories that identify specific areas of interest. Listed below are the 20 basic categories in which all listings have been grouped by primary purpose.

- Agriculture
- Business and Commerce
- Community Development
- Consumer Protection
- Cultural Affairs
- Disaster Prevention and Relief
- Education Employment, Labor, and Training
- Energy
- Environmental Quality
- Food and Nutrition
- Health
- Housing
- Income Security and Social Services
- Information and Statistics
- Law, Justice, and Legal Services

- Natural Resources
- Regional Development
- Science and Technology
- Transportation

Assistance listings in the Catalog also include service activities of regulatory agencies.

The Catalog does not include:

- Solicited contracts administered under procurement laws and regulations for the purchase of goods and services for the Federal government;
- Foreign activities except as such listings have direct economic benefit in the domestic economy. (A listing that provides both domestic and foreign assistance will be included with the description of the listing oriented toward the domestic aspect.);
- Personnel recruitment listings of individual Federal departments which offer employment opportunities as part of normal recruiting operations, (the overall government-wide listings of the Office of Personnel Management are included);
- Benefits or assistance available only to current employees of the Federal government either civilian or military;
- New assistance listings proposed in the Budget for which appropriations have not been enacted; or
- Assistance listings that are no longer active due to expired authorization or appropriation.

Organization of the Catalog

The Catalog is divided into three basic sections -- the indices, the assistance listing descriptions, and the appendices.

INDICES --To locate specific listings of interest, determine eligibility, and to obtain information on the dates applications for assistance should be submitted to the funding agency, users may consult the Agency Assistance Listing Index, the Functional Index, or the Subject Index; the Applicant Eligibility Index, and the Index listing deadlines for assistance listing applications.

The Agency Index Summary provides a description of the functions and activities of Federal agencies responsible for administering assistance listings in the Catalog. CFDA numbers are also listed with the administering agency.

The Agency Assistance Listing Index lists all assistance listings in the Catalog in numerical order by the five-digit CFDA identification number, the assistance listing title, the Federal agency responsible for administering the listing, and whether the listing offers financial assistance, non-financial assistance, or a combination of both.

The Alphabetical Index of Listings catalogs all assistance listings by alphabetical order with their corresponding CFDA number and assistance type.

The Functional Index Summary lists the basic functional categories and the subcategories that further identify specific areas of interest. Following the Summary is the Functional Index listing each CFDA number and title under the appropriate basic category and subcategory.

The Subject Index provides a detailed record of assistance listings by various topics, popular name, general functional terms, categories of services, and selected beneficiaries, and is followed by the applicable CFDA numbers.

The Applicant Eligibility Index is a listing in CFDA number sequence, along with listing titles, indicating the applicants eligible to apply. The index lists assistance listings that may be applied for by:

- Any of the several States of the United States, the District of Columbia, or any

agency or instrumentality of a State exclusive of State institutions of higher education and hospitals;

- Local governments which include a county, parish, municipality, city, town, township, village, State-designated Indian tribal government, local public authority, school district, special district, intrastate district, council of governments, sponsor group representative organizations, and other regional or interstate government entity, or any agency or instrumentality of a local government;
- U.S. Territories (and possessions) of the United States which include the Commonwealths of Puerto Rico and the Northern Mariana Islands, the Virgin Islands, Guam, Trust Territory of the Pacific Islands, and American Samoa;
- Federally-recognized Indian Tribal governments which include the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including any Native village as defined in Section 3 of the Alaska Native Claims Settlement Act, 85 Stat. 688) certified by the Secretary of the Interior as eligible for the special listings and services provided through the Bureau of Indian Affairs;
- Nonprofit organizations and institutions which include quasi-public, public and private institutions of higher education and hospitals, Native American Indian Organizations, and other quasi-public and private nonprofit organizations such as, but not limited to, community action agencies (CAAs), Head Start agencies, research institutes, educational associations, and health centers. Excluded under this definition are government-owned contractor operated facilities or research centers providing support for mission-oriented, large scale listings that are government-owned or controlled, or are designed as federally-funded research and development centers; and
- Private individuals such as Native Americans, homeowners, students, farmers, artists, scientists, consumers, small business, refugees, aliens, veterans, senior citizens, low-income persons, health and education professionals, builders, contractors, developers, handicapped persons, the physically afflicted.

The Deadlines Index (for assistance listing applications)

is an index of CFDA numbers and listing titles and the deadline date(s) by which funding agencies must receive applications. This information is also contained in the Deadlines Section of the assistance listing descriptions.

Users should also consult the following listings:

The Archived Listings index identifies assistance listings that have been archived since the previous edition of the Catalog due to: expiration of budget authority; rescission of budget authority for the current fiscal year; assistance listing consolidation which has rendered the former CFDA number(s) obsolete; the replacement of a categorical grant program by a block grant program; the replacement of two or more categorical programs by a block grant program; the abolishment of an agency; or the criteria for including assistance listings in the Catalog no longer valid being (e.g., a listing which no longer operates under Federal funding).

The Added Assistance Listings index identifies assistance listings that have been added since the previous edition of the Catalog due to: the appropriation of new budget authority; the consolidation of two or more assistance listings creating a new listing; the splitting of elements from a former assistance listing creating two or more new assistance listings; the transformation of a single categorical grant program into a block program; or the consolidation of two or more categorical grant programs into a block program.

The Crosswalk of Changes to CFDA Numbers and Listing Titles

which catalogs assistance listings that have undergone a title change, or a CFDA number change due to restructuring of listings, or reorganization of a Federal agency.

ASSISTANCE LISTING DESCRIPTIONS -- The center section of

the printed Catalog and the listings available on this web site contain descriptions of Federal assistance listings organized by CFDA number in the same numerical sequence as in the Agency Assistance Listing Index. Detailed information concerning listings is contained under the description headings of each Catalog program. The following is an explanation of each listing description heading followed by examples of the type of information found under each heading.

NOTE: The assistance listing used in the example below does not exist. It is provided for the purpose of illustration only.

ASSISTANCE LISTING CFDA NUMBER, TITLE, AND POPULAR NAME

-- Each listing in the Catalog is preceded by a five-digit CFDA identification number. The first two digits identify the Federal department or agency that administers the assistance listing, and the last three numbers are assigned in numerical sequence. Thus, CFDA number 10.500 is administered by the Department of Agriculture, 11.500 by the Department of Commerce, 12.500 by the Department of Defense, 93.500 by the Department of Health and Human Services, and so on. (In the numerical sequence of CFDA numbers, some numbers do not appear due to listing deletions or consolidations. To accommodate users' systems and records, the numbers are not reassigned to other listings but are reserved for the reinstated listings.) The assistance listing title is the descriptive name given to a listing. The popular name, which is less descriptive than the assistance listing title, is the name by which assistance listings are commonly known or most often used by applicants and agencies.

Example: 93.259 Mental Health -- Children's Services

FEDERAL AGENCY -- The Federal agency is the Federal department, agency, commission, council or instrumentality of the government, and the primary organizational sub-unit (the administering office) that has direct operational responsibility for managing an assistance listing.

Example: SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION, PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH AND HUMAN SERVICES

AUTHORIZATION -- This section lists the legal authority upon which an assistance listing is based (acts, amendments to acts, Public Law numbers, titles, sections, Statute Codes, citations to the U.S. Code, Executive Orders, Presidential Reorganization Plans, and Memoranda from an agency head).

Example: Community Mental Health Centers Act of 1975, Part A, Section 203(e), Public Law 94-63, 42 U.S.C. 2689.

OBJECTIVES -- This is a brief statement of specific objectives stated in terms of what the listing is intended to accomplish along with the goals toward which the listing is directed.

Example: To stimulate innovative approaches to children's mental health problems emphasizing prevention and coordination of community services; to expand training activities; and, to broaden resources for children's mental health services.

TYPES OF ASSISTANCE -- This section indicates the form in which the assistance is transmitted from the Federal government and is initially received for use or distribution by the applicant.

Example: Project Grants.

USES AND USE RESTRICTIONS -- This section describes the potential uses for the assistance provided to meet stated objectives, and the specific restrictions placed upon the use of funds. The section cites one or more applications depending upon the nature of a particular assistance listing. Since this section translates objectives into the uses of an assistance listing, users may develop a clearer understanding of the listing's objectives.

Example: Support for Continuation Grants only. assistance listing authorizes funds on a matching basis for initial staffing of facilities offering mental health services for children. Staffing grants may be used for a portion of the costs of professional and technical personnel to operate a facility for child mental health services; a higher percentage may be paid if an area has been designated a poverty area by the Secretary, HHS. The proposed assistance listing must provide consultation and coordinating services with other community agencies serving children in service area, and must include a plan with the means by which it will be evaluated.

ELIGIBILITY REQUIREMENTS:

Applicant Eligibility -- This section indicates who can apply to the Federal government for assistance and the criteria the potential applicant must satisfy. For example, individuals may be eligible for research grants, and the criteria to be satisfied may be that they have a professional or scientific degree, 3 years of research experience, and be a citizen of the United States. Universities, medical schools, hospitals, or State and local governments may also be eligible. Where State governments are eligible, the type of State agency will be indicated (State welfare agency or State agency on aging) and the criteria that they must satisfy.

Certain assistance listings in the Catalog (e.g., the Pell Grant program which provides grants to students) involve intermediate levels of application processing, i.e., applications are transmitted through colleges or universities that are neither the direct applicant nor the ultimate beneficiary. For these listings, the criteria that the intermediaries must satisfy are also indicated, along with intermediaries who are not eligible.

Example: To be eligible for staffing grants, applicants must be part of, or affiliated with, a community mental health center, unless there is no center serving the community. Applicants may then be any public or private nonprofit agency providing or coordinating with assistance listings that will provide a full range of mental health services for children and their families residing in the service area.

Beneficiary Eligibility -- This section lists the ultimate beneficiaries of an assistance listing, the criteria they must satisfy and who specifically is not eligible. The applicant and beneficiary will generally be the same for assistance listings that provide assistance directly from a Federal agency. However, financial assistance that passes through State or local governments will have different applicants and beneficiaries since the assistance is transmitted to private sector beneficiaries who are not obligated to request or apply for the assistance.

Example: Children and their families in the service area as well as personnel of schools and other community agencies serving children.

Credentials/Documentation -- This is a brief description of the credentials or documentation required prior to, or along with, an application for assistance. The eligibility factors that must be proven, certified, or established are indicated in this section. This section also indicates whether OMB Circular No. A-87 requirements, "Cost Principles Applicable to Grants and Contracts with State and Local Governments," are applicable. In cases where specific Federal circulars or other regulatory requirements are not applicable to the assistance listing, disclaimer statements may be included referencing the requirement(s) from which

the assistance listing is excluded, e.g., "This listing is excluded from coverage under (applicable requirement)."

Example: Proof of nonprofit status is required of nonprofit organizations and institutions. This assistance listing is excluded from coverage under OMB Circular No. A-87.

APPLICATION AND AWARD PROCESS:

Preapplication Coordination -- This section indicates whether any prior coordination or approval is required with governmental or non-governmental units prior to the submission of a formal application to the Federal funding agency. For example, listings may require: (1) State agency approval prior to the submission of an application to a Federal agency; (2) the submission of environmental impact information as required by the National Environmental Policy Act of 1969, and Executive Order 11514 of March 4, 1970; (3) coordination with the policies of the recently revised OMB Circular No. A-102, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" (referenced here for construction, land acquisition, and land development projects for which Federal funding exceeds \$100,000); (4) coverage for eligibility under Executive Order 12372, "Intergovernmental Review of Federal Programs"; or (5) a preapplication or preapplication conference. Applicants should also ascertain from the Federal agency the existence of other circular requirements not indicated by this section, and from the State, any State requirements that may be in effect. In cases where E.O. 12372 is not applicable to the listing, a disclaimer statement is included referencing the exclusion, e.g., "This listing is excluded from coverage under E.O. 12372."

Example: Preapplication consultation with the Substance Abuse and Mental Health Services Administration (SAMHSA) Branch of the HHS Regional Office is not mandatory. Application must be accompanied by evidence of approval and recommendation by the appropriate State agency or agencies. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this assistance listing. This listing is excluded from coverage under E.O. 12372.

Application Procedure -- This section discusses the basic procedural steps required by the Federal agency in the application process, beginning with the lowest level (e.g., State and local government units, institutions or organizations) and ending eventually with the Federal government. Each assistance listing will indicate whether applications are to be submitted to the Federal headquarters, regional or local assistance location, or to a State or local government office. Numerous listings in the Catalog require the standard application forms in OMB Circular No. A-102 (Attachment M). Other applications may be in the form of a written request to the funding agency stating the need for assistance and requesting available services, or a formal proposal prepared in response to an announcement in the Federal Register or the Commerce Business Daily. Also indicated in this section is guidance concerning the applicability of OMB Circular No. A-110, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations." In cases where specific Federal circulars or other regulatory requirements are not applicable to the assistance listing, disclaimer statements may be included referencing the requirement(s) from which the assistance listing is excluded, e.g., "This assistance listing is excluded from coverage under (applicable requirement)."

Example: Continuation Application Form ADM-115 should be used for staffing. Instructions and consultation may be obtained from the mental health section of the appropriate HHS Regional Office. Applications are sent to the Regional Office with copies to Acting Director, Division of Mental Health Service Programs,

Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Rockville, MD 20857. This listing is subject to the provisions of OMB Circular No. A-110. This listing is excluded from coverage under OMB Circular No. A-102.

Award Procedure -- This section lists the basic procedural steps for awarding assistance, beginning with the organizational components of the Federal agency that has final approval authority for the application and ending with the lowest level at which Federal resources are expended. Also indicated is whether assistance passes through the initial applicant for further distribution by intermediate level applicants to groups or individuals in the private sector. Accepted applications are subject to evaluation by the headquarters, regional, local or district office to determine the feasibility of the proposed project to include consistency with Federal and individual agency policies concerning its scope and purpose. Grant payments may be made by a letter of credit, advance by Treasury check, or reimbursement by Treasury check. The headquarters office may make awards directly to the applicant, an agency field office, a regional office, or by an authorized county office.

Example: The Regional Health Administrator makes awards to approved applicants.

Deadlines -- When available, this section indicates the deadlines for applications to the funding agency that will be stated in terms of the date(s) or between what dates the application should be received. Reference is made to new applications, continuations, renewals, and supplementals. Application deadline information is also indicated in the Deadlines Index, in the agency's listing guidelines, or announced in the Federal Register. Where not available, applicants should contact the funding agency for deadline information.

Example: Staffing: Determined by award period (contact the Regional Office).

Range of Approval or Disapproval Time -- This section informs the applicant of the representative range of time required for the application to be processed (in terms of days or months) at the Federal level.

Example: From 90 to 120 days.

Appeals -- In some cases, there are no provisions for appeal. Where applicable, this section discusses appeal procedures or allowable rework time for resubmission of applications to be processed by the funding agency. Appeal procedures vary with individual assistance listings and are either listed in this section or applicants are referred to appeal procedures documented in the relevant Code of Federal Regulations (CFR).

Example: Not applicable. (An appeal was not applicable in this case. A related assistance listing (93.231) allows applicants to reapply if revised applications are submitted.)

Renewals -- This section advises the applicant as to whether renewals or extensions of applications are available and indicates the appropriate procedures to follow. In some instances, renewal procedures may be the same as for the application procedure, e.g., for projects of a non-continuing nature renewals will be treated as new, competing applications; for projects of an ongoing nature, renewals may be given annually.

Example: This assistance listing is renewed annually. Grantees are required to update their plan and submit a current year budget.

ASSISTANCE CONSIDERATIONS:

Formula and Matching Requirements -- This section indicates the formula and matching requirements prescribed in the allocation of funds or maintenance of effort requirements. A formula may be based on population, per capita income, and other statistical factors. Applicants are informed whether there are any matching requirements to be met when participating in the cost of a project. In general, the matching share represents that portion of the project costs not borne by the Federal government. Usually, a minimum percentage for matching share is prescribed by assistance listing legislation, and matching share requirements are included in the grant agreement. Attachment F of OMB Circular No. A-102 sets forth the criteria and procedures for the evaluation of matching share requirements which may be cash or in-kind contributions made by State and local governments or other agencies, institutions, private organizations, or individuals to satisfy matching requirements of Federal grants or loans.

Cash contributions represent the grantees' cash outlay, including the outlay of money contributed to the grantee by other public agencies, institutions, private organizations, or individuals. When authorized by Federal regulation, Federal funds received from other grants may be considered as the grantees' cash contribution.

In-kind contributions represent the value of non-cash contributions provided by the grantee, other public agencies and institutions, private organizations or individuals. In-kind contributions may consist of charges for real property and equipment, and value of goods and services directly benefiting and specifically identifiable to the grant program. When authorized by Federal legislation, property purchased with Federal funds may be considered as grantees' in-kind contribution.

Maintenance of effort (MOE) is a requirement contained in certain legislation, regulations, or administrative policies stating that a grantee must maintain a specified level of financial effort in a specific area in order to receive Federal grant funds, and that the Federal grant funds may be used only to supplement, not supplant, the level of grantee funds. assistance listings that have maintenance of effort requirements and have total allocations over \$100 million (current FY) should have the following statement in this section: This listing has maintenance of effort (MOE) requirements; see funding agency for further details.

Example: Staffing: Federal funds on a decreasing percentage basis over a period of 8 years 90 percent - 1st and 2nd years; 80 percent - 3rd year; 75 percent - 4th and 5th years; 70 percent - 6th, 7th and 8th years. Non-poverty areas are entitled to: 80 percent - 1st and 2nd years; 75 percent -3rd year; 60 percent -4th year; 45 percent - 5th year; 30 percent - 6th, 7th and 8th years.

Length and Time Phasing of Assistance -- This section indicates the time period during which the assistance is normally available, whether there are any restrictions placed on the time permitted to use the funds awarded, and the timing of disbursement of the assistance, e.g., lump sum, annually, quarterly, or as required.

Example: Staffing grants are limited to 8 years by law. Payments are made on a Monthly Cash Request System or under a Letter of Credit.

POST ASSISTANCE REQUIREMENTS:

Reports -- This section indicates whether assistance listing reports, expenditure reports, cash reports or performance monitoring is required by the Federal funding agency, and specifies at what time intervals (monthly, annually, etc.) this must be accomplished.

Example: Interim progress reports must be submitted annually as part of anon-competing application; reports of expenditures are due annually. Immediate reporting of any inventions is required.

Audits -- This section discusses audits required by the Federal agency. The procedures and requirements for State and local governments and nonprofit entities are set forth in OMB Circular No. A-133. These requirements pertain to awards

made within the respective State's fiscal year -- not the Federal fiscal year, as some State and local governments may use the calendar year or other variation of time span designated as the fiscal year period, rather than that commonly known as the Federal fiscal year (from October 1st through September 30th).

Example: In accordance with the provisions of OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that receive financial assistance of \$300,000 or more in Federal awards will have an audit made for that year. Nonfederal entities that expend less than \$300,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records -- This section indicates the record retention requirements and the type of records the Federal agency may require. Not included are the normally imposed requirements of the General Accounting Office. For assistance listings falling under the purview of OMB Circular No. A-102, record retention is set forth in Attachment C. For other listings, record retention is governed by the funding agency's requirements.

Example: Records must be retained at least 3 years; records shall be retained beyond the 3-year period if audit findings have not been resolved.

FINANCIAL INFORMATION:

Account Identification -- This 11-digit budget account identification code represents the account that funds a particular listing. This code should be consistent with the code given for the assistance listing area as specified in Appendix II of the Budget of the United States Government. (See Appendix II for further information on the meaning of the 11 digits of this code.)

Example: 75-1361-0-1-550.

Obligations -- The dollar amounts listed in this section represent obligations for the past fiscal year (PY), estimates for the current fiscal year (CY), and estimates for the budget fiscal year (BY) as reported by the Federal agencies. In each succeeding edition of the Catalog, the dollar amounts are revised to reflect changes that may result from supplemental appropriations or amendments. Each assistance listing indicates what the obligation figures represent in terms of the type of assistance provided. Obligations for nonfinancial assistance listings indicate the administrative expenses involved in the operation of an assistance listing as an indication of the magnitude of the services being provided, or the items involved in obligations. Introduction and How to Use the Catalog VI July 2018

Example: (Grants) PY \$19,853,000; CY est. \$20,407,000; and BY est. \$14,830,000.

Range and Average of Financial Assistance -- This section lists the representative range (smallest to largest) of the amount of financial assistance available. These figures are based upon funds awarded in the past fiscal year and the current fiscal year to date. Also indicated is an approximate average amount of awards that were made in the past and current fiscal years.

Example: Formula: \$26,355 to \$691,481; \$235,305.

ACCOMPLISHMENTS -- This section briefly describes the accomplishments of an assistance listing using quantitative data, focusing on assistance listing output, results achieved, or services rendered during the past fiscal year, the current fiscal year, and projections for the coming fiscal year.

Example: In the past fiscal year, 140 applications were received, and 140 staffing

awards were issued. Approximately 147 continuation grants were funded during the current fiscal year and 103 are estimated to be funded in the budget fiscal year.

REGULATIONS, GUIDELINES, AND LITERATURE -- This section lists the title, number, and price of guidelines, handbooks, manuals, and other officially published information pertinent to an assistance listing. Since assistance listing regulations are published first in the Federal Register (FR) and later in the Code of Federal Regulations (CFR), citations to the CFR are listed.

Example: Interim guidelines available in application kits.

INFORMATION CONTACTS:

Regional or Local Assistance Location -- This section lists the agency contact person, address and telephone number of the Federal Regional or local assistance location to be contacted for detailed information regarding a assistance listing such as: (0) current availability of funds and the likelihood of receiving assistance within a given period; (2) preapplication and application forms required; (3) whether a preapplication conference is recommended; (4) assistance available in preparation of applications; (5) whether funding decisions are made at the headquarters, regional or local level; (6) application renewal procedures (including continuations and supplementals) or appeal procedures for rejected applications; and (7) recently published assistance listing guidelines and material.

However, for most listings in the Catalog, this section will instruct the reader to consult Appendix IV of the Catalog (Agency Regional and Local Office Addresses) due to the volume of Regional and Local Office Contacts for most agencies. For those agencies with fewer contacts, the actual information will be provided in this section.

Example: Substance Abuse and Mental Health Services Administration (SAMSHA) Branch of the appropriate HHS Regional Office (see Appendix IV of the Catalog for listing).

(Appendix IV Listing) Region 0
(Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont)
William Farrow
John F. Kennedy Federal Building
Government Center
Boston, MA 02203
(607) 123-4567
(Use same number for FTS)

Headquarters Office -- This section lists names and addresses of the office at the headquarters level with direct operational responsibility for managing an assistance listing. A telephone number is provided in cases where a Regional or Local Assistance Location is not normally able to answer detailed inquiries concerning an assistance listing. Also listed are the name(s) and telephone number(s) of the information contact person(s) who can provide additional assistance listing information to applicants.

Example: Dr. Steven Sharfstein, Acting Director, Division of Mental Health Service Programs, Substance Abuse and Mental Health Services Administration, 5600 Fishers Lane, Rockville, MD 20857. Telephone: (301) 123-4567. Use same number for FTS.

RELATED LISTINGS -- This section of the assistance listing description details all listings in the Catalog that are closely related based on objectives and assistance listing uses. Applicants should also refer to these assistance listings, as they may provide additional assistance in a related area of interest.

Example: 93.232, Maternal and Child Health Services; 93.233, Maternal and Child Health Training; 93.242, Mental Health Research Grants; 93.295, Community

Mental Health Centers-Comprehensive Support; 93.630, Developmental Disabilities-Basic Support.

EXAMPLES OF FUNDED PROJECTS -- This section indicates the different types of projects which have been funded in the past. Only projects funded under Project Grants or Direct Payments for Specified Use should be listed here. The examples give potential applicants an idea of the types of projects that may be accepted for funding. The agency should list at least five examples of the most recently funded projects.

Example: Awards are made only for staffing of facilities offering mental health services for children.

CRITERIA FOR SELECTING PROPOSALS -- This section indicates the criteria used by the Federal grantor agency to evaluate proposals in order to inform potential applicants of the application review process and the criteria used to award funds for projects.

Example: The criteria for selecting proposals are based upon the extent the project will contribute to needed services and training, capability of applicant to provide services and training, more effective utilization of personnel providing mental health services, and development of new methods or information.

APPENDICES --The last section of the Catalog contains the following appendices: Listings Requiring Executive Order 12372 Review (Appendix I); Budget Functional Code Appendix (Appendix II); Sources of Additional Information Agency Regional and Local Office Addresses (Appendix III); Agency Regional and Local Office Addresses (Appendix IV); and in the December update to the Catalog, Historical Profile of Catalog Listings (Appendix V).

Appendix I – Listings Requiring Executive Order 12372

Review: This Appendix gives a brief description of Executive Order 12372. The description explains its purpose, identifies a listing of all Catalog program numbers and titles to which it applies, the general procedures to follow in applying for assistance, and the State Single Point of Contact List to which the States may refer for application coordination purposes.

Appendix II -- Budget Functional Code Appendix: This appendix catalogs listings by the Budget functional classification. The three digits listed are the major and minor functional classifications used to identify the major purpose of the listing.

Appendix III -- Sources of Additional Information

Information pertaining to Federal programs is available from Federal Information Centers and Federal Executive Boards as listed in this Appendix. Also listed are other government sources of information, including the 24 U.S. locations for the Government Printing Office Bookstores that sell the Catalog and other Federal publications.

Appendix IV -- Agency Regional and Local Assistance

Location Addresses: This appendix lists the names, addresses and telephone numbers of the regional and local assistance location that should be contacted for detailed information concerning a program and for initiating the process for applying for assistance. In cases where a Federal agency does not have a regional or local assistance location, the headquarters office listed in the program description should be contacted.

Appendix V -- Historical Profile of Catalog Listings: This appendix catalogs all listings that have been published in the Catalog of Federal Domestic Assistance beginning with the 1965 edition, and the subsequent action taken related to those listings. It can be found on the CFDA Web Site: <http://www.beta.sam.gov>

AGENCY INDEX SUMMARY

The following is a summary description of the functions and activities of federal agencies responsible for administering assistance listings in the Catalog. The CFDA numbers are also listed next to the administering agency.

AGENCY FOR INTERNATIONAL DEVELOPMENT

(98.001-98.999)

To promote transformational development in less-developed and selected middle-income countries. Transformational development brings far-reaching, fundamental changes in governance and institutional capacity, human capacity, and economic structure. Such development helps a country sustain further economic and social progress without depending on foreign aid. The goal of achieving transformational development pertains to stable developing countries which have significant need for concessional assistance and are committed to promoting economic freedom, ruling justly, and investing in people.

AGRICULTURE, DEPARTMENT OF (10.001-10.999)

Through leadership and partnership with USDA agencies: ensure the provision of information, technical assistance, and training to all USDA customers with emphasis on under-served populations, to assure they have full access to all USDA programs and services. Maintains effective competition and fair trade practices in the marketing of livestock, poultry for the protection of livestock and poultry producers. Administers programs to make food assistance available to people who need it. These programs are operated in cooperation with State and local governments. Participates in a nationwide system of agricultural research program planning and coordination between the States and the Department of Agriculture to encourage and assist in the establishment and maintenance of cooperation within and among the States and between the States and their Federal research partners. The primary function is to administer the Acts of Congress that authorize Federal appropriations for agricultural research carried on by the State agricultural experiment stations of the 50 States, Puerto Rico, Guam, the Virgin Islands, the District of Columbia, American Samoa, and Micronesia the Northern Marianas, approved schools of forestry, the 1890 land-grant institutions and Tuskegee University, colleges of veterinary medicine, and other eligible institutions. The Extension activities of the Cooperative State Research, Education, and Extension Service coordinates and provides administrative, technical, and other services to a nationwide Cooperative Extension System, in partnership with State and local governments and the private sector. The primary function of this system is to take the research findings of the Department of Agriculture, the State Land-Grant Colleges and programs administered by the Department of Agriculture, and to develop and deliver informal, out-of-school educational programs. These programs communicate and demonstrate to people how they can apply research findings to identify and solve farm, home, and community problems. This work is carried out through extension offices in each State, Puerto Rico, Guam, the Virgin Islands, the District of Columbia, American Samoa, and Micronesia, plus 16, 1890 land-grant universities and Tuskegee University as the State partner.

AGRICULTURAL MARKETING SERVICE (10.153, 10.155-10.156, 10.162-10.165, 10.167-10.168, 10.170, 10.172, 10.174)

Administers standardization, grading, voluntary inspection, market news, marketing orders, regulatory, and related programs.

AGRICULTURAL RESEARCH SERVICE (10.001, 10.700)

Conducts research to develop new knowledge and technology to ensure an abundance of high quality agricultural commodities and products at reasonable prices to meet the increasing needs of an expanding economy and to provide for the continued improvement in the standard of living of all Americans. It conducts basic, applied, and developmental research on animal and plant production use and improvement of soil, water, and air processing, storage, distribution, food safety, consumer services and human nutrition research, and food and agriculture sciences. The National Agricultural Library of ARS disseminates useful information about agricultural and other related sciences to scientists and researchers, administrators and managers, farmers, and to the general public provides library services, such as bibliographies, reference services and document delivery.

ANIMAL AND PLANT HEALTH INSPECTION SERVICE (10.025, 10.028, 10.030)

Conducts regulatory and control programs to protect and improve animal and plant health for the benefit of man and the environment and to control or reduce damage caused by nuisance mammals and birds and those mammal and bird species that are reservoirs for zoonotic diseases, except for urban rodent control.

ECONOMIC RESEARCH SERVICE (10.250, 10.253, 10.255)

The Economic Research Service produces economic and other social science information as a service to the general public and to help Congress and the administration develop, administer, and evaluate agricultural and rural policies and programs.

FARM SERVICE AGENCY (10.051, 10.053-10.056, 10.069, 10.074, 10.087, 10.090, 10.098-10.099, 10.102, 10.105-10.106, 10.108-10.120, 10.122, 10.171, 10.404, 10.406-10.407, 10.421, 10.435, 10.449, 10.451)

Administers domestic commodity price and income support, farm loan, disaster assistance, and conservation cost-share programs for the Department of Agriculture.

FOOD AND NUTRITION SERVICE (10.533-10.537, 10.539-10.541, 10.543-10.544, 10.547, 10.549, 10.551, 10.553, 10.555-10.561, 10.565-10.569, 10.572, 10.574-10.576, 10.578-10.580, 10.582, 10.585, 10.587, 10.592-10.594, 10.596-10.597)

The Food and Nutrition Service (FNS) administers the USDA food assistance programs. These programs, which serve one in six Americans, represent our Nation's commitment to the principle that no one in this country should fear hunger or experience want. They provide a Federal safety net to people in need. The goals of the programs are to provide needy persons with access to a more nutritious diet, to improve the eating habits of the Nation's children, and to help America's farmers by providing an outlet for distributing foods purchased under farmer assistance authorities. The Service works in partnership with the States in all its programs. State and local agencies determine most administrative details regarding distribution of food benefits and eligibility of participants and FNS provides commodities and funding for additional food and to cover administrative costs.

FOOD SAFETY AND INSPECTION SERVICE (10.475, 10.477, 10.479)

Assures that meat, poultry and egg products moving in interstate and foreign commerce are safe, wholesome, unadulterated and accurately labeled, as required by the Federal Meat Inspection Act, the Poultry Products Inspection Act, and the Egg Products Inspection Act. The Meat, Poultry, and Egg Products Inspection Programs provide continuous in plant inspection of all domestic plants preparing meat, poultry, and egg products for sale or distribution in commerce. In addition, these acts include the review of inspection systems in foreign establishments that prepare meat, poultry, or egg products for export to the United States under inspection programs that are equivalent to the U.S. program. FSIS provides technical and financial assistance to States which maintain meat and poultry inspection programs equal to Federal inspection. FSIS also enters into Cooperative Agreements with Academic institutions; State, local and tribal government agencies; and non-profit organizations to improve Food Safety and Food Defense.

FOREIGN AGRICULTURAL SERVICE (10.600-10.601, 10.603-10.606, 10.608, 10.610, 10.612-10.618, 10.777, 10.960-10.962)

The export promotion and service agency for the U.S. Department of Agriculture. Stimulates overseas markets for U.S. agricultural products. FAS fulfills its role as the promotional agency for the world's largest agricultural export business through its network of agricultural counselors, attaches, and trade officers stationed overseas and its backup team of analysts, marketing specialists, negotiators, and related specialists. FAS maintains a worldwide agricultural intelligence and reporting system through its attached service. FAS also has a continuing market development program to develop, service, and expand commercial export markets for U.S. agricultural products. By virtue of the Agricultural Trade Act of 1978,

AGENCY INDEX SUMMARY

FAS received authority to open at least 6 and not more than 25 agricultural trade offices overseas to develop, maintain and expand international markets for U.S. agricultural commodities. Ten of these offices have been established and are located in such key markets as West Germany, Saudi Arabia, Singapore, and Mexico City. To improve access for U.S. farm products abroad, FAS international trade policy specialists coordinate and direct USDA's responsibilities in international trade agreement programs and negotiations. FAS also manages the Public Law 480 Program, Titles I and III (Food for Peace Program), and the Commodity Credit Corporation (CCC) Export Credit Guarantee Programs. Public Law 480 is aimed at long-range improvement in the economies of developing countries. Commercial programs promote commercial agricultural exports by providing credit guarantees to exporters which are used to obtain additional U.S. exports. Title I, the concession sales section of Public Law 480, provides for low-interest, long-term credit to recipients of U.S. farm commodities. The Title II program authorizes the donation of agricultural commodities to foreign governments, voluntary relief agencies, or intergovernmental organizations. Title III permits multiyear programming and forgiveness of dollar payments, provided the recipient country undertakes specific agricultural and economic development projects for commodities delivered under Title I agreements. FAS focuses on sharing knowledge of agriculture through development assistance and cooperation with other countries. Primary activities are providing technical assistance and training in agriculture to other countries, particularly the developing world; working with international food and agricultural organizations to solve world food problems; and sponsoring scientific exchanges and research that will help farmers both at home and abroad.

FOREST SERVICE (10.652, 10.664-10.666, 10.672, 10.674-10.676, 10.678-10.684, 10.689-10.691, 10.693-10.694, 10.697-10.699, 10.701-10.705, 10.707)

Cares for the land and serves people. Promotes the sustainability of ecosystems by ensuring their health, diversity, and productivity, which is coupled with this service ethic: work collaboratively and use appropriate scientific information in caring for the land and serving people. Provides financial, technical and scientific assistance to outside organizations in order to achieve these goals when authorized by statute. These land and service ethics are applied by the Forest Service through ecosystem management. Ecosystem management is the integration of ecological, economic, and social factors in order to maintain and enhance the quality of the environment to meet current and future needs. The four strategic goals of the Forest Service are to: (1) protect ecosystems, (2) restore deteriorated ecosystems, (3) provide multiple benefits for people within the capabilities of ecosystems, and (4) ensure organizational effectiveness. The Forest Service Natural Resource Agenda identifies four key areas of national focus. They are: watershed, health and restoration; sustainable forest ecosystem management; forest roads management; and recreation enhancement. Implementation of the agenda will help bring people together and help them find ways to live within the limits of the land. This in turn will ensure that future generations will forever be endowed with the rich natural bounty of our Nation.

NATIONAL AGRICULTURAL STATISTICS SERVICE (10.950)

Agricultural estimates involve collecting, analyzing, and publishing agricultural production and marketing data, including: number of farms and acreage in farms; crop acreage, yields, production, stocks, value, and utilization; inventories and production of livestock, poultry, eggs, and dairy products; prices received by farmers for products, prices paid for commodities and services for living and production, and related indexes; farm employment and wage rates; cold storage supplies; agricultural chemical use; aquaculture; and other relevant aspects of the agricultural economy. Estimates for about 120 crops and 45 livestock items are published in about 400 Federal and 9,000 State-Federal reports each year. Beginning in 1997, NASS is responsible for the Census of Agriculture, previously conducted by the Bureau of the Census, Commerce Department. The Census of Agriculture is taken every 5 years and provides comprehensive data down to the county level on all aspects of the agricultural economy for the U.S., as well as selected data for American Samoa, Puerto Rico, Guam, Virgin Islands, and the Northern Mariana Islands. All information is made available to the news media and the public at scheduled release times and is available for free on the Internet. Statistical research and service is directed toward improving crop and livestock estimating techniques. Considerable emphasis is placed on improving survey sample designs as well as testing new forecasting and estimating techniques, such

as using satellite data.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE (10.200, 10.202-10.203, 10.205-10.207, 10.210, 10.212, 10.215-10.217, 10.219-10.223, 10.225-10.228, 10.303-10.304, 10.306-10.313, 10.318-10.320, 10.322, 10.326, 10.328-10.331, 10.334, 10.336, 10.500, 10.511-10.518, 10.520-10.522)

The National Institute of Food and Agriculture (NIFA) is an agency within the U.S. Department of Agriculture (USDA), part of the executive branch of the Federal Government. Congress created NIFA through the Food, Conservation, and Energy Act of 2008. NIFA replaced the former Cooperative State Research, Education, and Extension Service (CSREES), which had been in existence since 1994. NIFA's unique mission is to advance knowledge for agriculture, the environment, human health and well-being, and communities by supporting research, education, and extension programs in the Land-Grant University System and other partner organizations. NIFA doesn't perform actual research, education, and extension but rather helps fund it at the state and local level and provides program leadership in these areas.

NATURAL RESOURCES CONSERVATION SERVICE (10.072, 10.093, 10.902-10.905, 10.907, 10.912-10.914, 10.916-10.917, 10.920-10.929, 10.931-10.933)

Develops and carries out a national soil and water conservation program in cooperation with landowners, operators and other land users and developers, community planning agencies and regional resource groups, Federal, State, and local government agencies; also assists in agricultural pollution control, environmental improvement, and rural community development. Preserves, protects, and restores valued wetlands, and improves wildlife and migratory bird habitat. Supports the objectives of the Nation's commitment to the 1973 International Boundary and Water Commission Agreement concerning the quality of water in the Colorado River delivered downstream to users in the United States and the Republic of Mexico. Conserves water; preserves, maintains, and improves migratory waterfowl habitat and other wildlife resources. Encourages good forestry management through the development, management, and protection of non-industrial private forest lands, to increase the production of timber and enhance other forest resources.

RISK MANAGEMENT AGENCY (10.450, 10.458, 10.460)

The Risk Management Agency (RMA) is part of USDA. RMA's role is to help producers manage their business risks through effective, market-based risk management solutions. RMA's mission is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC). RMA was created in 1996; the FCIC was founded in 1938. RMA, via the FCIC, provides crop insurance to American producers. Private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidy, approves and supports products, and reinsures the insurance companies. RMA through the formation of partnerships with public and private organizations fund projects that:

- (A) Create new products, seek enhancements in existing products, and expand the use of non-insurance risk management tools that will be utilized by agricultural producers to assist them in mitigating the risks inherent in agricultural production. Risk management tools include a variety of risk management options and strategies developed to assist producers in mitigating the risks inherent in agricultural production. Risk management tools may include financial management tools to mitigate price and production risks; tools to enhance measurement and prediction of risks in order to facilitate risk diversification; tools to improve production management, harvesting, record keeping or marketing.
- (B) Provide women, limited resource, socially disadvantaged, and other traditionally underserved producers of Priority Commodities with risk management training, informational opportunities, and assistance necessary to understand: (1) The kind of risks addressed by existing and emerging risk management tools; (2) The features and appropriate use of existing and emerging risk management tools; and (3) How to make sound risk management decisions.
- (C) Deliver crop insurance education and information to U.S. agricultural producers in certain States that have been designated as historically underserved with respect to crop insurance. The states, collectively referred to as Targeted States, are Connecticut, Delaware,

AGENCY INDEX SUMMARY

Maine, Maryland, Massachusetts, Nevada, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Utah, Vermont, West Virginia, and Wyoming. (D) Deliver risk management education and information in the management of production, marketing, and financial risk to U.S. agricultural producers. The program gives priority to educating producers of crops currently not insured under Federal crop insurance, specialty crops, and underserved commodities, including livestock and forage.

RURAL BUSINESS COOPERATIVE SERVICE (10.350-10.352, 10.767-10.768, 10.771, 10.773, 10.782, 10.854, 10.865-10.868, 10.870-10.871, 10.874, 10.890)

The mission of the Rural Business-Cooperative Service is to enhance the quality of life for all rural Americans by providing leadership in building competitive businesses and sustainable cooperatives that can prosper in the global marketplace.

USDA, ASSISTANT SECRETARY FOR DEPARTMENTAL MANAGEMENT (10.443, 10.464)

DM's mission is to provide management leadership to ensure that USDA administrative programs, policies, advice and counsel meet the needs of USDA program organizations, consistent with laws and mandates; and provide safe and efficient facilities and services to customers.

USDA, OFFICE OF THE CHIEF ECONOMIST (10.290-10.291)

The Office of the Chief Economist (OCE) advises the Secretary on the economic implications of policies and programs affecting the U.S. food and fiber system and rural areas as well as coordinates, reviews, and approves the Department's commodity and farm sector forecasts. OCE staff also coordinates USDA's Agricultural Outlook Forum, which has been hosted annually since 1923./n/n

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (88.001-88.999)

Ensures compliance to Federal laws requiring accessibility for physically handicapped persons in certain federally funded buildings and facilities throughout the Nation. This includes setting guidelines and requirements for accessibility standards prescribed by Federal agencies, providing technical assistance to organizations agencies and individuals requesting help in solving accessible design and construction problems, and conducting research to determine appropriate specifications for accessibility.

BROADCASTING BOARD OF GOVERNORS (90.500-90.599)

The Broadcasting Board of Governors (BBG) encompasses all U.S. civilian international broadcasting, including the Voice of America (VOA), Radio Free Europe/Radio Liberty (RFE/RL), Radio Free Asia (RFA), Radio and TV Marti, and the Middle East Broadcasting Networks (MBN) -- Radio Sawa and Alhurra Television. BBG broadcasters distribute programming in 59 languages to an estimated weekly audience of 171 million people via radio, TV, the Internet and other news media. The BBG works to serve as an example of a free and professional press, reaching a worldwide audience with new, information, and relevant discussions./n

COMMERCE, DEPARTMENT OF (11.001-11.999)

COMMERCE, DEPARTMENT OF

ECONOMIC DEVELOPMENT ADMINISTRATION (11.020, 11.300, 11.302-11.303, 11.307, 11.312-11.313)

The EDA's mission is to lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. /n

INTERNATIONAL TRADE ADMINISTRATION (11.112)

Promotes world trade and strengthens the international trade and investment position of the United States.

MINORITY BUSINESS DEVELOPMENT AGENCY (11.802, 11.804-11.805)

Assists minority businesses in achieving effective and equitable participation in the

American free enterprise system and in overcoming social and economic disadvantages that have limited their participation in the past. The agency provides national policies and leadership in forming and strengthening a partnership of business, industry, and government with the Nation's minority businesses. Management and technical assistance is provided to minority firms on request, primarily through a network of local business development organizations funded by the Agency.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY (11.013, 11.601, 11.603-11.604, 11.606, 11.609-11.612, 11.616, 11.619-11.620)

The NIST mission is to promote U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology in ways that enhance economic security and improve our quality of life. Since 1901, NIST, a non-regulatory agency, has been supplying the measurements and tools—from standardized high-precision gage blocks needed to manufacture interchangeable parts to the world's most accurate atomic clock—to help U.S. industry compete successfully through innovation. Over the last few decades, NIST has been assigned important new roles and responsibilities, including awarding competitive grants to foster development of promising, high-risk technologies; diffusing advanced technologies and business practices to smaller manufacturers; and promoting quality management methods in key sectors. Old and new, all NIST programs support the nation's agility, innovation, and competitiveness./nNIST Laboratory Program - For more than 100 years, NIST has maintained the national standards of measurement, a role that the U.S. Constitution assigns to the Federal Government. Today, the NIST Laboratories address increasingly complex measurement challenges. For example, NIST develops measurements focusing on the very small (e.g., nanotechnology devices) and the very large (e.g., skyscrapers), the physical—methods for characterizing strands of DNA for forensic testing and the virtual—methods for testing electronic health record systems, and tests the performance of walk-through metal detectors. The NIST Laboratories work at the frontiers of measurement science to ensure that the U.S. system of measurements is firmly grounded on a sound scientific and technical foundation. NIST promotes the use of measurements based on the international system of units (SI). The measurement science research at NIST is useful to all science and engineering disciplines. The NIST Laboratories work to assure that the U.S. realization of the basic and derived measurement units is consistent with the realization in other nations. NIST Laboratories engage in a number of international activities to support trade and global science, and to promote the international acceptance of U.S. measurement standards. The NIST Laboratories provide industry and academia with unique user facilities that support innovation in materials science, nanotechnology, and other emerging technology areas through the NIST Center for Neutron Research, which provides world class neutron measurement capabilities to the U.S. research community, and the NIST Center for Nanoscale Science and Technology, which supports nanotechnology development from discovery to production. The NIST Laboratories also support the development of standards and specifications that define technical and performance requirements for goods and services. These standards—also known as documentary standards—are often developed collaboratively with the private sector through an open, consensus-based process. NIST scientists and engineers lend their expertise to these efforts in order to promote standards that are based on sound science, and to ensure that the standards are supported by effective measurements and testing methods for conformity. In addition, NIST is designated under the National Technology Transfer Advancement Act (NTTAA) as the coordinator for all Federal agencies using documentary standards that are developed by private-sector consensus bodies to carry out their policy objectives./nInnovation and Industry Services Hollings Manufacturing Extension Partnership - Through partnerships between Federal and state governments and non-profit organizations, NIST's Hollings Manufacturing Extension Partnership (MEP) provides technical and business assistance to smaller manufacturers through a nationwide network in all 50 states and Puerto Rico. Field agents and programs are helping manufacturers understand, adopt, and apply new technologies and business practices, as well as reap the benefits through increased productivity, better performance, cost savings, waste reduction, and creation and retention of manufacturing jobs. MEP acts as a strategic advisor to promote business growth and innovation and to connect manufacturers to public and private resources essential for increased profitability and competitiveness in the global marketplace./nTechnology Innovation Program (TIP) - The TIP statute originated in the America Creating Opportunities to Meaningfully Promote Excellence in

Technology, Education, and Sciences (COMPETES) Act of 2007 (P.L. 110-69). The COMPETES Act was recently reauthorized as the America COMPETES Reauthorization Act of 2010 (P.L. 111-358). TIP was established to help U.S. businesses, institutions of higher education, and other organizations—such as national laboratories and nonprofit research institutes—to support, promote, and accelerate innovation in the United States through high-risk, high-reward research in areas of critical national need. The final FY 2012 appropriations did not provide funding for TIP. The program is currently implementing an orderly close down of the program. /nBaldrige Performance Excellence Program (BPEP) - NIST's Baldrige Performance Excellence Program (BPEP) provides global leadership in the learning and sharing of successful strategies and performance practices, principles, and methodologies to strengthen U.S. organizations. The program promotes organizational excellence through education, outreach, and an annual Presidential awards program. The Baldrige Award is given to organizations in six categories: manufacturing, service, small business, health care, education, and nonprofit. BPEP works closely with these organizations to recognize and disseminate proven best practices for management and operation, leading to organizations that are more strategic, innovative, competitive, and effective. BPEP also takes advantage of more than 20 years worth of learning from Baldrige Award recipients to identify strategies and practices that are most likely to strengthen the performance and competitiveness of U.S. industry and other organizations. /n

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION (11.008, 11.011-11.012, 11.015, 11.017, 11.021-11.022, 11.400, 11.407-11.408, 11.413, 11.415, 11.417, 11.419-11.420, 11.426-11.427, 11.429, 11.431-11.441, 11.451-11.452, 11.454-11.455, 11.457, 11.459-11.460, 11.462-11.463, 11.467-11.469, 11.472-11.474, 11.478, 11.480-11.483, 11.999)

Reports the weather of the U.S. and its possessions and provides weather forecasts to the general public, issues warnings against such destructive natural events as hurricanes, tornadoes, floods, and tsunamis and provides special services in support of aviation, marine activities, agriculture, forestry, urban air-quality control, and other weather-sensitive activities; monitors and reports all nonfederal weather modification activities conducted in the U.S.; conducts an integrated program of management, research, and services related to the protection and rational use of living marine mammals; prepares and issues nautical and aeronautical charts, provides the Nation's precise geodetic surveys, and conducts broad research programs in marine and atmospheric sciences, solar-terrestrial physics, and experimental meteorology, including weather modifications; predicts tides, currents, and the state of the oceans, conducts research and development aimed at providing alternatives to ocean dumping; provides Federal leadership in promoting wise and balanced management of the Nation's coastal zone; provides satellite observations of the environment by establishing and operating a national environmental satellite system; conducts integrated program of research and services relating to the oceans and inland waters, the lower and upper atmosphere, space environment, and the earth; acquires, stores, and disseminates worldwide environmental data through a system of meteorological, oceanographic, geodetic, and seismological data centers; develops a system of data buoys for automatically obtaining and disseminating marine environmental data; promotes the development of technology to meet future needs of the marine community.

NATIONAL TELECOMMUNICATIONS AND INFORMATION ADMINISTRATION (11.014, 11.549-11.550, 11.553, 11.557)

Exercises significant responsibility in the areas of communication security, privacy protection, and the application of public service satellites, public telecommunications facilities planning and construction; formulates policies to support the development, growth and regulation of telecommunications, information, and related industries; furthers the efficient development and use of telecommunications and information services; provides policy and management for the use of electromagnetic spectrum; provides telecommunications facilities grants to public service users.

U.S. Census Bureau (11.016)

Conducts decennial censuses of population and housing; quinquennial censuses of State and local governments, manufacturers, mineral industries, distributive trades, construction industries, and transportation; current surveys which provide information on many of the subjects covered in the censuses at weekly, monthly,

quarterly, annual, or other intervals; compilation of current statistics on U.S. foreign trade, including data on imports, exports, and shipping; conducts special censuses at the request and expense of State and local government units; publishes estimates and projections of the population and housing characteristics; issues current reports on manufacturing, retail and wholesale trade, selected services, construction, imports and exports, State and local government finances and employment, and other subjects; and makes searches of decennial census records and furnishes transcripts to individuals for use as evidence of age, relationship, or place of birth.

COMMODITY FUTURES TRADING COMMISSION (78.001-78.999)

Promotes healthy economic growth, protects the rights of customers, and ensures fairness and integrity in the marketplace through regulation of futures trading. To this end it also engages in the analysis of economic issues affected by or affecting futures trading.

DENALI COMMISSION (90.100-90.199)

Created by Congress in 1998, the Denali Commission is the Federal government and the State of Alaska working together to assist the most remote of American citizens to help themselves move closer to economic self-sufficiency, while preserving ancient cultural values and new opportunities to people living in American's last frontier. With the creation of the Denali Commission, Congress acknowledged the need for increased inter-agency cooperation and focus on these remote communities. This Federal-State partnership is intended to promote rural development, provide power generation and transmission facilities, modern communication systems, water and sewer systems and other infrastructure needs.

DEPARTMENT OF DEFENSE (12.001-12.999)

Principal advisor to the Under Secretary of Defense (Policy) and the Secretary of Defense on national security strategy and defense strategy and in the requirements, forces and contingency plans necessary to implement those strategies. Civil functions of the Department of the Army include the Civil Works Program, the administration of Arlington and Soldiers' Home National Cemeteries, and other related matters. The Army's Civil Works Program, a responsibility of the Corps of Engineers is the Nation's major Federal water resources development activity and involves engineering works such as major dams, reservoirs, levees, harbors, waterways, locks, and many other types of structures. These works provide flood protection for cities and major river valleys, reduce the cost of transportation, supply water for municipal and industrial use, generate hydroelectric power, provide recreational opportunities for vast numbers of people, regulate the rivers for many purposes including the improvement of water quality and the enhancement of fish and wildlife, protect the shores of the oceans and lakes, and provide still other types of benefits. Planning assistance is also provided to States and other nonfederal entities for the comprehensive management of water resources, including pollution abatement works. In addition, through the Civil Works Program the Federal government protects the navigable waters of the United States under legislation empowering the Secretary of the Army to prohibit activities which would reduce the value of such waters to the Nation. Includes two lead offices: the Office of Naval Research and the Office of Naval Technology. The Chief of Naval Research is responsible for the Department of Navy Research (6.1) and Exploratory Development (6.2) Programs. The Chief of Naval Research is responsible to the Secretary of the Navy through the Assistant Secretary (Research, Engineering and Systems) and is a principal adviser to the latter. The Chief of Naval Research is also responsible for providing leadership, management, and direction to the Department of Navy research and exploratory development programs and other research, development, technology, and equipment programs assigned to and conducted by the Office of the Chief of Naval Research; developing and formulating viable and responsive naval research and technology requirements based on current and projected Navy and Marine Corps long-range objectives and considerations of national security; and coordinating naval research and promoting cooperative research efforts within the Department of the Navy with other elements of the Department of Defense, National Science Foundation, National Aeronautics and Space Administration, Department of Energy, and other government research groups. The Office of Naval Research also conducts research in conjunction with the research and development conducted by other Department of Navy activities, coordinates the Naval Basic Research Program, and conducts a

contract management program with educational institutions in support of all Federal agencies. The Office of Naval Technology, established in October 1980, manages the Department of Navy's Exploratory Development (6.2) Program, assessing, planning, programming, budgeting, directing, and monitoring the program, and manages the oversight activities in regard to the Industrial Independent Research and Development Program. The Secretary's responsibilities include matters pertaining to organization, training, logistical support, maintenance, welfare of personnel, administrative, recruiting, research and development, and other activities prescribed by the President or the Secretary of Defense. The principal assistant to the Secretary is the Under Secretary, who acts with the full authority of the Secretary on all affairs of the Department. The Air Force Materiel Command researches, develops, tests, acquires, delivers, and logistically supports every Air Force weapons system. It has responsibilities from inception of a weapons system through its operational life and final disposition. The Air Force Materiel Command operates major product centers, logistics centers, test centers, and laboratories. It was created in July 1992 through the integration of the Air Force Logistics Command and the Air Force Systems Command. The Defense Advanced Research Projects Agency is a separately organized agency within the Department of Defense under a Director appointed by the Secretary of Defense. The Agency engages in advanced, basic, and applied research and development projects essential to the Department of Defense, and conducts prototype projects that embody technology that may be incorporated into joint programs, programs in support of deployed U.S. forces, or selected Military Department programs and, on request, assists the Military Departments in their prototype efforts. In this regard, the Agency arranges, manages, and directs the performance of work connected with assigned advanced projects by the Military Departments, other government agencies, individuals, private business entities, as appropriate; recommends through the Under Secretary of Defense for Acquisition to the Secretary of Defense assignment of advanced projects to the Agency; keeps the Under Secretary, the Organization of Joint Chiefs of Staff, the Military Departments, and other Department of Defense agencies informed on significant new developments and technological advances within assigned projects; and performs other such functions as the Secretary of Defense or the Under Secretary may assign.

National Guard Bureau (12.400-12.401, 12.404)

Provides a combat-ready reserve force and facilities for training and administering the Army National Guard units in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands.

National Security Agency (12.900-12.903, 12.905)

The National Security Agency/Central Security Service is responsible for the centralized coordination, direction, and performance of highly specialized technical functions in support of U.S. Government activities to protect U.S. communications and produce foreign intelligence information. The National Security Agency was established by Presidential directive in 1952 as a separately organized agency within the Department of Defense. In this directive, the President designated the Secretary of Defense Executive Agent for the signals intelligence and communications security activities of the Government. The Agency was charged with an additional mission, computer security, in a 1984 Presidential directive, and with an operations security training mission in a 1988 Presidential directive. In 1972 the Central Security Service was established, in accordance with a Presidential memorandum, to provide a more unified cryptologic organization within the Department of Defense and appointed the Director, National Security Agency, as Chief of the Central Security Service. The Agency has three primary missions: an information systems security mission, an operations security training mission, and a foreign intelligence information mission.

Office of the Secretary of Defense (12.355, 12.357, 12.360, 12.550, 12.558, 12.560-12.561, 12.579, 12.582, 12.599, 12.630-12.632, 12.777, 12.888)

The Secretary's responsibilities include matters pertaining to organization, training, logistical support, maintenance, welfare of personnel, administrations, recruiting, research and development, and other activities prescribed by the President or the Secretary of Defense. The principal assistant to the Secretary is the Under Secretary, who acts with the full authority of the Secretary on all affairs of the Department.

UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES (USUHS) (12.750)

UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES (USUHS)

EDUCATION, DEPARTMENT OF (84.001-84.999)

Administers programs designed to fund activities that assist students with limited English proficiency and minority languages populations by providing support for programs, activities, and management initiatives meeting the special educational needs of those populations. Provides national leadership in expanding fundamental knowledge and improving education. The Office is responsible for conducting and supporting education-related research activities; monitoring the state of education through the collection and analysis of statistical data; promoting the use and application of research and development to improve instructional practices in the classroom; and disseminating these findings to States and local education entities. The Assistant Secretary for Elementary and Secondary Education formulates policy for, directs, and coordinates the activities relating to preschool, elementary, and secondary education. Included are programs of grants to State educational agencies and local school districts, postsecondary schools, and nonprofit organizations for State and local reform, compensatory, migrant, and Indian education; drug-free schools; other school improvement programs; and impact aid. The Assistant Secretary for Postsecondary Education formulates policy, directs, and coordinates programs for assistance to postsecondary educational institutions and students pursuing a postsecondary education. Programs include assistance for the improvement and expansion of American educational resources for international studies and services, grants to improve instruction in crucial academic subjects, and construction assistance for academic facilities. The Office is headed by the Department's Chief Operating Officer and is the Federal Government's first performance based organization. The Office directs and coordinates activities that provide financial assistance through grants and work and loan programs to students pursuing a postsecondary education. Federal student financial aid programs include Stafford Loans, Parent Loans for Undergraduate Students (PLUS), Supplemental Loans to Students (SLS), Federal Insured Student Loans (FISL), consolidated loans, Perkins Loans, income contingent loans, Pell Grants, College Work-Study, Supplemental Educational Opportunity Grants (SEOG), and State Student Incentives Grants (SSIG). The Office provides leadership and direction for the Department in meeting its goals of excellence in credit management and debt collection through the collection of defaulted loans under the Guaranteed Student Loan Program and the Law Enforcement Education Program, and the collection of overpayments in the Pell Grant Program and Supplemental Educational Opportunities Program. The Assistant Secretary for Vocational and Adult Education administers programs of grants, contracts, and technical assistance for vocational and technical education, and for adult education and literacy. The Office is also responsible for coordinating these programs with other Education Department and Federal programs supporting services and research for adult education, literacy, and occupational training. The Secretary of Education advises the President on education plans, policies, and programs of the Federal government. The Secretary directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives. The Secretary also carries out certain Federal responsibilities for four federally aided corporations: The American Printing House of the Blind, Gallaudet University, Howard University, and the National Technical Institute for the Deaf. Provides leadership to ensure that people with disabilities have services, resources, and equal opportunities to learn, work, and live as fully integrated, contributing members of society. The Office coordinates the activities of the Office of Special Education Programs, which works to help States provide quality educational opportunities and early intervention services to help students with disabilities achieve their goals. Through the Rehabilitation Services Administration, the Office supports State vocational rehabilitation programs that give disabled people the education, job training, and job placement services they need to gain meaningful employment. Programs include support for training of teachers and other professional personnel; grants for research; financial aid to help States initiate, expand, and improve their resources; and media services and captioned films for the deaf. Each regional office serves as a center for the dissemination of information and provides technical assistance to State and local educational agencies and other institutions and individuals interested in Federal education

INSTITUTE OF EDUCATION SCIENCES (84.305, 84.324, 84.329, 84.372)

The Education Sciences Reform Act of 2002 established a new organization within the U.S. Department of Education, the Institute of Education Sciences. Our mission is to provide rigorous evidence on which to ground education practice and policy. By identifying what works, what doesn't, and why, we intend to improve the outcomes of education for all students, particularly those at risk of failure. The Institute funds hundreds of research studies on ways to improve academic achievement, conducts large-scale evaluations of federal education programs and reports a wide array of statistics on the condition of education such as the National Assessment of Educational Progress. We support the building of an infrastructure for evidence-based education through activities such as grants to states to develop longitudinal data systems. We disseminate evidence on education to the public and practitioners through the What Works Clearinghouse and the ERIC education database, conferences, publications and products and 10 regional education laboratories and 10 national research and development centers.

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION (84.004, 84.010-84.011, 84.013, 84.040-84.041, 84.060, 84.141, 84.144, 84.149, 84.184, 84.196, 84.206, 84.283, 84.287, 84.299, 84.310, 84.356, 84.358, 84.362, 84.365, 84.367-84.369, 84.371, 84.403, 84.415)

The Assistant Secretary for Elementary and Secondary Education formulates policy for, directs, and coordinates the activities relating to preschool, elementary, and secondary education. Included are programs of grants to State educational agencies and local school districts, postsecondary schools, and nonprofit organizations for State and local reform, compensatory, migrant, and Indian education; drug-free schools; other school improvement programs; and impact aid.

OFFICE OF FEDERAL STUDENT AID (84.007, 84.033, 84.063, 84.268, 84.379, 84.408)

The Office is headed by the Department's Chief Operating Officer and is the Federal Government's first performance based organization. The Office directs and coordinates activities that provide financial assistance through grants and work and loan programs to students pursuing a postsecondary education. Federal student financial aid programs include Stafford Loans, Parent Loans for Undergraduate Students (PLUS), Supplemental Loans to Students (SLS), Federal Insured Student Loans (FISL), consolidated loans, Perkins Loans, income contingent loans, Pell Grants, College Work-Study, Supplemental Educational Opportunity Grants (SEOG), and State Student Incentives Grants (SSIG). The Office provides leadership and direction for the Department in meeting its goals of excellence in credit management and debt collection through the collection of defaulted loans under the Guaranteed Student Loan Program and the Law Enforcement Education Program, and the collection of overpayments in the Pell Grant Program and Supplemental Educational Opportunities Program.

The Assistant Secretary for Career, Technical, and Adult Education administers programs of grants, contracts, and technical assistance for vocational and technical education, and for adult education and literacy. The Office is also responsible for coordinating these programs with other Education Department and Federal programs supporting services and research for adult education, literacy, and occupational training.

ENERGY, DEPARTMENT OF (81.001-81.999)

DOE is major government enterprise. If included among the Nation's Fortune 500 firms, it would rank in the top 50. Its \$16.5 billion appropriation comprises close to 3 percent of total Federal discretionary spending DOE Funds the largest environmental cleanup in history, and research and development that supports the Nation's defense and its energy and economic security. DOE employs over 11,000 Federal employees and about 108,000 contract employees. DOE owns and manages over 50 major installations located on 2.4 million acres in 35 States and is the fourth largest Federal landowner in the United States. DOE is an energy policy, supply, and technology enterprise. It invests in developing a secure, clean, and sustainable energy system. It helps the Nation meet its environmental challenges by administering the largest pollution prevention and efficiency program in the world, with partners from every sector of the economy. It enhances the Nation's energy security by increasing the diversity of energy, and fuel choices and sources; bringing renewable energy sources into the market, strengthening domestic production of oil and gas, maintaining the U.S. nuclear energy option, and increasing the efficiency with which we use energy and generate electricity. The Department also maintains the Strategic Petroleum Reserve and operates five Power Marketing Administrations that sell and distribute over \$3 billion of electric power generated at Federal hydroelectric plants. DOE is a national security enterprise. It is a key player in the Administration's furtherance of the Comprehensive Test Ban Treaty and its overall goal of reducing the global danger from nuclear weapons. It ensures the safety and reliability of the U.S. nuclear weapons stockpile without underground testing. At the same time, it manages and safely dismantles excess nuclear materials, and ensures the security of vital departmental nuclear assets. It provides policy and technical assistance to curb global proliferation of weapons of mass destruction, emphasizing U.S. nonproliferation, arms control, and nuclear safety objectives in the states of the former Soviet union and worldwide. Further, it develops and ensures the safety and reliability of nuclear reactor plants to power U.S. Navy warships. DOE is an environmental remediation enterprise. It cleans up the 50-year environmental legacy left at the industrial complexes where nuclear weapons were designed and manufactured. It manages the problems associated with the large quantities of various types of radioactive wastes, surplus nuclear materials, and spent nuclear fuels that remain at the sites of the Nation's nuclear weapons facilities and at nuclear energy research and development sites. In addition, it must address the growing inventory of spent nuclear fuel from commercial nuclear reactors that is awaiting disposal. These wastes must be dealt with responsibly to ensure the safety and health of the public. DOE is a science and technology enterprise. At the center of all we do are our 27 laboratories, our additional scientific user facilities, and our researchers at the Nation's universities. These form the backbone of U.S. scientific leadership by conducting and facilitating breakthrough research in energy sciences and technology, high energy physics, global climate change, genomics, superconducting materials, accelerator technologies, environmental sciences, and super-computing in support of DOE's mission. The laboratories, described as the crown jewels of the Nation's science establishment, and the Department's funding of research at universities have resulted in 66 Nobel prize winners, including three in 1996. The Department is also an investor in the Nation's most precious resource - its youth - by supporting science and mathematics education in our schools through grants, educational programs, and fellowships. DOE is global enterprise. The outcome of our work is the technology that stimulates the private market for the expansion of clean energy to meet national and global energy requirements of almost 500 quadrillion Btu's by the year 2010 - a staggering 36 percent increase over 1995. Overseas energy market needs include coal, nuclear power, oil and gas exploration, energy efficiency, and renewable energy technologies that are available for export now or that will soon be available for the international

AGENCY INDEX SUMMARY

marketplace. DOE supports the export of U.S. energy services and technologies by assisting the nations in Asia, South America, Eastern Europe, an Africa, and the states of the former Soviet Union in developing private markets for environmentally responsible, sustainable energy. These alliances support U.S. competitiveness in a global economy of growing energy infrastructure requirements and create jobs in the U.S. at all skill levels.

ENERGY, DEPARTMENT OF (81.005)

ENERGY, DEPARTMENT OF

ENVIRONMENTAL PROTECTION AGENCY (66.001-66.999)

The mission of EPA is to protect human health and the environment. EPA's purpose is to ensure that: all Americans are protected from significant risks to human health and the environment where they live, learn and work; national efforts to reduce environmental risk are based on the best available scientific information; federal laws protecting human health and the environment are enforced fairly and effectively; environmental protection is an integral consideration in U.S. policies concerning natural resources, human health, economic growth, energy, transportation, agriculture, industry, and international trade, and these factors are similarly considered in establishing environmental policy; all parts of society -- communities, individuals, businesses, and state, local and tribal governments -- have access to accurate information sufficient to effectively participate in managing human health and environmental risks; environmental protection contributes to making our communities and ecosystems diverse, sustainable and economically productive; and the United States plays a leadership role in working with other nations to protect the global environment.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (30.001-30.999)

Eliminates discrimination based on race, color, religion, sex, national origin, age or disability in hiring, promotion, firing, wages, testing, training, apprenticeship, and all other conditions of employment. The Commission also promotes voluntary action programs by employers, unions, and community organizations to make equal employment opportunity an actuality. EEOC also has oversight responsibility for all compliance and enforcement activities relating to equal employment opportunity among Federal employees and applicants, including discrimination against individuals with disabilities.

EXECUTIVE OFFICE OF THE PRESIDENT (95.001-95.999)

EXECUTIVE OFFICE OF THE PRESIDENT

EXPORT-IMPORT BANK OF THE U.S. (31.001-31.999)

The Export-Import Bank of the United States (Ex-Im Bank) is the official export credit agency of the United States. Ex-Im Bank's mission is to assist in financing the export of U.S. goods and services to international markets. Ex-Im Bank enables U.S. companies — large and small — to turn export opportunities into real sales that help to maintain and create U.S. jobs and contribute to a stronger national economy. Ex-Im Bank does not compete with private sector lenders but provides export financing products that fill gaps in trade financing. We assume credit and country risks that the private sector is unable or unwilling to accept. We also help to level the playing field for U.S. exporters by matching the financing that other governments provide to their exporters. Ex-Im Bank provides working capital guarantees (pre-export financing); export credit insurance; and loan guarantees and direct loans (buyer financing). No transaction is too large or too small. On average, 85% of our transactions directly benefit U.S. small businesses. With more than 70 years of experience, Ex-Im Bank has supported more than \$400 billion of U.S. exports, primarily to developing markets worldwide.

FEDERAL COMMUNICATIONS COMMISSION (32.001-32.999)

Regulates interstate and foreign communications by radio, television, wire, satellite, and cable. It is responsible for the orderly development and operation of broadcast services and the provision of rapid, efficient nationwide and worldwide telephone and telegraph services at reasonable rates. Its responsibilities also

include the use of communications for promoting safety of life and property and for strengthening the national defense.

FEDERAL MEDIATION AND CONCILIATION SERVICE (34.001-34.999)

Assists labor and management in resolving disputes bargaining contract negotiation through voluntary mediation and arbitration services; provides training to unions and management in cooperative processes to improve long-term relationship under the Labor-Management Cooperation Act of 1978, including Federal sector partnership training authorized by Executive Order 12871; provides alternative dispute resolution services and training to government agencies, including the facilitation of regulatory negotiations under Administrative Dispute Resolution and Negotiated Rulemaking Acts of 1990; awards competitive grants to joint labor-management committees to encourage innovative approaches to cooperative efforts.

FEDERAL TRADE COMMISSION (36.001-36.999)

Maintains competitive enterprise as the keystone of the American economic system. Although the duties of the Commission are many and varied, the foundation of public policy underlying all these duties is essentially the same: to prevent the free enterprise system from being fettered by monopoly or restraints on trade or corrupted by unfair or deceptive trade practices. In brief, the Commission is charged with keeping competition both free and fair.

FEDERAL EMERGENCY MANAGEMENT ADMINISTRATION (83.001-83.999)

FEMA is the focal point within the Federal Government for emergency planning, preparedness, mitigation, response, and recovery. The Agency works closely with State and local governments by funding emergency programs and providing technical guidance and training. These coordinated activities at the Federal, State, and local levels ensure a broad-based emergency program to protect public safety and property. FEMA was established in the executive branch as an independent agency pursuant to Reorganization Plan No. 3 of 1978 (5 U.S.C. app.) and Executive Orders 12127 of March 31, 1979 (Federal Emergency Management Agency), and 12148 of July 20, 1979 (Federal Emergency Management).

GENERAL SERVICES ADMINISTRATION (39.001-39.999)

Establishes policy and provides for the Government an economical and efficient system for the management of its property including construction and operation of buildings, procurement and distribution of supplies, utilization and disposal of property, transportation, and travel management, and management of Government-wide information technology solutions and network services. GSA is organized much like a large corporation doing business in a number of different fields. It consists of operating services and supporting staff offices, with functions carried out at three levels of organization: The Central office, regional offices, and field activities. (See Appendix IV of the Catalog for a listing of these offices.) Various publications and catalogs published by GSA include: 1) The Catalog of Federal Domestic Assistance published jointly by GSA and the Office of Management and Budget; and 2) the Consumer Information Catalog which lists selected Federal publications of interest to consumers. GSA also administers the Federal Information Centers (FCIC) which are focal points for Information about the Federal government's services, programs, and regulations.

GOVERNMENT PRINTING OFFICE

Executes orders for printing and binding placed by Congress and the departments and establishments of the Federal government. It furnishes blank paper, inks, and similar supplies to all governmental activities on order. It prepares catalogs and distributes and sells Government publications. GPO invites bids from commercial suppliers on a wide variety of printing and binding services, awards and administers contracts, and maintains liaison between ordering agencies and contractors. GPO sells through mail orders and Government bookstores approximately 10,000 publications that originate in various Government agencies, and administers the depository library program through which selected Government publications are made available in libraries throughout the country.

GULF COAST ECOSYSTEM RESTORATION COUNCIL (87.051-87.100)

AGENCY INDEX SUMMARY

The Council was created by the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States (RESTORE) Act of 2012, Sec. 1603(t)(2). The Council is charged with helping to restore the ecosystem and economy of the Gulf Coast region by developing and overseeing implementation of a Comprehensive Plan and carrying out other responsibilities. The Council is directed by statute to expend funds made available from the Trust Fund to undertake projects and programs, using the best available science, that would restore and protect the natural resources, ecosystems, fisheries, marine and wildlife habitats, beaches, coastal wetlands, and economy of the Gulf Coast.

HEALTH AND HUMAN SERVICES, DEPARTMENT OF (93.001-93.999)

The Secretary of HHS advises the President on health, welfare, and income security plans, policies, and programs of the Federal government. The Secretary administers these functions through the Office of the Secretary and the Department's 11 operating divisions, including a budget of \$460 billion and a workforce of 65,000 employees. Supports cross-cutting research on health care systems, health care quality and cost issues, and effectiveness of medical treatments. Provides a system of health surveillance to monitor and prevent the outbreak of diseases. With the assistance of States and other partners, CDC guards against international disease transmission, maintains national health statistics and provides for immunization services, and supports research into disease and injury prevention. Supports a network of 37 hospitals, 60 health centers, 3 school health centers, 46 health stations and 34 urban Indian health centers to provide services to nearly 1.5 million American Indians and Alaska Natives of 557 federally recognized tribes. Administers the Medicare and Medicaid programs, that provide health care to America's aged and indigenous populations. About one in every four Americans, including nearly 18 million children and nursing homes for low-income elderly persons are covered. CMS also administers the new Children's Health Insurance Program through approved State plans that cover more than 2.2 million children.

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY (93.225-93.226)

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY (93.161, 93.240, 93.534)

Works with States and other Federal agencies to prevent exposure to hazardous substances from waste sites. The agency conducts public health assessments, health studies, surveillance activities, and health education training in communities around waste sites on the U.S. Environmental Protection Agency's National Priorities List.

INTERIOR, DEPARTMENT OF THE (15.001-15.999)

The U.S. Department of the Interior uses sound science to manage and sustain America's lands, water, wildlife, and energy resources, honors our nation's responsibilities to tribal nations, and advocates for America's island communities. As keepers of our nation's legacy, we manage the resources in our care to benefit Americans now and in the future. Under the leadership of Secretary Ken Salazar, our department and its employees are developing and implementing the cutting-edge science and expert management techniques that make this possible.

BUREAU OF INDIAN AFFAIRS AND BUREAU OF INDIAN EDUCATION (15.020-15.022, 15.024-15.038, 15.040-15.044, 15.046-15.048, 15.051-15.053, 15.057-15.063, 15.065-15.067, 15.108, 15.113-15.114, 15.124, 15.130, 15.133, 15.141, 15.144, 15.146-15.151, 15.156, 15.159-15.163, 15.959-15.960)

As stated in Title 25 CFR Part 32.3, BIE's mission is to provide quality education opportunities from early childhood through life in accordance with a tribe's needs for cultural and economic well-being, in keeping with the wide diversity of Indian tribes and Alaska Native villages as distinct cultural and governmental entities.

Further, the BIE is to manifest consideration of the whole person by taking into account the spiritual, mental, physical, and cultural aspects of the individual within his or her family and tribal or village context.

BUREAU OF LAND MANAGEMENT (15.214, 15.222, 15.224-15.225, 15.228-15.247)

Has responsibility for the total management of 341 million acres of public lands located primarily in the Far West and Alaska and scattered parcels located in other States. In addition to minerals management responsibilities on the public lands and the Outer Continental Shelf, the Bureau is responsible for subsurface resource management of an additional 169 million acres where mineral rights have been reserved to the Federal Government. Resources managed by the Bureau include timber, minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space; provides for the protection (including fire suppression), orderly development, and use of public lands and resources under principles of multiple use and sustained yield. Land use plans are developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment; manages watersheds to protect soil and enhance water quality; makes land available through sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes; the Bureau issues rights-of-way, in certain instances, for crossing Federal lands under other agencies' jurisdictions; is responsible for the survey of Federal lands and establishes and maintains public land records and records of mining claims; and also administers a program of payments in lieu of taxes based on the amount of Federally-owned land in counties and other units of local government.

BUREAU OF OCEAN ENERGY MANAGEMENT (15.408, 15.421-15.424, 15.428, 15.443-15.444)

The Bureau of Ocean Energy Management, Regulation, and Enforcement (BOEMRE) assesses the nature, extent, recoverability, and value of leasable minerals on the Outer Continental Shelf. It ensures the orderly and timely inventory and development and the efficient recovery of mineral resources; encourages utilization of the best available and safest technology; and safeguards against fraud, waste, and abuse.

BUREAU OF RECLAMATION (15.504, 15.506-15.512, 15.514, 15.516-15.522, 15.524-15.527, 15.529-15.533, 15.537-15.546, 15.548, 15.550, 15.552-15.560, 15.564-15.567)

The Bureau of Reclamation manages, develops, and protects water and related resources in an environmentally and economically sound manner in the interest of the American public. The agency is the nation's second largest wholesale water supplier, administering 348 reservoirs with 245 million acre-feet of water. One out of five western farmers uses Reclamation water to irrigate 10 million acres of land, producing 60 percent of the nation's vegetables and 25 percent of its fruits and nuts. The agency also serves as the fifth largest electric utility in the 17 States west of the Mississippi River. Reclamation encourages and supports water conservation and environmental restoration through partnerships, incentive programs, and challenge grants. It also supports efforts to meet increasing water demands through water reclamation, recycling, and reuse.

Bureau of Safety and Environmental Enforcement (15.441-15.442)

On October 1, 2011, the new Bureau of Safety and Environmental Enforcement

U.S. FISH AND WILDLIFE SERVICE (15.605, 15.608, 15.611, 15.614-15.616, 15.619-15.623, 15.625-15.626, 15.628-15.631, 15.633-15.637, 15.639-15.645, 15.647-15.674, 15.676-15.681)

The Office of the Assistant Secretary for Fish and Wildlife and Parks has responsibility for programs associated with the use, management and conservation of natural resources, lands and cultural facilities associated with the National Park and National Refuge Systems, and the conservation and enhancement of fish, wildlife, vegetation, and habitat. The Office represents the Department in the coordination of marine ecosystems and biological resources programs with other Federal agencies. It also exercises secretarial direction and supervision over the United States Fish and Wildlife Service and the National Park Service.

U.S. Geological Survey (15.805, 15.807-15.808, 15.810-15.812, 15.814-15.815, 15.817-15.820, 15.978-15.981)

Perform surveys, investigations, and research covering topography, geology, biology, hydrology, and the mineral and water resources of the United States; classify lands as to their mineral and water resources; and publish and disseminate data relative to the foregoing activities.

INTER-AMERICAN FOUNDATION

The Inter-American Foundation, an independent U.S. government agency, was created by Congress to channel development assistance directly to the organized poor in Latin America and the Caribbean. The IAF has carried out its mandate by responding with grant and other development support for the most creative ideas for self-help received from grassroots groups and nongovernmental organizations. It also encourages partnerships among community organizations, business and local government directed at improving the quality of life for poor people and strengthening democratic practices.

JUSTICE, DEPARTMENT OF (16.001-16.999)

Is responsible for enhancing the capacity and capability of State and local jurisdictions to prepare for and respond to incidents of domestic terrorism involving chemical and biological agents, radiological and explosive devices, and other weapons of mass destruction (WMD). It awards grants for equipment and provides training and technical assistance for State and local first responders. Provides policy coordination and general management authority over the Office of Justice Programs, which includes the Bureau of Justice Assistance, the Bureau of Justice Statistics, the National Institute of Justice, the Office of Juvenile Justice and Delinquency Prevention, and the Office for Victims of Crime. While each OJP Bureau and Office retains independent authority in awarding funds to carry out its programs, together these components function as a single agency whose goal is to promote innovative programs and to foster improvements in the Nation's criminal and juvenile justice systems.

DRUG ENFORCEMENT ADMINISTRATION (16.001, 16.003-16.004)

Enforces the controlled substances laws and regulations, and brings to the criminal and civil justice system of the United States or any other competent jurisdiction, those organizations, and principal members of organizations involved in the cultivation, manufacture, or distribution of controlled substances appearing in or destined for the illicit traffic in the United States. DEA's mission requires it to provide a leadership role in narcotic and dangerous drug suppression programs at the national and international level.

FEDERAL BUREAU OF INVESTIGATION (16.300-16.305, 16.307-16.309)

Investigates all violation of Federal laws with the exception of those which have been assigned by legislative enactment or otherwise to some other Federal agency. The FBI's jurisdiction includes a wide range of responsibilities in the criminal, civil, and security fields. Among these are espionage, sabotage, and other domestic security matters; kidnapping; extortion; bank robbery; interstate transportation of stolen property; civil rights matters; interstate gambling violations; fraud against the Government; and assault or killing the President or a Federal officer. Cooperative services of the FBI for other duly authorized law enforcement agencies include fingerprint identification, laboratory services, police training, the National Crime Information Center. Uniform crime reports, and National Instant Criminal Background Check System.

FEDERAL PRISON SYSTEM / BUREAU OF PRISONS (16.601-16.603)

Responsible for the custody and care of inmates convicted to imprisonment for Federal crimes, the detention of individuals awaiting trial or sentencing in Federal court, and the confinement of the District of Columbia's sentenced felon population. To meet its mission of confining offenders and facilitating community re-entry, the BOP operates institutions at four security levels (minimum, low, medium, and high) to meet the various security needs of its diverse inmate population, and has one maximum-security prison for the less than one percent of the inmates who require that level of security. It also has administrative facilities, such as pretrial detention centers and medical referral centers, that have specialized missions and confine offenders of all security levels. The nationwide prison system includes a Central Office (headquarters), 6 regional offices, and 28 community corrections offices. The Central Office and regional offices provide administrative oversight and support to the institutions and community corrections offices. Community corrections offices oversee community corrections centers and home confinement programs.

OFFICE OF JUSTICE PROGRAMS (16.015, 16.123, 16.203, 16.320-16.321, 16.540, 16.543-16.544, 16.548, 16.550, 16.554, 16.560, 16.562, 16.566, 16.571, 16.575-16.576, 16.578, 16.582-16.583, 16.585, 16.593, 16.596, 16.606-16.610, 16.614-16.616, 16.726, 16.731, 16.734-16.735, 16.738-16.739, 16.741-16.742, 16.745-16.746, 16.750-16.754, 16.756-16.758, 16.812-16.813, 16.815-16.820, 16.822-16.836, 16.838-16.842)

LABOR, DEPARTMENT OF (17.001-17.999)

The Office of the Assistant Secretary for Veterans' Employment and Training (VETS) is responsible for the administration, formulating and implementation of policy and procedures affecting veterans as well as veteran's employment and training programs nationwide. VETS serves as a national leader on Veterans policy and procedure to the Department of Labor (DOL) and other Federal agencies. VETS fulfills a wide range of obligations prescribed by the Secretary of Labor regarding the employment and training needs of service-connected disabled veterans, Vietnam-era veterans, and veterans recently separated from military service. The VETS staff works closely with and provides technical assistance to State Employment Security Agencies and Job Training Partnership Act grant recipients to ensure that veterans are provided the priority services required by law. They also coordinate with employers, labor unions, veterans' service organizations, and community organizations through planned public information and outreach activities. Federal contractors are provided management assistance in complying with their veterans affirmative action and reporting obligations. Also administered by the Assistant Secretary through the Service is the Job Training Partnership Act, Title IV, Part C grant program designed to meet the employment and training needs of service-connected disabled veterans, Vietnam-era veterans, and veterans recently separated from military service. Job Training Partnership Act grants are awarded and monitored through the Services' national office and field staff. The Assistant Secretary also administers through the Service the Homeless Veterans Reintegration project grant program to provide employment, training, housing assistance, and supportive services to help homeless veterans reenter mainstream society. Homeless Veterans Reintegration Project grants are awarded and monitored through the Services' national office and field staff. Certain other Service staff also administer the veterans Uniformed Services Employment and Reemployment Rights Act program. They provide assistance to help restore job, seniority, and pension rights to veterans following absences from work for active military service and to protect employment and retention rights of members of the Reserve or National Guard. Other staff provide assistance to preference eligible veterans to ensure that they are not denied their veterans' preference benefits (preference in Federal government hiring and preference retention in reduction in force (RIF), under the Veterans Employment Opportunities Act (VEOA)). The Office of Disability Employment Policy (ODEP) provides national leadership on disability employment policy to the Department of Labor (DOL) and other Federal agencies. ODEP was established to bring a heightened, permanent focus to address the significant employment obstacles faced by individuals with disabilities and to ensure coordination among Federal agencies on matters related to or affecting people with disabilities. ODEP's research provides new knowledge used to develop evidence-based disability employment policies and practices for dissemination to workforce systems and partners. ODEP works to achieve its mission through collaborating on inter- and intra-agency initiatives, commissions, councils, and workgroups; building partnerships with Federal, state, local, and non-governmental stakeholders; reviewing Federal legislation and policies; designing and conducting research studies; highlighting and promoting policies and practices that increase the employment of people with disabilities; and implementing education and outreach initiatives. ODEP's stakeholders include Federal, state, and local government agencies, private and public employers and their employees, educational and training institutions, individuals with disabilities and their families, and the disability community.

BUREAU OF INTERNATIONAL LABOR AFFAIRS (17.007)

BUREAU OF INTERNATIONAL LABOR AFFAIRS

BUREAU OF LABOR STATISTICS (17.002-17.005)

The Bureau of Labor Statistics (BLS) is the principal fact-finding agency for the Federal Government in the broad field of labor economics and statistics. The BLS is an independent national statistical agency that collects, processes, analyzes, and disseminates essential statistical data to the American public, the U.S. Congress, other Federal agencies, State and local governments, business, and labor. The BLS also serves as a statistical resource to the Department of Labor. BLS data must satisfy a number of criteria, including relevance to current social and economic issues, timeliness in reflecting today's rapidly changing economic conditions, accuracy and consistently high statistical quality, and impartiality in both subject matter and presentation. /n/n

EMPLOYEE BENEFITS SECURITY ADMINISTRATION (17.150)

The Employee Retirement Income Security Act of 1974 (ERISA), (88 Stat. 829; 29 U.S.C. 1001 note), requires administrators of private pension and welfare plans to provide plan participants with easily understandable summaries of plans; to file those summaries in the Office of Pension and Welfare Benefit Programs; and to report annually on the financial operation of the plans and bonding of persons charged with handling plan funds and assets. Plan Administrators must also meet strict fiduciary responsibility standards which are enforced by the Office of Pension and Welfare Benefit Programs. Vesting, participation, and funding standards are, for the most part, administered by the Internal Revenue Service.

EMPLOYMENT AND TRAINING ADMINISTRATION (17.201, 17.207, 17.225, 17.235, 17.245, 17.258-17.259, 17.261, 17.264-17.265, 17.267-17.268, 17.270-17.274, 17.276-17.278, 17.280-17.283, 17.285-17.286)

The Employment and Training Administration (ETA) administers and oversees a number of programs designed to assist unemployed, unskilled, dislocated workers and the economically disadvantaged get the job training and other services needed to become fully productive members of society, while improving the skills and productivity of those already employed. ETA fulfills a wide range of responsibilities assigned to the Secretary of Labor relating to employment services, job training, and unemployment insurance. ETA funds training programs which enable workers to attain the skills needed for employment; administers a Federal-State employment service system which helps people find jobs and employers find workers. It also offers wage replacement programs for workers who lose their jobs through no fault of their own, such as the Unemployment Insurance (UI) and the Trade Adjustment Assistance (TAA) programs. Special efforts are made to address the unique job market problems of groups having difficulty entering or returning to the work force, such as older workers, school dropouts, displaced homemakers and individuals with disabilities. ETA also is responsible for promoting apprenticeship standards and programs and conducting programs of research, development and evaluation. The Job Training Partnership Act, enacted in 1982, is designed to provide training and related education and employment services to economically disadvantaged adults and youth to ensure that they have the required marketable skills leading to productive, unsubsidized employment. JTPA also provides reemployment and retraining services for workers dislocated through plant closings or mass layoffs. Block grants are provided to the States and U.S. territories for the operation of the program. JTPA provides for a summer youth employment and training program and Job Corps as well as special activities which offer basic skills training, job training and support services for special targeted groups such as Native Americans, and seasonal and migrant farmworkers. Implementing regulations for JTPA issued by the Department of Labor are contained in Title 20 of the Code of Federal Regulations, Parts 626-638 and 675-684. Effective July 1, 2000, JTPA is repealed and replaced by the Workforce Investment Act (WIA). WIA establishes, with States and local communities, a revitalized workforce investment system that provides workers with the information, advice, job search assistance, and training they need to get and keep good jobs, and provides employers with skilled workers. WIA is administered through State and local Workforce Investment Boards and required partnerships of local One-Stop Career Centers. Funds are used for youth, adult and dislocated worker employment and training activities. The Act also authorizes a number of national programs and the Job Corps. The U.S. Employment Service (ES) seeks to match workers looking for employment with employers seeking workers, and is operated by the States. Programs such as Alien Labor Certification are also administered under the ES by State ES agencies through reimbursement agreements with the Department of Labor. The Senior Community Service Employment Program (SCSEP), or Older Worker Program is authorized by the Older Americans Act of 1965. It provides subsidized part-time community service work for unemployed low-income people ages 55 and over. The Assistant Secretary for Employment and Training is responsible for ensuring that programs funded through ETA are free from unlawful discrimination, fraud, and abuse. It is the policy of ETA to ensure full compliance with constitutional, statutory, and regulatory provisions and to promote equal opportunity, affirmative action, and fund integrity in programs to which ETA extends financial assistance.

MINE SAFETY AND HEALTH ADMINISTRATION (17.600-17.604)

Develops and promulgates mandatory safety and health standards, ensures

compliance with such standards, assesses civil penalties for violations, investigates accidents, cooperates with and provides assistance to the States in the development of effective State mine safety and health programs, improves and expands training programs in cooperation with the States and the mining industry, and, in coordination with the Department of Health and Human Services contributes to the improvement and expansion of mine health research and development. All of these activities are aimed at preventing and reducing mine accidents and occupational diseases in the mining industry.

OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (17.502-17.504)

Develops and promulgates occupational safety and health standards; develops and issues regulations; conducts investigations and inspections to determine the status of compliance with safety and health standards and regulations; and issues citations and proposes penalties for noncompliance with safety and health standards and regulations.

OFFICE OF DISABILITY EMPLOYMENT POLICY (17.720)

The Office of Disability Employment Policy (ODEP) provides national disability employment policy leadership by developing and influencing the implementation of disability employment policies and practices affecting the employment of people with disabilities. ODEP's response to low employment rates among such a large group of Americans is unique, comprehensive, and aggressive, and includes the active involvement and cooperation of Federal, State, and local public and private entities, including employers. ODEP also leads efforts to achieve the employment related goals of the President's New Freedom Initiative. ODEP addresses the significant barriers to employment faced by individuals with disabilities by developing and disseminating national, State, and local disability employment policy; by fostering implementation of innovative strategies and practices among employers and throughout the various systems serving people with disabilities; by conducting disability-related research to build knowledge to inform policy development; and by providing technical assistance to service delivery systems and employers to increase employment opportunities and the recruitment, retention, and promotion of people with disabilities.

OFFICE OF LABOR-MANAGEMENT STANDARDS (17.309)

The Office of Labor-Management Standards conducts criminal and civil investigations to safeguard the financial integrity of unions and to ensure union democracy, and conducts investigate audits of labor unions to uncover and remedy criminal and civil violations of the Labor-Management Reporting and Disclosure Act and related studies.

OFFICE OF WORKERS COMPENSATION PROGRAM (17.302, 17.307, 17.310)

The Office of Workers' Compensation Programs administers four major disability compensation programs which provide wage replacement benefits, medical treatment, vocational rehabilitation and other benefits to certain workers or their dependents who experience work-related injury or occupational disease.

Veteran's Employment and Training Service (17.801, 17.803-17.807)

The Veterans' Employment and Training Service (VETS) is responsible for administering veterans' employment and training programs and activities to ensure that legislative and regulatory mandates are accomplished. The field staff works closely with and provides technical assistance to State employment security agencies and to Workforce Investment Act and Homeless Veterans Reintegration Programs grant recipients to ensure that veterans are provided the priority services required by law. They also coordinate with employers, labor unions, veterans service organizations, and community organizations through planned public information and outreach activities. VETS provides training to separating service members through its transition assistance program. Federal contractors are provided management assistance in complying with their veterans affirmative action and reporting obligations. VETS protects the employment and reemployment rights of service members and veterans by investigating complaints received under the Uniformed Services Employment and Reemployment Rights Act concerning denial of veterans preference in Federal hiring and also complaints concerning job, seniority, and pension rights to veterans following absences from work for active military service. VETS also protects employment and

reemployment rights of members of the Reserve and National Guard.

WOMEN'S BUREAU (17.700)

WOMEN'S BUREAU

LIBRARY OF CONGRESS (42.001-42.999)

Under the organic law, the Library's first responsibility is service to Congress. One department, the Congressional Research Service, functions exclusively for the legislative branch of the Government. As the Library has developed, its range of service has come to include the entire governmental establishment in all its branches and the public at large, so that it has become a national library for the United States. The Library's extensive collections are universal in scope. They include books and pamphlets on every subject and in a multitude of languages. Among them are the most comprehensive collections of Chinese, Japanese, and Russian language books outside Asia and the Soviet Union; volumes relating to science and legal materials, outstanding for American and foreign law; the world's largest collection of published aeronautical literature; and the most extensive collection in the western hemisphere of books printed before 1501 A.D. The manuscript collections relate to manifold aspects of American history and civilization and include the personal papers of most of the Presidents from George Washington through Calvin Coolidge. The music collections contain volumes and pieces (manuscript and published) from classic works to the newest popular compositions. Other materials available for research include maps and views; photographic records from the daguerreotype to the latest news photo; recordings, including folksongs and other music, speeches, and poetry readings; prints, drawings, and posters; government documents, newspapers, and periodicals from all over the world; and motion pictures, microforms, and audio and video tapes. Admission to the various research facilities of the Library is free. No introduction or credentials are required for persons over high school age who wish to read in the general reading rooms; however, certain collections, like those of the Manuscript, Rare Book and Special Collections, Motion Picture, Broadcasting, and Recorded Sound Divisions, can be used only by those with a serious purpose for doing so. The Library is also responsible for copyrights, which are registered by the Copyright Office. All copyrightable works, whether published or unpublished, are subject to a system of statutory protection that gives the copyright owner certain exclusive rights, including the right to reproduce the copyrighted work and distribute it to the public by sale, rental, lease, or lending. Works of authorship include books, periodicals, and other literary works, musical compositions, song lyrics, dramas and dramatic musical compositions, pictorial, graphic, and sculptural works pantomimes and choreographic works, motion pictures and other audiovisual works, and sound recordings. The Library extends its service through an interlibrary loan system; the photoduplication, at reasonable cost, subject to conditions of law, copyright, and deposit of books, manuscripts, maps, and newspapers, and prints in its collections; the sale of sound recordings, which are released by its Recording Laboratory; the exchange of duplicates with other institutions; the sale of printed catalog cards and magnetic tapes, and the publication in book format or microform of cumulative catalogs, which make available the results of the expert bibliographical and cataloging work of its technical personnel; a centralized acquisitions program whereby the Library of Congress acquires material published all over the world, catalogs it promptly, and distributes cataloging information in machine readable form as well as other means to the Nation's libraries; a cooperative catalog program, whereby the cataloging of data by name authority and bibliographic records, prepared by other libraries becomes part of the Library of Congress data base and distribute them through the MARC Distribution Service; a cataloging-in-publication program in cooperation with American publishers for printing and cataloging /ninformation in current books; the National Serials Data Program, a national center that maintains a record of serial titles to which International Standard Serial Numbers have been assigned and serves, with this file, as the United States Register; and the development of general schemes of classification (Library of Congress and Dewey Decimal), subject headings, and cataloging, embracing the entire field of printed matter. The American Folklife Center in the Library of Congress, has a coordinative function both in and outside the Federal establishment to carry out appropriate programs to support, preserve, and present American folklife through such activities as the collection and maintenance of archives, scholarly research, field projects, performances, exhibitions, festivals, workshops, publications, and audiovisual presentations. The Center for the Book was established in the Library of Congress to provide a program for investigating the transmission of human knowledge and to

heighten public interest in the role of books and printing in the diffusion of knowledge. Drawing on the resources of the Library of Congress, the Center works closely with other organizations to explore important issues in the book and educational communities, to encourage reading, and to encourage research about books and about reading. Its goal is to serve as a useful catalyst by bringing together authors, publishers, librarians, booksellers, educators, scholars, and readers to discuss common concerns and work toward the solution of common problems. The Library provides technical information related to the preservation and restoration of library and archival material. A series of leaflets on various preservation and conservation topics has been prepared by the Preservation Office. Information and publications are available from the National Preservation Program Office, Library of Congress. A free national library program of braille and recorded materials for blind and physically handicapped persons is administered by the National Library Service for the Blind and Physically Handicapped (NLS), Library of Congress. With the cooperation of authors and publishers who grant permission to use copyrighted works, NLS selects and produces full-length books and magazines in braille on recorded disc and cassette. Reading material are distributed to a cooperating network of regional and subregional (local) libraries where they are circulated to eligible borrowers. Reading material and playback machines are sent to borrowers and returned to libraries by postage-free mail. Established by an act of Congress in 1931 to serve blind adults, the program was expanded in 1952 to include children, in 1962 to provide music materials, and again in 1966 to include individuals with other physical impairments that prevent the reading of standard print. Information and publications are available from the National Library Service for the Blind and Physically Handicapped, Library of Congress, Washington, DC 20542.

MORRIS K. UDALL FOUNDATION

Scholarships, internships, and fellowships are financed by a permanent trust fund endowment. Programs are designed to develop increased opportunities for Americans to prepare for and pursue careers related to the environment and for Native Americans and Alaska Natives to pursue careers in health care and tribal public policy.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION (43.001-43.999)

Conducts research to solve problems of flight within and outside Earth atmosphere. Develops, constructs, tests, and operates aeronautical and space vehicles. Conducts activities required for the exploration of space with manned and unmanned vehicles; arranges for the most effective utilization of the scientific and engineering resources of the United States with other nations engaged in aeronautical and space activities for peaceful purposes.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (89.001-89.999)

Establishes policies and procedures for managing the records of the United States Government. NARA assists Federal agencies in adequately documenting their activities, administering their records management programs, scheduling their records, and retiring their noncurrent records to Federal Records Centers. The mission of the National Archives and Records Administration is to ensure, for the Citizen and the public servant, for the President and the Congress and the Courts, ready access to essential evidence. Managing the Presidential Libraries system, assisting the National Historical Publications and Records Commission in its grant program for State and local records and edited publications of prominent Americans, and publishing the laws, regulations, Presidential, and other public documents are also key functions of the National Archives and Records Administration.

NATIONAL ENDOWMENT FOR THE ARTS (45.001-45.099)

The National Endowment for the Arts is a public agency dedicated to supporting excellence in the arts, both new and established bringing the arts to all Americans, and providing leadership in arts education. The National Endowment for the Arts is the largest annual funder of the arts in the United States. An independent federal agency, the National Endowment for the Arts is the official arts organization of the United States government. The National Endowment for the Arts awards more than \$100 million annually investing in every state which in turn generates more than \$700 million in additional support. The Arts Endowment has played a transformative and sustaining role in the development of regional theater, opera, dance, orchestras, museums, and other arts both contemporary and traditional that Americans now enjoy.

NATIONAL ENDOWMENT FOR THE HUMANITIES (45.100-45.199)

Promotes and supports the production and dissemination of knowledge in the humanities. The term "humanities" includes, but is not limited to, the study of the following: language, both modern and classical; linguistics; literature; history; jurisprudence; philosophy; archaeology; comparative religion; ethics; the history, criticism, and theory of the arts; and those aspects of the social sciences that employ historical or philosophical approaches. The Endowment makes grants to individuals, groups, or institutions (schools, colleges, universities, museums, public television stations, libraries, public agencies, and nonprofit private groups) to increase understanding and appreciation of the humanities.

NATIONAL GALLERY OF ART (68.001-68.999)

The National Gallery's collections embrace every major school of western European art from the 13th century to the present and of American art from colonial days to the present. A professor-in-residence position is filled annually by a distinguished scholar in the field of art history; graduate and postgraduate research is conducted under a fellowship program; programs for children and the general public are conducted daily; and Extension Programs produces and distributes education resources for loan throughout the world; audiovisual materials include films, slide teaching programs, videocassettes, videodiscs, and CD-ROMS.

NATIONAL LABOR RELATIONS BOARD (46.001-46.999)

Administers the Nation's principal law, the National Labor Relations Act. The NLRB is vested with the power to prevent or remedy unfair labor practices and to safeguard employees' rights to organize and determine through elections whether to have unions as their bargaining representatives.

NATIONAL SCIENCE FOUNDATION (47.001-47.999)

Promotes the progress of science and engineering through the support of research and education programs. Its major emphasis is on high quality, science-driven basic research, the search for improved understanding of the fundamental laws of nature upon which our future well-being as a Nation depends. The National Science Foundation also supports applied research in several areas. Its educational programs are aimed at ensuring increasing understanding of science and engineering at all educational levels and at training an adequate supply of scientists and engineers to meet our country's needs.

NUCLEAR REGULATORY COMMISSION (77.001-77.999)

Licenses and regulates the civilian uses of nuclear energy to protect the public health and safety and the environment. It does this by licensing persons and companies to build and operate nuclear reactors and other facilities and to own and use nuclear materials. The NRC makes rules and sets standards for these types of licenses. The NRC also carefully inspects the activities of the persons and companies licensed to ensure that they do not violate the safety rules of the Commission.

OVERSEAS PRIVATE INVESTMENT CORPORATION (70.001-70.999)

Offers United States investors assistance in finding investment opportunities, insurance, and loans and loan guaranties to help finance their projects in developing countries. It encourages investment projects that will help the social

and economic development of these countries.

PEACE CORPS (45.400-45.499)

The mission of the Peace Corps is to promote world peace and friendship by placing Peace Corps Volunteers (PCVs) in over 70 countries to address and assist with community-based needs in the areas of education, community development, health, business, information technology, agriculture and the environment. From AIDS education to emerging technologies to environmental preservation to new market economies, Peace Corps Volunteers have helped people build better lives for themselves. Their work in villages, towns, and cities around the globe represents a legacy of service that has become a significant part of America's history and positive image abroad. The Peace Corps' mission has three simple goals: 1. Helping the people of interested countries in meeting their need for trained men and women. 2. Helping promote a better understanding of Americans on the part of the peoples served. 3. Helping promote a better understanding of other peoples on the part of Americans.

PENSION BENEFIT GUARANTY CORPORATION (86.001-86.999)

The Pension Benefit Guaranty Corporation guarantees payment of nonforfeitable pension benefits in covered, private-sector-defined benefit pension plans. Title IV of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1301 et seq.) provides for coverage of most private-sector-defined benefit pension plans that provide a benefit based on factors such as age, years of service, and average or highest salary. The Corporation administers two benefit insurance programs separately covering single-employer and multi-employer plans. Nearly 40 million workers participate in more than 112,000 covered plans. Single-Employer Insurance: Under the single-employer program, the Corporation guarantees payment of a covered plan's basic benefits if that plan terminates without sufficient assets to pay those guaranteed benefits. Multi-employer Insurance: Under Title IV of the Act, as originally enacted, the Corporation guaranteed nonforfeitable benefits for multi-employer plans in a similar fashion as for single-employer plans. However, the payment of guaranteed benefits was at the agency's discretion under the provisions of the law that remained in force until August 1, 1980. The Multi-employer Pension Plan Amendments Act of 1980 (29 U.S.C. 1001) revised the law applicable to multi-employer pension plans by changing the insurable event from plan termination to plan insolvency. In accordance with the Act, the Corporation provides financial assistance to plans that are unable to pay basic benefits. The plans are obligated to repay such assistance. The act also made employers withdrawing from a plan liable to the plan for a portion of its unfunded vested benefits. Premium Collections: All defined benefit pension plans covered by Title IV of Employee Retirement Income Security Act are required to pay premiums under prescribed rates to the Corporation.

RAILROAD RETIREMENT BOARD (57.001-57.999)

Administers comprehensive retirement-survivor and unemployment-sickness benefit programs for the Nation's railroad workers and their families, under the Railroad Retirement and Railroad Unemployment Insurance Acts. The Board participates in the administration of the Social Security Act and the Health Insurance for the Aged Act insofar as they affect railroad retirement beneficiaries.

SECURITIES AND EXCHANGE COMMISSION (58.001-58.999)

Administers Federal securities laws that seek to provide for investors; to ensure that securities markets are fair and honest; and, when necessary, to provide the means to enforce securities laws through sanctions.

SMALL BUSINESS ADMINISTRATION (59.001-59.999)

Aids, counsels, assists, and protects the interests of small business; ensures that small business concerns receive a fair proportion of Government purchases, contracts, and subcontracts, as well as of the sales of Government property; makes loans to small business concerns, State and local development companies, and the victims of floods or other catastrophes, or certain types of economic injury; and licenses, regulates, and makes loans to small business investment companies.

SMITHSONIAN INSTITUTION (85.600-85.649)

The Smithsonian Institution is an independent trust instrumentality of the United

States which comprises the world's largest museum and research complex. The Smithsonian includes 19 museums and galleries, the National Zoo, and research facilities in several States and the Republic of Panama. It holds more than 136 million artifacts and specimens in its trust for the American people. The Smithsonian is dedicated to public education, national service, and scholarship in the arts, science, history, and culture. The Smithsonian Institution was created by an act of Congress on August 10, 1846 (20 U.S.C. 41 et seq.), to carry out the terms of the will of British scientist James Smithson (1765, 1829), who in 1826 had bequeathed his entire estate to the United States to found at Washington, under the name of the Smithsonian Institution, an establishment for increase and diffusion of knowledge among men. On July 1, 1836, Congress accepted the legacy and pledged the faith of the United States to the charitable trust. In September 1838, Smithson's legacy, which amounted to more than 100,000 gold sovereigns, was delivered to the mint at Philadelphia, Congress vested responsibility for administering the trust in the Secretary of the Smithsonian and the Smithsonian Board of Regents, composed of the Chief Justice, the Vice President, three Members of the Senate, three Members of the House of Representatives, and nine citizen members appointed by joint resolution of Congress.

SOCIAL SECURITY ADMINISTRATION (96.001-96.999)

On March 31, 1995, the Social Security Administration (SSA) became an independent agency. SSA administers a national program of contributory social insurance. Employees, employers, and the self-employed pay contributions which are pooled in special trust funds. When earnings cease or are reduced because the worker retires, dies, or becomes disabled, monthly cash benefits are paid to replace part of the earnings the family has lost. Part of the workers contribution goes into a separate hospital insurance trust fund. This fund helps disabled workers, retirees, and their dependents with their hospital bills. They may also elect to receive assistance with medical expenses. This is done by the workers paying a percentage of supplementary medical insurance premiums. The Federal government pays the balance. Together, these two programs are often referred to as "Medicare." Medicare protection is also provided, under certain conditions, to Railroad Retirement beneficiaries based on a disability. The principal functions of SSA include, but are not limited to; research and recommendations oriented to the problems of poverty; health care for the aged, blind, and disabled; long-range planning, design, and development of SSA administrative plans; data processing systems used in establishing and maintaining records essential to its' various programs; statistical measurement and systematic evaluation of its' programs; policy guidance for the administration of the OASDI and SSI programs; and development of programs and materials to assure that Congress, Federal and State agencies, and the general public have an adequate understanding of the protections, rights, and responsibilities under SSA administered programs. In addition, SSA, through a world-wide organization of ten regional offices, six program service centers, and over 1,300 field offices, guides and directs all aspects of the cash benefit program operations of SSA

STATE, DEPARTMENT OF (19.001-19.999)

Advance freedom for the benefit of the American people and the international community by helping to build and sustain a more democratic, secure, and prosperous world composed of well-governed states that respond to the needs of their people, reduce widespread poverty, and act responsibly within the international system

OFFICE TO MONITOR AND COMBAT TRAFFICKING IN PERSONS (19.019)

The Office to Monitor and Combat Trafficking in Persons is on a mission to eradicate modern-day slavery, and, on this Web site, we invite you to learn about our approach of victim protection, prosecution of traffickers and prevention of trafficking. You can find information about programs the U.S. funds to help victims and improve law enforcement efforts worldwide, learn what you can do, and, of course, read our annual report on the actions countries are taking to combat trafficking in persons. This work, and cooperation around the world, is vital.

TRANSPORTATION, DEPARTMENT OF (20.001-20.999)

Under the authority of the motor carrier safety provisions of Title 49 of the United States Code, the agency exercises Federal regulatory jurisdiction over the safety performance of all commercial motor carriers engaged in interstate commerce. It

AGENCY INDEX SUMMARY

deals with more than 500,000 carriers, approximately 13,000 passenger carriers and 42,000 hazardous material carriers. The primary mission of the Agency is to improve the safety of commercial vehicle operations on our nation's highways. To accomplish this mission the FMCSA focuses its efforts on reducing the number and severity of large truck-involved crashes through safety regulation and research, safety in commercial operations through training and enforcement, improvements to the commercial driver's license program, and enhancing highway and transportation systems infrastructure. To accomplish these activities, the FMCSA works closely in partnership with other Federal and State agencies, private organizations and individuals. The FMCSA works with various governmental agencies, the commercial motor vehicle industry and other interested groups to promote truck and bus safety by addressing vehicle safety issues such as the mechanical condition of trucks and buses, infrastructure improvements including high profile grade crossings, and commercial operations such as commercial driver license and hours-of-service regulations.

FEDERAL AVIATION ADMINISTRATION (20.106, 20.108-20.109)

Regulates air commerce in a manner that promotes its development and safety and fulfills the requirements of national defense; controls the use of navigable airspace of the United States and regulates both civil and military operations in such airspace in the interest of safety and efficiency; promotes, encourages, and develops civil aeronautics; consolidates research and development with respect to air navigation facilities; installs and operates air navigation facilities; develops and operates a common system of air traffic control and navigation for both civil and military aircraft; and develops and implements, programs and regulations to control aircraft noise, sonic boom, and other environmental effects of civil aviation.

FEDERAL HIGHWAY ADMINISTRATION (20.200, 20.205, 20.215, 20.219, 20.223-20.224, 20.240)

Coordinates highways with other modes of transportation to achieve the most effective balance of transportation systems and facilities under cohesive Federal transportation policies pursuant to the Act. FHWA is concerned with the total operation and environment of highway systems, including highway safety. In administering its highway transportation programs, it gives full consideration to the impacts of highway development and travel; transportation needs; engineering and safety aspects; social, economic, and environmental effects; and project costs. It ensures balanced treatment of these factors by utilizing a systematic, interdisciplinary approach in providing for safe and efficient highway transportation.

FEDERAL RAILROAD ADMINISTRATION (20.301, 20.313-20.321, 20.323-20.326)

Promulgates and enforces rail safety regulations, administer railroad financial assistance programs, conduct research and development in support of improved railroad safety and national rail transportation policy, provide for the rehabilitation of Northeast Corridor rail passenger service, and consolidate government support of rail transportation activities. Railroad Safety: The Administration administers and enforces the Federal laws and related regulations designed to promote safety on railroads; exercises jurisdiction over all areas of rail safety under the Rail Safety Act of 1970, such as track maintenance, inspection standards, equipment standards, and operating practices. It also administers and enforces regulations resulting from railroad safety legislation for locomotives, signals, safety appliances, power brakes, hours of service, transportation of explosives and other dangerous articles, and reporting and investigation of railroad accidents. Railroad and related industry equipment, facilities, and records are inspected and required reports reviewed. Research and Development: A ground transportation research and development program is administered to advance all aspects of intercity ground transportation and railroad safety pertaining to the physical sciences and engineering, in order to improve railroad safety and ensure that railroads continue to be a viable national transportation resource. Transportation Test Center: This 50-square-mile facility, located near Pueblo, CO, provides testing for advanced and conventional systems and techniques designed to improve ground transportation. The facility has been managed and staffed for the Administration by the Association of American Railroads since October 1, 1982. The United States and Canadian Governments and private industry use this facility to explore, under controlled conditions, the operation of both conventional and advanced systems. It is used by the Urban Mass Transportation Administration for testing of urban rapid transit vehicles. Policy: Program management for new and revised policies, plans and projects

related to railroad transportation economics, finance, system planning, and operations is provided; appropriate studies and analyses are performed; relevant tests, demonstrations, and evaluations are conducted; and labor/management programs are evaluated. Analyses of issues before regulatory agencies are carried out and recommendations are made to the Secretary as to the positions to be taken by DOT. Passenger and Freight Services: The Administration administers a program of Federal assistance for national, regional, and local rail services. Programs include rail freight service assistance programs; rail service continuation programs and State rail planning; and rail passenger service on a national, regional, and local basis. The agency also administers programs to develop, implement, and administer rail system policies, plans and programs for the Northeast Corridor in support of applicable provisions of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 501), and related legislation.

FEDERAL TRANSIT ADMINISTRATION (20.500, 20.505, 20.507, 20.509, 20.513-20.514, 20.516, 20.518-20.531)

Assists in the development of improved mass transportation facilities, equipment, techniques, and methods, with the cooperation of mass transportation companies both public and private; encourages the planning and establishment of areawide urban mass transportation systems needed for economical and desirable urban development, with the cooperation of mass transportation companies both public and private; and provides assistance to State and local governments and their instrumentalities in financing such systems, to be operated by public or private mass transportation companies as determined by local needs.

MARITIME ADMINISTRATION (20.802-20.803, 20.806-20.808, 20.812-20.814, 20.816-20.822)

Administers programs to aid in the development, promotion, and operation of the U.S. Merchant Marine; organizes and directs emergency merchant ship operations; administers subsidy programs through the Maritime Subsidy Board, under which the Federal government, subject to statutory limitations, pays the difference between certain costs of operating ships under the U.S. flag and foreign competitive flags on essential services, and the difference between the costs of constructing ships in U.S. and foreign shipyards; provides financing guarantees for the construction, reconstruction, and reconditioning of ships; and enters into capital construction fund agreements which grant tax deferrals on moneys to be used for the acquisition, construction, or reconstruction of ships; constructs or supervises the construction of merchant-type ships for the Federal government; it helps industry generate increased business for U.S. ships and conducts programs to develop ports, facilities, and intermodal transport, and to promote domestic shipping. Administers a War Risk Insurance program insuring operators and seamen against losses caused by hostile action if domestic commercial insurance is not available; Under emergency conditions, charters Government-owned ships to U.S. operators, requisitions or procures ships owned by U.S. citizens, and allocates them to meet defense needs. It maintains a National Defense Reserve Fleet of Government-owned ships that it operates through general agents when required in national defense interests. An element of this activity is the Ready Reserve Force consisting of a number of ships available for quick-response activation; regulates sales to aliens and transfers to foreign registry of ships that are fully or partially owned by U.S. citizens; also disposes of Government-owned ships found nonessential for national defense; operates the U.S. Merchant Marine Academy, Kings Point, NY, where young people are trained to become merchant marine officers, and conducts training in shipboard firefighting at Earle, NJ, and Toledo, OH. It also administers a Federal assistance program for the maritime academies operated by California, Maine, Massachusetts, Michigan, New York, and Texas.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION (20.600-20.602, 20.607-20.616)

Carries out programs relating to the safety performance of motor vehicles and related equipment, motor vehicle drivers and pedestrians and a uniform nationwide speed limit under the National Traffic and Motor Vehicle Safety Act of 1966 (80 Stat. 718), as amended. Under the authority of the Motor Vehicle Information and Cost Saving Act (86 Stat. 947), as amended, the Administration carries out programs and studies aimed at reducing economic losses in motor vehicle crashes and repairs, through general motor vehicle programs; administers the Federal odometer law; and promulgates average fuel economy standards for passenger and nonpassenger motor vehicles. Under the authority of the Clean Air amendments of

AGENCY INDEX SUMMARY

1970 (84 Stat. 1700), the Administration certifies as to the consistency of Environmental Protection Agency State grants with any highway safety program developed pursuant to section 402 of Title 23 of the United States Code. The National Highway Traffic Safety Administration was established to carry out a congressional mandate to reduce the mounting number of deaths, injuries, and economic losses resulting from traffic accidents on the Nation's highways and to provide motor vehicle damage susceptibility and ease of repair information, motor vehicle inspection demonstrations, and protection of purchasers of motor vehicles having altered odometers, and to provide average standards for greater vehicle mileage per gallon of fuel for vehicle under 10,000 pounds (gross vehicle weight).

OFFICE OF THE SECRETARY (20.701, 20.761-20.762, 20.901, 20.904-20.905, 20.910, 20.930-20.934)

IMMEDIATE OFFICE OF THE SECRETARY OF TRANSPORTATION

PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATOR (20.700, 20.703, 20.710, 20.720-20.721, 20.723-20.725)

Responsible for a number of programs involving safety regulation, emergency preparedness, and research and development. Emphasis is given to hazardous material transportation and pipeline safety, transportation emergency preparedness, and safety training.

TREASURY, DEPARTMENT OF THE (21.001-21.999)

The Department of the Treasury's mission highlights its role as the steward of U.S. economic and financial systems, and as an influential participant in the global economy. The Treasury Department is the executive agency responsible for promoting economic prosperity and ensuring the financial security of the United States. The Department is responsible for a wide range of activities such as advising the President on economic and financial issues, encouraging sustainable economic growth, and fostering improved governance in financial institutions. The Department of the Treasury operates and maintains systems that are critical to the nation's financial infrastructure, such as the production of coin and currency, the disbursement of payments to the American public, revenue collection, and the borrowing of funds necessary to run the federal government. The Department works with other federal agencies, foreign governments, and international financial institutions to encourage global economic growth, raise standards of living, and to the extent possible, predict and prevent economic and financial crises. The Treasury Department also performs a critical and far-reaching role in enhancing national security by implementing economic sanctions against foreign threats to the U.S., identifying and targeting the financial support networks of national security threats, and improving the safeguards of our financial systems. /n/n

COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS (21.011-21.012, 21.014, 21.020-21.021)

Through monetary awards and the allocation of tax credits, the CDFI Fund helps promote access to capital and local economic growth in urban and rural low-income communities across the nation. Through its various programs, the CDFI Fund enables locally based organizations to further goals such as: economic development (job creation, business development, and commercial real estate development); affordable housing (housing development and homeownership); and community development financial services (provision of basic banking services to underserved communities and financial literacy training). /n/n

INTERNAL REVENUE SERVICE (21.004, 21.006, 21.008)

Administers and enforces the Internal Revenue laws and related statutes, except those relating to alcohol, tobacco, firearms, and explosives. The IRS mission is to encourage and achieve the highest possible degree of voluntary compliance with the tax laws and regulations and to conduct itself so as to warrant the highest degree of public confidence in the integrity and efficiency of the Service. Accomplishment of this mission involves advising the public of its rights and responsibilities; communicating requirements of the law to the public; assisting taxpayers in complying with the laws and regulations, and taking those enforcement actions necessary for fair, effective, and impartial tax administration. Basic IRS activities include ensuring satisfactory resolution of taxpayer complaints, providing taxpayer service and education; determination, assessment, and collection of internal revenue taxes; determination of pension plan

qualifications and exempt organization status; and preparation and issuance of rulings and regulations to supplement the provisions of the Internal Revenue Code.

VETERANS AFFAIRS, DEPARTMENT OF (64.001-64.999)

Administers the National Cemetery Administration, which provides cemeterial services to veterans and other eligibles as prescribed by the Secretary of Veterans Affairs pursuant to the provisions of the National Cemeteries Act of 1973 and other statutory authorities and regulations. These services also include providing headstones and markers for the graves of eligibles in national and State veterans cemeteries and for veterans interred in private cemeteries. Monetary aid to States for establishment, expansion, and improvement of veterans' cemeteries is also available.

NATIONAL CEMETERY SYSTEM (64.203)

Administers the National Cemetery Administration, which provides cemeterial services to veterans and other eligibles as prescribed by the Secretary of Veterans Affairs pursuant to the provisions of the National Cemeteries Act of 1973 and other statutory authorities and regulations. These services also include providing headstones and markers for the graves of eligibles in national and State veterans cemeteries and for veterans interred in private cemeteries. Monetary aid to States for establishment, expansion, and improvement of veterans' cemeteries is also available.

VA HEALTH ADMINISTRATION CENTER (64.005, 64.008, 64.011-64.015, 64.024, 64.026, 64.029, 64.033, 64.035, 64.038, 64.053-64.054)

Provides hospital, nursing home and domiciliary care, and outpatient medical and dental care to eligible veterans of military service in the Armed Forces. Dependents of certain veterans are provided medical care supplied by non-VA institutions and physicians. The Department conducts both individual medical and health-care delivery research projects and multi-hospital research programs. It assists in the education of physicians and dentists and with training of many other health care professionals through affiliations with educational institutions and organizations.

VETERANS BENEFITS ADMINISTRATION (64.027-64.028, 64.030-64.032, 64.051, 64.100-64.101, 64.103-64.106, 64.109-64.110, 64.114, 64.116-64.118, 64.120, 64.124-64.126, 64.128)

Conducts an integrated program of veterans benefits: The Compensation and Pension (C & P) Service has responsibility for: claims for disability compensation, pension, and Spina Bifida monthly allowance under 38 U.S.C. 1805; automobile allowances and special adaptive equipment; claims for specially adapted housing; special clothing allowances; emergency officer's retirement pay; eligibility determinations based on military service for other VA benefits and services or those of other Government agencies; survivor's claims for death compensation, dependency and indemnity compensation, death pension, burial and plot allowance claims; claims for accrued benefits; forfeiture determinations; claims for adjusted compensation in death cases; and claims for reimbursement for headstones or markers. The Education Service has responsibility for: readjustment education benefits for post-Vietnam era veterans and recently-discharged veterans, as well as educational assistance for spouses, surviving spouses, and children of veterans who are permanently and totally disabled or die from disability incurred or aggravated in active service in the Armed forces, or are currently prisoners of war or missing in action. In addition, certain members of the selected Reserve or National Guard are also eligible for education benefits administered by the Service. Vocational Rehabilitation Service has responsibility for the rehabilitation of disabled veterans. Information, advice, and assistance are provided to veterans, their dependents and beneficiaries, representatives and others in applying for benefits administered by the Department of Veterans Affairs. Benefit information and readjustment assistance is provided to recently separated veterans. C&P also maintains a benefits protection program (fiduciary activities) for minors and incompetent veterans and other incompetent adult beneficiaries and provide field-investigative services. Special restorative training is also available to eligible children. The mission is also to provide credit assistance whereby the housing credit needs of eligible veterans and active duty service personnel may be satisfied by private capital on more liberal terms than generally available to non-veterans. Assistance is provided chiefly through substituting the Government's guaranty on loans made

by private lenders in lieu of the downpayments, shorter terms, and other requirements generally required in conventional home mortgage transactions. Direct loans are made to Native Americans on trust land or to supplement a grant to get a specially adapted home for certain eligible veterans who have a permanent and total service-connected disability(ies). In addition, a system of direct financial grants is operated to help certain permanently disabled veterans to acquire specially adapted housing. VA life insurance operations are for the benefit of service members, veterans, and their beneficiaries. In addition, the VA is responsible for: supervision of the Servicemen's Group Life Insurance (SGLI) and Veterans Group Life Insurance (VGLI) Programs for today's service members and veterans. The Veterans' Insurance Act of 1974 (88 Stat. 165; 38 U.S.C. 765-779), effective May 24, 1974, has substantially amended the law provided for the conversion of SGLI to a 5-year nonrenewable term policy known as Veterans Group Life Insurance (VGLI). At the termination of the 5-year term period, it may be converted to an individual policy with any one of the many participating commercial insurance companies. Supervision of the Veterans Mortgage Life Insurance Program for those disabled veterans who receive a VA grant for specially adapted housing - under the terms of contractual agreement with a Primary Insurer. VA guarantees the protection of commercial life insurance (up to \$10,000) against premium payments for persons while in military or naval service, and 2 years thereafter.

Definitions of the types of applicants used in this Index are given below.

Individual - Any person or persons, as individuals, groups, or profit-making organizations. Such persons and groups do not represent Federally Recognized Indian Tribal Governments. Includes Indians or other Native Americans who apply as individuals rather than as a member of a tribe or other Indian organization.

Local - Agencies or instrumentalities of political subdivisions within a State, to include cities, towns, townships, parishes, municipalities, villages, counties, school districts, and other special local districts. Included under local are Indian tribes on State reservations, Indian bands and group, Pueblos, Indian school boards, and State designated Indian tribes. Local does not include institutions of higher education and hospitals.

Nonprofit - A public or private agency or organization established by charter to perform specialized functions or services for the benefit of all or part of the general public. Functions or services are provided without charge or at cost and earn no profit. The agency or organization has no shareholders to receive dividends.

State - Any agency or instrumentality of the fifty States of the United States, and the District of Columbia. State does not include the political subdivisions of the State but does include institutions of higher education and hospitals.

U.S. Territories - Any agency or instrumentality of the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territories of the Pacific Islands, and Mariana Islands. Included are the political subdivisions of the territories, institutions of higher education, and hospitals.

Federally Recognized Indian Tribal Organizations - The governing body or a governmental agency of an Indian Tribe, nation, or other organized group or community recognized and certified by the Secretary of the Interior. Included are Native villages as defined in the Alaska Native Claims Settlement Act.

(Note: The information contained in this Index was taken from the Applicant Eligibility section of the assistance listing descriptions and from other sources. As a potential applicant, if you feel you also qualify to apply for assistance under a particular listing, but the Index says otherwise, always contact the agency contact persons. As regarding whether or not a potential applicant is eligible for an assistance listing, the agency is always the best source.)

AGENCY FOR INTERNATIONAL DEVELOPMENT

98.001 USAID Foreign Assistance for Programs Overseas

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

The Foreign Assistance Act of 1961

OBJECTIVES:

The Foreign Assistance Program works to support long-term and equitable economic growth and advance U.S. foreign policy objectives by supporting economic growth, agriculture and trade; global health; and democracy, conflict prevention and humanitarian assistance.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds are authorized through grants and cooperative agreements, primarily with non-governmental U.S. organizations and educational institutions, to carry out activities in line with the Agency's objectives in Sub-Saharan Africa; Asia and the Near East; Latin America and the Caribbean, and Europe and Eurasia. Funds generally are limited for direct support of activities conducted outside the United States in furtherance of the Agency's strategic objectives. The majority of funds for these programs is discretionary, and is generally awarded through a competitive process. Examples of activities that may be funded may be found at http://www.fedgrants.gov/Applicants/AID/postdate_1.html/.

Applicant Eligibility:

Anyone/general public; While an individual grant may include limitations on whom may apply, generally any type of applicant may apply.

Beneficiary Eligibility:

Anyone/general public; Beneficiaries are foreign governments, foreign public or private institutions or organizations, or foreign individuals.

Credentials/Documentation:

Applicants who have never received a grant from USAID may be required to provide the following with their application, where appropriate: (1) Copies of the applicant's audited financial statements for the previous three-year period, which have been audited by a certified public accountant or other auditor satisfactory to USAID; (2) Organization chart; and (3) Copies of applicable policies and procedures (e.g., accounting, purchasing, property management, personnel). 2 CFR 200, Sub-part E - Cost Principles applies to this program.

98.006 Foreign Assistance to American Schools and Hospitals Abroad (ASHA)

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

The Foreign Assistance Act of 1961, as amended, Section 214

OBJECTIVES:

The purpose of the American Schools and Hospitals Abroad (ASHA) program is to furnish assistance to schools and libraries outside the United States founded or sponsored by United States citizens and serving as study and demonstration centers for ideas and practices of the United States, and to hospital centers for medical education and research outside the United States, founded or sponsored by United States citizens. Within this context of the U.S. Foreign Assistance Program, the objectives of the ASHA program are to strengthen overseas schools and hospitals that best demonstrate American ideas and practices, and are likely to survive over a long term.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds are authorized through grant agreements with private and non-profit U.S. organizations to carry out activities in line with the Agency's objectives. Funds are limited for direct support of activities conducted outside the United States in furtherance of the Agency's strategic objectives. ASHA grants are awarded through a competitive process.

Applicant Eligibility:

Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Pursuant to Section 214 of the Foreign Assistance Act of 1961, as amended, grant assistance is made available to schools and libraries outside the United States founded or sponsored by United States citizens and serving as study and demonstration centers for ideas and practices of the United States, and to hospital centers for medical education and research outside the United States, founded or sponsored by United States citizens. Grants made under this program help such institutions demonstrate to people overseas the achievements of the United States in education and medicine. The applicant must be a non-profit U.S. organization, which either founded or sponsors the institution for which assistance is sought. The applicant, for example, can be a nonprofit university or a tax exempt organization under Section 501(c) (3) of the Internal Revenue Code of 1954 as amended. The applicant must demonstrate a continuing supportive relationship with the overseas institution. Evidence of this would be the provision of financial and management support for the institution. Other more

detailed eligibility requirements are addressed in the published Request for Applications which appear on the USAID/ASHA web site and www.grants.gov.

Beneficiary Eligibility:

Private nonprofit institution/organization; Public nonprofit institution/organization; Beneficiaries must be institutions located outside the U.S. and must not be under the control or management of a government or any other of its agencies. The majority of the users of these overseas institutions, e.g., students or patients, must be citizens of countries other than the U.S.

Credentials/Documentation:

The overseas institutions must demonstrate competence in professional skills and exhibit sound management and financial practices. An applicant must present a strategy that demonstrates the ability to achieve professional competence, commitment to promote U.S. ideas and practices, and to operate in accordance with sound management and financial practices. Institutions must be open to all persons regardless of race, religion, sex, color, or national origin. All overseas institutions are expected to reflect favorably upon, and to increase the understanding as well as to enhance the image of the United States. An applicant requesting assistance must provide an estimate of the total cost (including cost share and U.S. contribution) for which assistance is requested. Such applicants must also provide information and assurances with respect to right to occupy the premises and/or the land upon which new construction is planned. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. Per the United States Agency for International Development Environmental Compliance Procedures, 22 CFR 216.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are submitted in response to specific announcements (Requests for Applications) synopsized and published on the grants.gov web site. All applications must be submitted using the Standard Form 424. Each announcement provides specific instructions regarding the contents of the description of the activity, budget documentation and other required information.

Award Procedure:

Following selection for award, a successful applicant will receive an electronic copy of the notice of award signed by the Agreement Officer which serves as the authorizing document. USAID will issue the award to the contacts specified by the applicant in its application documents and /or the Authorized Individuals submitted by the application.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The range is from 7 to 9 months.

Appeals:

Not Applicable.

Renewals:

Other. Extensions to the project period may be made if deemed appropriate by the Agreement Officer.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Grants may be issued for up to a 5 year period. Method of awarding/releasing assistance: letter

Reports:

Grantees must submit quarterly progress reports and annual organizational reports. Comprehensive final Project Reports are due no later than 90 days after the completion of projects. Expenditure reports are required 30 days after the end of each progress reporting period.

ASSISTANCE LISTINGS DESCRIPTIONS

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Foreign non-profit organizations, host governments, and sub-recipients that expend \$300,000 or more in USAID awards (i.e., organizations that receive USAID funds either directly or through a prime contractor or recipient) during their fiscal year, must have an annual audit conducted of those funds in accordance with the Guidelines for Financial Audits Contracted by Foreign Recipients as issued in USAID's official Agency regulations ADS Chapter 591.

Records:

In accordance with 22 CFR Part 226.53, grantees are to maintain accounting records for a minimum of 3 years after the end of the date of submission of the final expenditure report. If any litigation, claim, negotiation, audit or other action involving the records has been started before the expiration of the 3-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later.

98.007 Food for Peace Development Assistance Program (DAP)

FEDERAL AGENCY:

AGENCY FOR INTERNATIONAL DEVELOPMENT

AUTHORIZATION:

The Foreign Assistance Act of 1961

OBJECTIVES:

To improve access, availability and utilization of food in food insecure environments abroad. The priority for Title II development programs is a focus on improving household nutrition and health status, especially in children and mothers, and on increasing agricultural productivity, including field production, post-harvest handling and transformation and marketing.

TYPES OF ASSISTANCE:

Project Grants, Sale, Exchange, or Donation of Property and Goods

USES AND USE RESTRICTIONS:

U.S. and local Private Voluntary Organizations registered with USAID may submit proposals requesting commodities and cash to carry out food aid programs in food insecure countries. The activities outlined in new DAPs should be in conformity with USAID, host government and multilateral food security assessments and strategies. Coordination with USAID Mission development priorities for the associated countries is highly desirable; program and resources integration is encouraged. However, no proposal will be disapproved solely because it is not integrated. Proposals will be reviewed and considered eligible for approval so long as they do not violate the Bellmon Amendment or other statutory provisions, are consistent with the Food Aid Food Security policy paper, and address the host country's most serious problems in the areas of food access, availability, and utilization.

Applicant Eligibility:

Private nonprofit institution/organization (includes institutions of higher education and hospitals); Private non-profit institutions/organizations are eligible for this program. Specifically, an organization must be a Private Voluntary Organization (PVO) or cooperative. PVOs must be registered with USAID as of the date of its application. In order to be awarded a program the organization must also be registered with the Office of Food for Peace.

Beneficiary Eligibility:

Private nonprofit institution/organization; Private, non-profit institutions/organizations will benefit from this program along with vulnerable and food insecure populations in low income food deficit countries (LIFDCs) and least developed countries (LDCs).

Credentials/Documentation:

USAID Registration; Evidence of legal capacity, economic feasibility, and financial responsibility relative to the activity for which assistance is required. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Submission of Application (including SF 424 and 424a) as required by DAP guidelines and application instructions.

Award Procedure:

Applications are submitted to the Office of Food for Peace. All applications are reviewed for completeness by the recipient office and then given to a technical review committee for a competitive review.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Submission of Application (including SF 424 and 424a) in line with Emergency Proposal Guidelines.

Award Procedure:

Unsolicited emergency applications are submitted to the Office of Food for Peace throughout the year to respond to natural disasters, complex emergencies and post-emergency stabilization needs. An emergency appeal or disaster declaration is the "triggering mechanism" that allows FFP to consider requests for emergency food assistance. All applications for assistance are reviewed for completeness and then given a technical review. Awards are negotiated based on a demonstrated need for food aid and the ability of the proposed assistance to respond to the indicated need(s).

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 15 to 30 days. Although there is no binding timeframe, emergency situations often require a quick response. Therefore, FFP/EP works with the objective of completing the proposal review within 21 working days of receipt of a complete proposal. Delays may occur when required information is not included in the proposal.

OBJECTIVES:

The Global Development Alliance (GDA) business model provides a framework for enabling public-private alliances (PPA's) to carry-out activities that promote international development objectives. Through the leveraging, sharing the cost of resources and pooled expertise, the PPA model seeks to achieve greater impact than individual entities working alone. For further information please visit http://www.usaid.gov/our_work/global_partnerships/gda/.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds are authorized through grants, cooperative agreements, and Leader-with Associate Grants, to U.S. and non-U.S. for profit and not for profit organizations to carry out activities to enhance development objectives. Potential for-profit applicants should note that USAID policy prohibits the payment of fee/profit to recipients under assistance instruments. Potential partners should note that cash and in-kind contributions, including volunteered services qualify as cost-share or leveraging, however forgone profit does not qualify as cost-sharing or leveraging. The resource contribution of the partners must be at least as great as that requested of USAID to achieve a minimum 1:1 leverage ratio.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Individual/Family; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; The eligibility criteria for potential alliance partners is broad, and the following list of potential partners is for illustrative purposes: U.S. and non-U.S. Non-Governmental Organizations, U.S. and non-U.S. private businesses, foundations, business and trade associations, international organizations, U.S. and non-U.S. colleges and universities, U.S. cities and states, other U.S. Government agencies, civic groups, other donor governments, host country governments, regional organizations, host country parastatals, individual and group philanthropies and funds etc. Non-Governmental Organizations (NGO) do not need to be registered as Private Voluntary Organizations to submit a proposal.

Beneficiary Eligibility:

Federal; Individual/Family; Private nonprofit institution/organization; Other private institution/organization; State; Local; Public nonprofit institution/organization; Beneficiaries are foreign governments, foreign public or private institutions or organizations, and/or the people of the developing world.

Credentials/Documentation:

Applicants who have never received a grant from USAID may be required to provide additional documentation that will be requested by the Operating Unit issuing the grant. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

10.051 Commodity Loans and Loan Deficiency Payments

Marketing Assistance Loans (MAL's) and Loan Deficiency Payments (LDP's),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

Agricultural Act of 2014, Public Law 113-79

OBJECTIVES:

To improve and stabilize farm income, to assist in bringing about a better balance between supply and demand of the commodities, and to assist farmers in the orderly marketing of their crops.

TYPES OF ASSISTANCE:

Direct Loans, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Commodity loans and loan deficiency payments (LDP's) give farmers a means of promoting more orderly marketing. Loans to producers may be "nonrecourse" which means that producers have the option of forfeiting the collateral to CCC at loan maturity in full satisfaction of the loan obligation; or "recourse" for low quality grain, or non-ginned seed cotton, which means that producers must repay the loans by maturity." If market prices are above the support level, producers may repay their loans at the original loan principal plus interest and market their commodities. When market prices are low, most nonrecourse commodity loan repayments are less than the original loan principal plus interest. Eligible commodities for loans are produced and harvested wheat, corn, grain sorghum, oats, barley, rice, peanuts, upland cotton, extra-long staple cotton, soybeans, crambe, canola, flaxseed, mustard seed, rapeseed, safflower, sunflower seed, sesame seed, dry peas, lentils, small and large chickpeas, graded and ungraded wool, honey, and sugar. LDP's are offered for produced and harvested wheat, corn, grain sorghum, oats, barley, upland cotton, rice, soybeans, crambe, canola, flaxseed, mustard seed, rapeseed, safflower, sunflower seed, sesame seed, peanuts, dry peas, lentils, small and large chickpeas, graded and ungraded wool, unshorn pelts, honey, hay, and silage. If the loan repayment rates for these commodities are

less than the established loan levels, producers may, for most commodities that are eligible for a nonrecourse loan, agree to forego such loan and elect to receive an LDP. The LDP payment rate equals the amount by which the loan rate exceeds the loan repayment rate in effect at the time the LDP application is approved, or the delivery date, or date sold or date beneficial interest is lost, as applicable. The 2016 Consolidated Appropriations Act authorized producers the option of a commodity certificate exchange as a nonrecourse loan repayment mechanism. Effective for crop years 2015 through 2018, in situations when the loan rate exceeds the exchange rate, producers may opt to purchase a commodity certificate from the local FSA office and immediately exchange that certificate for their outstanding loan collateral.

Applicant Eligibility:

Individual/Family; Profit organization; Owner, landlord, tenant, or sharecropper on an eligible farm that has produced the eligible commodities or, in the case of sugar, a processor or refiner who meets program requirements as announced by the Secretary.

Beneficiary Eligibility:

Individual/Family; Farmer/Rancher/Agriculture Producer; Land/Property Owner; Owner, landlord, tenant, or sharecropper on a farm that has produced the eligible commodities, meets program requirements as announced by the Secretary, and maintains beneficial interest in the commodity. State and County governments may be eligible for MAL's and LDP's when they have a share in produced and harvested eligible commodities on land they own, if the benefits or payments are used to support public schools.

Credentials/Documentation:

The commodity must be produced and harvested by the producer, and the producer must meet program requirements as announced by the Secretary. Requirements include a record of the farming operation on file in the FSA county office and a complete acreage report to account for all cropland on the farm must be submitted for the applicable crop year. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. In the case of warehouse-stored commodities, producer or Cooperative Marketing Association presents warehouse receipts to the FSA county office (warehouse-stored peanut loans may be made through Designated Marketing Associations). In the case of farm-stored commodities (including sugar), producer/processor or Cooperative Marketing Association requests a loan at the FSA county office.

Award Procedure:

Applications are approved by the FSA upon determination that applicant and commodity are eligible.

Deadlines:

January 31, 2018. Deadline for crop year 2017 peanuts and wool. Deadline for the year following year in which crop is normally harvested if as follows: Mar 31 - MAL's and LDP's are available for wheat, barley, oats, canola, flaxseed, crambe, rapeseed, sesame seed, and honey; May 31 - MAL's and LDP's are available for rice, corn, grain sorghum, cotton, soybeans, safflower, sunflower seed, mustard seed, small and large chickpeas, lentils, dry peas, and cotton; and Sept. 30 - Loans are available for sugar.

Range of Approval/Disapproval Time:

Other. Approximately 3 days but could take from 15 to 30 days.

Appeals:

From 60 to 90 days. Applications may be reviewed by county, State, or national offices.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to

this assistance listing.

Length and Time Phasing of Assistance:

Assistance is generally available for 9 months or less, and is normally disbursed on a lump-sum basis. Method of awarding/releasing assistance: lump sum.

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Periodic and required spot checks of farm-stored grain will be made by the county FSA office. Recipients are subject to other audits by FSA and by the Office of Inspector General, USDA.

10.053 Dairy Indemnity Program

DIPP,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Act of August 13, 1968, Statue 82-750, Public Law 90-484, 7 USC Code 450j-450l.

OBJECTIVES:

To protect dairy farmers and manufacturers of dairy products who through no fault of their own, are directed to remove their milk or dairy products from commercial markets because of contamination from pesticides which have been approved for use by the Federal government. Dairy farmers can also be indemnified because of contamination with chemicals or toxic substances, nuclear radiation or fallout.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Fair market value for the milk is paid to the dairy farmer who is unable to market because of any of the violating substances, and the fair market value of the dairy product is paid to the manufacturer who is unable to market because of pesticide residue. No payment may be made to any dairy farmer or any manufacturer whose milk or dairy product was removed from the market as a result of his negligence or his willful failure to follow procedures prescribed by the Federal government.

Applicant Eligibility:

U.S. Territories and possessions (includes institutions of higher education and hospitals); Individual/Family; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Dairy farmers whose milk has been removed from the market by a public agency because of residue of any violating substance in such milk. Manufacturers of dairy products whose product has been removed from the market by a public agency because of pesticide residue in such product. This program is also available in Puerto Rico.

Beneficiary Eligibility:

U.S. Territories; Individual/Family; Specialized group (e.g. health professionals, students, veterans); Small business; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Farmer/Rancher/Agriculture Producer; Dairy farmers whose milk has been removed from the market by a public agency because of residue of any violating substance in such milk. Manufacturers of dairy products whose product has been removed from the market by a public agency because of pesticide residue in such product. This program is available in Puerto Rico.

Credentials/Documentation:

In the case of a dairy farmer, the notice removing the milk from the market along with a record of past marketing records for milk to determine the quantity and value of the milk not marketed, the violating substance involved and the uses of such violating substances during the previous 24 months. In the case of the manufacturer of dairy products, the notice removing the product from the market and sufficient data to determine the value of the product. This program is excluded from coverage under OMB Circular No. A-87. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Producers must file an application for payment on Form FSA-373 with the local county FSA office. 10.054 Emergency Conservation Program

(ECP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Agricultural Credit Act of 1978, Statue 92-420, Public Law 95-334, 16 USC Code 2201-2205.

OBJECTIVES:

To enable farmers to perform emergency conservation measures to control wind erosion on farmlands, to rehabilitate farmlands damaged by wind erosion, floods, hurricanes, or other natural disasters and to carry out emergency water conservation or water enhancing measures during periods of severe drought.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Following a natural disaster, the county FSA committee determines, with concurrence from the State FSA committee, to make the program available in the county. Emergency cost-sharing is limited to new conservation problems created by natural disasters which, if not treated will impair or endanger the land, materially affect the productive capacity of the land, represent damage that is unusual in character and, except for wind erosion, is not the type that would recur frequently in the same area and will be so costly to rehabilitate that Federal assistance is or will be required to return the land to productive agricultural use. Eligible drought situations for water enhancing measures must be determined by the Deputy Administrator for Farm Programs, FSA.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Profit organization; Any agricultural producer who as owner, landlord, tenant, or sharecropper on a farm or ranch, including associated groups, and bears a part of the cost of an approved conservation practice in a disaster area, is eligible to apply for cost-share conservation assistance. This program is also available in American Samoa, Guam, Commonwealth of the Northern Mariana Islands, Puerto Rico, and the Virgin Islands.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Farmer/Rancher/Agriculture Producer; Land/Property Owner; Any agricultural producer who as owner, landlord, tenant, or sharecropper on a farm or ranch, including associated groups, and bears a part of the cost of an approved conservation practice in a disaster area, is eligible to apply for cost-share conservation assistance. This program is also available in American Samoa, Guam, Commonwealth of the Northern Mariana Islands, Puerto Rico, and the Virgin Islands.

Credentials/Documentation:

Identification as an eligible person and proof of contribution to the cost of performing the conservation practice. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible persons may submit an application on Form AD-245, for cost-sharing, at the county FSA office for the county in which the affected land is located. .

Award Procedure:

The county FSA committee reviews, prioritizes, and may approve applications in whole or in part. Approvals cannot exceed the county allocation of Federal funds for that purpose.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 15 to 30 days. From 2 to 3 weeks.

Appeals:

Not Applicable. Participants may appeal to county FSA committee, State FSA committee, or National Appeals Division (NAD) on any determination. Matters that are generally applicable to all producers are not appealable.

Renewals:

Not Applicable. Certain approvals may be extended by the FSA county committee,

when necessary, with proper justification.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Practice cost-share approvals are given on a fiscal year basis. The approvals specify the time that the practice must be carried out. Payment is by check or electronic funds transfer following completion of the measure. Method of awarding/releasing assistance: lump sum.

Reports:

No reports are required.

The American Taxpayer Relief Act Of 2012, Public Law 112-240, Food, Conservation, and Energy Act of 2008, Public Law 110-627, 7 USC Code 1412.

OBJECTIVES:

To provide income support to eligible producers of covered commodities.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

With respect to Fiscal Year 2008 payments, CCC will offer to enter into a contract with eligible producers of covered commodities on June 25, 2008 through the date announced by CCC. With respect to Fiscal Years 2009 through 2013, CCC shall offer to annually enter into a contract with an eligible producer on a farm having base acreage with respect to a covered commodity at the beginning of each such fiscal year 2009 through 2013 through the date announced by CCC for each such year.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Anyone/general public; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); To be eligible for payments under DCP, owners, operators, landlords, tenants, or sharecroppers must (1) share in the risk of producing a crop on base acres on a farm enrolled in DCP, and be entitled to share in the crop available for marketing from the base acres, or would have shared had a crop been produced; (2) annually report the use of the farm's cropland acreage; (3) comply with conservation and wetland protection requirements on all of their land; (4) comply with planting flexibility requirements; (5) use the base acres for agricultural or related activities; and (5) protect all base acres from erosion, including providing sufficient cover as determined necessary by the county FSA committee, and control weeds.

Beneficiary Eligibility:

Individual/Family; Minority group; Small business; Profit organization; Private nonprofit institution/organization; Other private institution/organization; Anyone/general public; Native American Organizations; Farmer/Rancher/Agriculture Producer; Small Business Person; Land/Property Owner; State; Local; School; Sponsored organization; Public nonprofit institution/organization; Other public institution/organization; Federally Recognized Indian Tribal Governments; DCP provides payments to eligible producers on farms enrolled for the 2008 through 2013 crop years.

Credentials/Documentation:

As a condition of eligibility for direct and counter-cyclical payments, the operator or owner must submit a report of all cropland acreage on the farm. Reports of production evidence for all covered commodities shall be provided to the county committee of the county where the farm is administratively located, by farm and crop in such manner as required by CCC on a CCC-approved standard, uniform form designated by CCC. When disposition of production has been through commercial channels, CCC may require the producer to furnish documentary evidence in order to verify the information provided on the report of production. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The CCC-509 must be submitted. The following documents are required and applicable determinations

10.055 Direct and Counter-cyclical Payments Program

ASSISTANCE LISTINGS DESCRIPTIONS

must be made before the county committee can approve a producer's share on the CCC-509 for payment: (1) a farm operating plan (CCC-902 and related forms); (2) an average adjusted gross income certification (CCC-933); (3) a certification of compliance with highly erodible land and wetland conservation provisions (AD-1026). A certification of the acreage of all cropland on the farm (FSA-578) is needed before final payments can be issued.

Award Procedure:

Producers receive their direct payments after October 1, 2013. Producers receive their final counter-cyclical payments are made after the end of the marketing year for the crop.

Deadlines:

February 19, 2013 - August 02, 2013. Please contact the program contact listed in the Information Contacts section below.

Range of Approval/Disapproval Time:

From 15 to 30 days. Approval of payments depends on farmer compliance with conservation and wetland protection requirements on all of the producers' farms, planting flexibility requirements and other eligibility requirements mentioned above, and is fairly routine and prompt.

Appeals:

From 15 to 30 days. A producer may obtain reconsideration and review of any adverse determination made under this part in accordance with the appeal regulations found at parts 11 and 780 of Title 7 Agriculture.

Renewals:

Not Applicable. Farm producers must apply for DCP on an annual basis and can opt out of participating in DCP for any year if they so choose.

Formula and Matching Requirements:

10.056 Farm Storage Facility Loans

FSFL and SSFL.

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

Food, Conservation, and Energy Act of 2008, Title 1, Part Subtitle 5, Section 1614, Public Law 110-246, 7 USC Code 7971, 8789. CCC Charter Act, 15 USC Code 714. Food, Conservation, and Energy Act of 2008, Title 1, Section 1402

OBJECTIVES:

The Farm Storage Facility Loan (FSFL) Program provides low-interest financing for producers to build, upgrade, or acquire farm storage and handling facilities, storage and handling equipment and trucks. The following commodities are eligible for on-farm storage, drying and handling equipment: corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, or minor oilseeds harvested as whole grain; corn, grain sorghum, wheat, oats or barley harvested as other-than-whole grain; pulse crops (lentils, chickpeas and dry peas); hay; honey; renewable biomass; fruits (includes nuts) and vegetables - cold storage facilities; aquaculture (excluding systems that maintain live animals through uptake and discharge of water); floriculture; hops; milk; rye; meat and poultry (unprocessed); eggs; cheese, butter and yogurt. The loan must be approved by the local FSA state or county committee before any site preparation, construction, and/or acquisition can be started. All loan requests are subject to an environmental evaluation. Accepting delivery of equipment, starting any site preparation, or construction before loan approval, may impede the successful completion of an environmental evaluation and may adversely affect loan eligibility. The SSFL program provides loans to processors of domestically produced sugarcane and sugar beets for the construction or upgrading of storage and handling facilities for raw sugars and refined sugars.

TYPES OF ASSISTANCE:

Direct Loans

USES AND USE RESTRICTIONS:

A FSFL is used to finance the purchase, construction, and/or upgrade of storage structures, storage and handling equipment and trucks--all eligible items may be new or used, permanently affixed or portable. The loan amount is limited to \$500,000 per storage facility for a regular loan and a \$50,000 aggregate balance for microloans. A SSFL will be used for the purchase and installation of eligible storage facilities, permanently affixed handling equipment or the remodeling of existing facilities to store raw or refined sugar. Eligible facilities and equipment include: 1) New conventional type bins or silos; 2) New flat-type storage structures, including a permanent concrete floor and bulkheads; 3) New storage structures; 4) New electrical equipment; 5) New equipment to improve, maintain,

ASSISTANCE LISTINGS DESCRIPTIONS

or monitor the quality of storage sugar; and 5) New concrete foundations, aprons, pits and pads, including site preparation, labor and material.

Applicant Eligibility:

Individual/Family; Anyone/general public; A FSFL eligible borrower is any person who, as landowner, landlord, operator, producer, tenant, leaseholder, or sharecropper: (1) Has a satisfactory credit history and demonstrates an ability to repay the debt arising under this program using a financial statement acceptable to CCC prepared within 90 days of the date of application; (2) has no delinquent Federal debt defined by the Debt Collection Improvement Act of 1996 at the time of loan disbursement; (3) is a producer of a facility loan commodity as defined by CCC; (4) demonstrates a need for storage capacity as defined by CCC; (5) provides proof of crop insurance offered under the Federal Crop Insurance Program for crops of economic significance on all farms operated by the borrower in the county where the storage facility is located; (6) is in compliance with USDA provisions for highly erodible land and wetlands provisions according to 7 CFR Part 12; (7) demonstrates compliance with any applicable local zoning, land use, and building codes for the applicable farm storage facility structures; (8) provides proof of flood insurance if CCC determines such insurance is necessary to protect the interests of CCC, and proof of all peril structural insurance, to CCC annually; (9) demonstrates compliance with the National Environmental Policy Act regulations at 40 CFR, Parts 1500- 1508; and (10) has not been convicted under Federal or State law of a controlled substance violation under 7 CFR Part 718. An eligible producer is the owner of a part or all of the domestically-grown sugar beets or sugarcane, including share rent landowners, at both the time of harvest and the time of delivery to the processor. A sugar beet or sugarcane processor is eligible for loans only if the processor has agreed to all the terms and conditions in the loan application, and has executed a note and security agreement, and storage agreement with the Commodity Credit Corporation (CCC). Processors must: 1) Have a satisfactory credit history; 2) Demonstrate a need for increased storage capacity; 3) Demonstrate compliance with an applicable local zoning, land use and building codes; 4) Annually provide CCC proof of all-peril insurance on the structure; 5) Demonstrate compliance with the National Environmental Policy Act; 6) Not have been convicted under federal or State law of disqualifying controlled substance violation; and 7) Be approved by CCC to store sugar either owned or pledged as security to CCC. SSFL must be approved by the local FSA state or county committee before any site preparation, construction, and/or acquisition can be started. All loan requests are subject to an environmental evaluation. Accepting delivery of equipment, starting any site preparation, or construction before loan approval, may impede the successful completion of an environmental evaluation and may adversely affect loan eligibility.

Beneficiary Eligibility:

Individual/Family; Anyone/general public; Farmer/Rancher/Agriculture Producer; Land/Property Owner; Applicants/borrowers are the direct beneficiaries when they meet all eligibility criteria. Landowners, landlords, operators, producers, tenants, leaseholders, or sharecroppers are the beneficiaries. The authorized SSFL will be used by the processor for the construction or upgrading of storage and handling facilities for raw sugars and refined sugars.

Credentials/Documentation:

Applicants must establish that they have a need for the storage capacity for for structures. There is no need to establish the storage need for handling equipment and trucks. The applicant must establish that he/she has the ability to repay the loan. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact assessment is required for this listing. This program is excluded from coverage under E.O. 12372. No additional information.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FSFL Application Form CCC-185 provided by the Farm Service Agency must be presented, with supporting information, to the FSA county office serving the applicant's county. FSA personnel assist applicants in completing their application forms. The SSFL processor must file a loan obligation with the State committee of the State where the processor is headquartered or with a county committee designated by the State committee. The processor must execute a note and security agreement, and storage

agreement with CCC and provide quantity and quality information of the commodity to be used as collateral.

Award Procedure:

FSA State and County Committees are authorized to approve a FSFL after applicants are determined eligible. SSFL processor must pay a loan service fee (determined by CCC) before loans are disbursed until the sugar and in-process sugar have actually been produced and guaranteed as being eligible to be pledged as loan collateral.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. The approval process may take from 2 to 6 weeks.

Appeals:

Other. Applicants for loans may appeal adverse actions taken against them. The applicant is given an opportunity to appeal the decision to the National Appeals Division. Appeal regulations are set forth in parts 11 and 789 of 7CFR.

Renewals:

Not Applicable. The loan term is 3, 5, 7, 10, or 12 years. The term of the loan may be extended only as an authorized exception. The loan is repaid in equal annual installments of principal and interest amortized over the loan term.

Formula and Matching Requirements:

Statutory Formula: Title Title 7 Agriculture, Chapter XIV, Part 1436, Public Law 110-236. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

There are no restrictions placed on the time permitted to spend the money awarded. Method of awarding/releasing assistance: lump sum.

Reports:

Applicants shall report, by the 20th of each month, on CCC-required forms, its imports and receipts, processing inputs, production, distribution, stocks, and other information necessary to administer the sugar programs. If the 20th of the month falls on a weekend or a Federal holiday, the report shall be due the next business day. By November 20 of each year, applicants will submit to CCC a report, as specified by CCC, from an independent Certified Public Accountant that reviews its information submitted to CCC during the previous October 1 through September 30 period.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements.

Records:

Borrowers are required to annually submit proof, as applicable, of crop insurance, auto insurance, flood insurance, property insurance, hazard insurance, and property taxes. Applicants having custody of records required by CCC to operate FSFL and SSFL programs must retain financial books and records and other written or electronic data for not less than 3 years from the date a loan is disbursed, market data's are reported; or marketing's are conducted under marketing allotments.

10.069 Conservation Reserve Program

(CRP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Food Security Act of 1985, as amended, Section 1231, Public Law 110-246, 16 USC Code 3831-3835a.

OBJECTIVES:

To protect the Nation's long-term capability to produce food and fiber; to reduce soil erosion and sedimentation, improve water quality, and create or enhance habitat for wildlife.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Eligible owners or operators may place highly erodible or other environmentally sensitive land into a 10-15 year contract. The participant, in return for annual payments, agrees to implement a conservation plan approved by the local conservation district for converting highly erodible cropland or other environmentally sensitive land to a long-term resource conserving cover i.e., eligible land must be planted with a vegetative cover, such as, perennial grasses, legumes, fobs, shrubs, or trees. Financial and technical assistance are available to participants to assist in the establishment of a long-term resource conserving cover.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Individual/Family; An individual, partnership, association, Indian Tribal ventures corporation, estate, trust, other business enterprises or other legal entities and, whenever applicable, a State, a political subdivision of a State, or any agency thereof may submit an offer to enroll acreage.

Beneficiary Eligibility:

Individual/Family; Farmer/Rancher/Agriculture Producer; Land/Property Owner; State; Local; If their offer is accepted for enrollment, an individual, partnership, association, Indian Tribal ventures, corporation, estate, trust, other business enterprises or other legal entities and, whenever applicable, a State, political subdivision of State, or any agency thereof may earn benefits.

Credentials/Documentation:

The land must be owned or operated for not less than 12 months prior to the close of the signup period, unless the land was acquired by will or succession or FSA determines that ownership was not acquired for the purpose of placing the land in the CRP. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. FSA has three methods for enrolling acreage in the CRP. One method is a continuous signup process where acreage suitable for certain environmental priority practices, including but not limited to grass waterways, riparian buffers or filterstrips, and acreage within wellhead protection areas may be offered and accepted without going through a competitive offer process. The second method is similar to continuous signup and is available only in distinct geographic areas. These areas are targeted by FSA and State governments under partnership agreements. The third method is to offer acreage during a general signup period where eligible offers to enroll highly erodible and other environmentally sensitive acreage are submitted and ranked competitively based on an environmental benefits index. Regardless of the method of enrollment, the local FSA office that serves the area in which the farm or ranch is located will provide the maximum payment rate CCC will accept to enroll certain acreage in the program. Producers may submit a rental rate per acre offered that may be equal to or less than CCC's maximum payment rate.

Award Procedure:

FSA will notify persons whose offers are determined acceptable as soon as practicable after the close of the signup.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. From 7 to 120 days.

Appeals:

Other. Producers may appeal any determination to county FSA committee, State committee, or National Appeals Division. Matters that are generally applicable to all producers are not appealable.

Renewals:

10.072 Wetlands Reserve Program

(WRP),

FEDERAL AGENCY:

NATURAL RESOURCES CONSERVATION SERVICE, AGRICULTURE,
DEPARTMENT OF

AUTHORIZATION:

Food Security Act of 1985 (This program was repealed by the Agricultural Act of 2014, effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.), Title XII, Part Subtitle D, Section 1237, Statue 99-1504, Public Law 99-198, 16 USC Code 3831.

OBJECTIVES:

To assist landowners in restoring and protecting wetlands on eligible lands on which they agree to enter into a permanent or 30-year long-term easement (30-year contract for Indian Tribes), or a restoration cost-share agreement with the Secretary. The goal of WRP is to maximize wetland functions and values and wildlife benefits on every acre enrolled in the program.

TYPES OF ASSISTANCE:

Cooperative Agreements, Salaries and Expenses

USES AND USE RESTRICTIONS:

Eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber, including cropland, rangeland and forest production land, lands substantially altered by flooding, certain riparian areas, along with certain adjacent areas. The goal of the WRP is to achieve the greatest wetlands functions and values, along with optimum wildlife habitat on every acre enrolled in the program. At least 70 percent of the wetland and upland areas will be restored to the natural condition to the extent practicable; the remaining 30 percent of the project area may be restored to other than natural conditions. Enrollment options include permanent easements, 30-year easements, restoration cost-share agreements, and, for acreage owned by Indian Tribes, 30-year contracts. To be eligible for participation, land must be restorable and be suitable for wildlife benefits. Participating landowners must comply with the terms and conditions of their easement, agreement or contract for the duration of the document. For easement projects, landowners shall ensure the easement is superior to the rights of all others and shall agree to implement a

wetland restoration plan designed to restore and maintain the easement area. Landowners must agree to a permanent retirement of crop acreage bases, allotments, and quotas to the extent that the sum of the crop acreage bases and allotments will not exceed the remaining cropland on the farm. Participating landowners receive financial and technical assistance to install necessary restoration practices as follows: Permanent easements: Easement duration is in perpetuity. Landowners receive an easement payment after the easement is filed. In addition, NRCS shall share the cost of carrying out the establishment conservation measures and practices, and the protection of wetland functions and values, including necessary maintenance activities, to the extent that the Secretary determines that cost-sharing is appropriate and in the public interest. 30-year easements: Easement duration is 30 years. Landowners receive an easement payment after the easement is filed that is the equivalent of 75 percent of the value for a permanent easement and up to 75 percent of the eligible restoration costs. Restoration cost-share agreements: Restoration cost-share agreements are made available to participating landowners as an alternative mechanism to restore wetlands without requiring the participant to sell an easement. Agreements are generally for a 10-year period, although longer agreement periods may be required for unique projects that are funded at a higher level. There is no easement payment; however, NRCS pays up to 75 percent of the eligible restoration costs. 30-year contracts: Acreage owned by Indian Tribes can be enrolled through the use of a 30-year contract which shall be equivalent in value to a 30-year easement. For both permanent and 30-year easements, WRP pays for all the overhead costs associated with recording the easement in the local land records office including recording fees, charges for title abstracts, surveys, appraisal fees, records searches, and title insurance associated with acquiring an easement. These overhead costs are generally not paid to participants but are provided directly to the vendor performing the service. Therefore, payments appearing on USAspending.gov will be reflective of payments to participants and payments to vendors for services associated with restoration and management activities and administrative costs associated with recording an easement. Eligible applicants must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12 and the Adjusted Gross Income provisions in 7 CFR part 1400. They must be the landowner of the eligible land being offered for participation. For easement applications, the applicant must have owned the land for the 7-year period prior to the time the land is determined eligible for enrollment unless it is determined that the land was acquired by will or succession as a result of death of the previous owner; the ownership change occurred due to foreclosure and the owner of the land immediately before foreclosure exercises a right of redemption from the mortgage holder; or the land was acquired under circumstances that give adequate assurances, as determined by NRCS that such land was not acquired for the purposes of placing it in the program.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Federally Recognized Indian Tribal Governments; Individual/Family; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An individual landowner, partnership, association, corporation, estate, trust, other business or other legal entities and Indian Tribe. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date. Implementation of contracts entered into prior to that date will continue.

10.087 Biomass Crop Assistance Program

(BCAP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Supplemental Appropriations Act, 2010, Title 1, Part Chapter 1, Section 101, Public Law 111-212, The Farm Security and Rural Investment Act of 2002, Title IX, 7 USC Code 8101. The Food, Conservation, and Energy Act of 2008, Title IX, Section 9001, Public Law 110-246

OBJECTIVES:

The purpose of BCAP is to encourage the production of biofuels. BCAP accomplishes this by providing funding for agricultural and forest land owners and operators to receive matching payments for certain eligible material sold to qualified biomass conversion facilities for conversion to heat, power, bio based products, or advanced biofuels. It also provides funding for producers of eligible crops of renewable biomass within specified project areas to receive establishment payments and annual payments.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

BCAP is intended to encourage the production of biofuels by assisting agricultural and forest land owners and operators with the establishment and production of eligible crops in selected project areas for conversion to bioenergy, and with the collection, harvest, storage, and transportation of eligible material for use in a biomass conversion facilities.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); To be eligible to enter into a BCAP contract for the purposes of receiving an annual payment or establishment payments, a person or legal entity must be an owner, operator, or tenant of eligible land within a project area. Eligible land must be agricultural land or nonindustrial private forest land. Eligible agricultural land includes cropland; grassland; pastureland, rangeland, hayland, and other land on which food fiber, or other agricultural products are produced or capable of being legally produced for which a valid conservation plan exists and is implemented. Ineligible land is as follows: (1) Federal lands; (2) State-owned, municipal, or other local government-owned lands; (3) Native sod; and (4) Land that is already enrolled in CCCs CRP, Wetlands Reserve Program, or Grassland Reserve Program. Eligible crops for annual and establishment payments are renewable plant materials such as feed grains, other agricultural commodities, or other plants and trees, and algae; waste materials including vegetative waste, materials, such as woods wastes and wood residues, animal waste and byproducts, such as fats, oils, greases, and manure, food waste, and yard waste. Ineligible crops are any crop eligible to receive payments under Title I of the Food, Conservation, and Energy Act of 2008 (See 8-LP, paragraph 126 and 7-CN for Title I commodities); and any plant that is invasive or noxious or has the potential to become invasive or noxious. Eligible materials for matching payments include various types of renewable biomass collected or harvested directly from the land in accordance with an approved conservation plan, forest stewardship plan, or an equivalent plan before transport and delivery to the biomass conversion facility. Materials will only be eligible if USDA determines that there is no higher value use for that material within a reasonable distance of the biomass conversion facility. Matching payments are not available for the following products: (1) Material that is whole grain from any crop that is eligible to receive; payments under Title I of the Food, Conservation, and Energy Act of 2008 or an amendment made by that title, including, but not limited to, barley, corn, grain sorghum, oats, rice, or wheat; honey; or material that is mohair; certain oilseeds such as canola, crambe, flaxseed, mustard seed, rapeseed, safflower seed,

soybeans, sesame seed, and sunflower seeds; peanuts; pulse crops such as small chickpeas, lentils, and dry peas; dairy products; sugar; wool; and cotton boll fiber; (2) Animal waste and by-products of animal waste including fats, oils, greases, and manure; (3) Food waste and yard waste; and (4) Algae. All eligible material must be harvested or collected directly from the land by the eligible material owner according to a conservation, forest stewardship, or equivalent plan and be separated from the higher value product before the point of delivery. Woody biomass harvested or collected outside of project area contracts is limited to eligible material resulting from preventative treatments to address fire fuel load reduction, insect or disease outbreaks, or restore ecosystem health. Woody biomass harvested or collected outside of project area contracts is limited to eligible materials that do not have an existing market for non-biomass use and cannot be co-mingled with higher product value materials. Eligible material owner, for purposes of the matching payment, means a person or entity having the right to collect or harvest eligible material, who has the risk of loss in the material that is delivered to an eligible facility and who has directly or by agent delivered or intends to deliver the eligible material to a qualified biomass conversion facility, including: (1) For eligible material harvested or collected from private lands, including cropland, the owner of the land, the operator or producer conducting farming operations on the land, or any other person designated by the owner of the land; and (2) For eligible material harvested or collected from public lands, a person having the right to harvest or collect eligible material pursuant to a contract or permit with the US Forest Service or other appropriate Federal agency, such as a timber sale contract, stewardship contract or agreement, service contract or permit, or related applicable Federal land permit or contract, and who has submitted a copy of the permit or contract authorizing such collection to CCC. Eligible facilities are biomass conversion facilities that convert or propose to convert renewable biomass into heat, power, bio based products, or advanced biofuels and have been approved for the BCAP program by the CCC.

Beneficiary Eligibility:

Farmer/Rancher/Agriculture Producer; Land/Property Owner; U.S. Citizen; Owners and operators of agricultural and non-industrial private forest land will receive the ultimate benefits because it will provide financial assistance to establish, produce, and deliver biomass feedstocks. Eligible material owners who are the person or entity having the right to collect or harvest eligible material, who has the risk of loss in the material that is delivered to an eligible facility and who has directly or by agent delivered or intends to deliver the eligible material to a qualified biomass conversion facility.

Credentials/Documentation:

In order to enroll land in BCAP, the participant must enter into a contract with the Commodity Credit Corporation (CCC). Acceptance or rejection will be at the sole discretion of CCC, and offers may be rejected for any reason as determined appropriate to accomplish the purposes of BCAP. Contracts will be for a term of up to five years for annual and non-woody perennial crops and 15 years for woody perennial crops; or time period may vary due to type of crop, agronomic conditions, and other factors. Eligible material owner who enter into a contract with CCC may receive matching payments up to a period of two-years following the first payment for the delivery of eligible material to a qualified biomass conversion facility. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. FSA prepared a Final Programmatic Environmental Impact Statement (PEIS) for BCAP and NOFA and was published in the Federal Register on June 25, 2010 (75 FR 36386). On September 15, 2011, FSA published the BCAP interim rule (76 FR 56949). The BCAP interim rule provided FSA with the authority to prioritize establishment and annual payments (BCAP project areas) and if sufficient funding remains, to consider applications for matching payments. The interim rule also enables prioritization among project area proposals if eligible requests exceed available funding. Future funding for BCAP could make such prioritizing unnecessary.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. In order for a delivery of eligible materials to a biomass conversion facility to qualify for a BCAP payment,

the receiving biomass conversion facility must be qualified for BCAP. To become qualified, the biomass conversion facility must enter into an agreement with CCC, through the FSA State office in the State where the facility is physically located. For any facility, whether or not yet in operation, the entity requesting that a facility become qualified must provide proof of all applicable Federal, State, local, and Tribal permits and licenses required for operation or proof of application completions or letters of renewal submissions from the applicable governmental entity. Applicable permits and licenses may include, but are not limited to, business licenses, air quality permits, water discharge permits, storm water permits, or Bureau of Alcohol, Tobacco, Firearms and Explosives registrations. Each biomass conversion facility must enter into a separate agreement with CCC regardless of whether a single owner has multiple facilities. CCC will issue a unique facility identification number to each qualifying biomass conversion facility. Eligible material owners must apply at an FSA county office and receive approval for that application before delivering the eligible material to the qualified biomass conversion facility. Applications must include the following based on information obtained from contracts, agreements, or binding letters of intent: (1) An estimate of the total dry tons of eligible material expected to be sold to the qualified biomass conversion facility; (2) The type(s) of eligible material that is expected to be sold; (3) The name of the qualified biomass conversion facility that will purchase the eligible material; (4) The expected, fair market, per dry ton payment rate the owner plans to receive for the delivery of the eligible material; (5) The date or dates the eligible material is expected to be delivered to the qualified biomass conversion facility; (6) A new or amended conservation plan, forest stewardship plan, or equivalent plan. Eligible material owners who deliver eligible material to more than one qualified biomass conversion facility must submit separate applications for each facility to which eligible material will be delivered. In order to enroll land for Establishment and Annual payments, the participant must enter into a contract with CCC. Only the owners, operators, or tenants of eligible land within a project area that will actually perform the work specified in the contract are eligible to apply for the program. The contract is comprised of: (1) The terms and conditions for participation in BCAP; (2) The conservation plan, forest stewardship plan, or equivalent plan; and (3) Any other materials or agreements determined necessary by CCC.

Award Procedure:

Contract approval for matching payments is subject to availability of funds and to eligible material owners completion of required conservation plan, forest stewardship plan or equivalent plan; presentation of proof of material ownership; and compliance with all eligible material provisions. Eligible material owners accepted into the program will receive their matching payments after they provide CCC documentation of deliveries to qualified biomass conversion facilities. Establishment payments will be made based on a determination by CCC that an eligible practice or an identifiable portion exists. Eligible practices are practices specified in the conservation plan, forest stewardship plan, or equivalent plan that meet all standards need to cost-effectively establish annual crops, non-wood perennial crops, and wood perennial crops. Payments will not be more than 75 percent of the cost for establishing a perennial crop for seed and stock costs; planting costs, cost of site preparation for non-industrial forest land; could include but not limited to site preparation for non-tree planting and supplemental or temporary irrigation. Annual payments will be calculated on a per acre basis using market-based rental rates. Rental payment rates will be based on average soil rental rate for cropland and all other agricultural land; marginal pastureland; and for forest land. The first years' payments will be made as an advance in an amount equal to 50 percent with 30 days of contract approval, with the remaining 50 percent being paid within 30 days of the first-year contract anniversary date. Annual payments for subsequent years will be made within 30 days of the contract anniversary beginning with the second-year contract anniversary. If BCAP participants collect both annual and matching payments for their crops, they are subject to a reduction in their annual payment. The size of the reduction depends on the end use of the biomass being delivered to a biomass conversion facility. The annual payment will be reduced by: 1 percent if the eligible crop is delivered to a biomass conversion facility for conversion to cellulosic biofuels as defined by 40 CFR 80.1401; by 10 percent if the eligible crop is delivered to a biomass conversion facility for conversion to advanced biofuels; and by 25 percent if the eligible crop is delivered to a biomass conversion facility for conversion to heat, power, or biobased products.

Formula and Matching Requirements:

Statutory Formula: Title 7, Part 1450, Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Matching payments may be available for the delivery of eligible material to qualified biomass conversion facilities by eligible material owners. Qualified biomass conversion facilities produce heat, power, biobased products, or advanced bio fuels from biomass feed stocks. Matching payments will be made at a rate of \$1 for each \$1 per dry ton paid by qualified biomass conversion facilities up to \$45 per dry ton. Payments are paid within 30 days after the request for payment by the eligible material owner is submitted at the FSA county office, including submission of sales invoice(s) issued by the qualified biomass conversion family. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

There are no restrictions place on the time permitted to spend the money awarded. Method of awarding/releasing assistance: lump sum.

Reports:

Biomass Conversion Facilities agree to develop and maintain a BCAP Purchase List of all renewable biomass purchases and include purchases from both eligible material owner and sellers not participating in BCAP.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. BCAP is a program operated by the Commodity Credit Corporation (CCC), and therefore is included in the CCC annual audit. All CCC audit procedures apply to BCAP.

Records:

Producers enrolling in all types of BCAP contracts may be reviewed or audited by FSA as appropriate. Recipients shall retain records which include spreadsheet, books, papers, records, contracts, scale tickets, settlement sheets, invoices, written price quotations, or other documents related to BCAP. Records shall be maintained and retained for no less than three years from the date of payment for cultivation or renewable biomass purchases.

10.090 Supplemental Revenue Assistance Program

(SURE).

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Trade Act of 1974, Section 902, Public Law 93-618, The Food, Conservation, and Energy Act of 2008, Title XV, Section 15101, Public Law 110-246, The American Recovery and Reinvestment Act of 2009 (ARRA), Public Law 111-5, The Food, Conservation, and Energy Act of 2008 (The Farm Bill), Title XII, Part B, Section 12033, Public Law 110-246, 7 USC Code 1501.

OBJECTIVES:

The objective of the SURE program is to provide financial assistance for farm revenue losses due to natural disaster. Assistance is provided from the Agricultural Disaster Relief Trust Fund (Trust Fund) established under Public Law 110-246. The Secretary of Agriculture (henceforth the Secretary) has the authority to use the Trust Fund to make crop disaster assistance payments to eligible producers on farms in disaster counties whose actual production is less than 50 percent of their normal production. A disaster county means a county included in the geographic area covered by a qualifying natural disaster declaration by the Secretary. SURE is the 2008 Farm Bill's successor to the prior Crop Disaster Programs. SURE is legislated through fiscal year 2011.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

SURE assistance can provide benefit payments to eligible producers who have suffered eligible crop losses due to a natural disaster. To be eligible for crop loss assistance, a producer must show that the actual production on the farm for at least one crop of economic significance is reduced for at least 10 percent due to disaster, adverse weather, or disaster-related conditions. Payment limitations apply for SURE. For 2008, no person may receive more than \$100,000 total for the 2008 program year under the Emergency Assistance for Livestock, Honeybees, and Farm Raised Fish Program (ELAP), Livestock Forage Disaster Program (LFP), Livestock Indemnity Program (LIP), and SURE. For 2009 and subsequent program years, no person or legal entity, excluding joint ventures and general partnerships may receive, directly or indirectly, more than \$100,000 total per program year under ELAP, LFP, LIP and SURE. Producers or legal entities whose average adjusted gross income (AGI) exceeds \$2.5 million in crop year 2008 shall not be eligible for benefit payments unless 75 percent or more of the income is from agriculture. For 2009 and subsequent years, the average AGI income cap changes to \$500,000 of non-farm income, with no on-farm income cap. SURE assistance will be provided to an eligible producer in the amount equal to 60 percent of the difference between the SURE Guarantee and the total farm revenue. The SURE guarantee for the farm cannot be greater than 90 percent of the total of the normal production of the farm.

Applicant Eligibility:

Individual/Family; Minority group; Small business (less than 500 employees); Profit organization; An eligible applicant or eligible "producer on a farm", is an individual or entity who assumes the production and market risks associated with the agricultural production of crops or livestock. An individual or entity is a citizen

ASSISTANCE LISTINGS DESCRIPTIONS

of the United States (U.S.), a resident alien, or a partnership of citizens of the U.S.

Beneficiary Eligibility:

Individual/Family; Minority group; Small business; Profit organization; Farmer/Rancher/Agriculture Producer; Small Business Person; Black; American Indian; Spanish Origin; Asian; Other Non-White; U.S. Citizen; Women; Disabled (e.g. Deaf, Blind, Physically Disabled); Physically Afflicted (e.g. TB, Arthritis, Heart Disease); The SURE program will provide financial assistance to an eligible producer on a farm who has insurable or noninsurable commodity or agricultural commodity (except livestock) for which the producer on a farm is eligible to obtain a policy or plan of insurance. Benefits are also extended to the Socially Disadvantaged Farmer or Rancher who has been subject to racial or ethnic prejudice because of his or her identity as members of a group without regard to their individual qualities; a beginning farmer or rancher who has not operated a farm or ranch for more than 10 years and materially and substantially participates in the operation; and limited resource producer with direct or indirect gross farm sales not more than \$100,000 in both of the previous two years, adjusted upwards for any general inflation since fiscal year 2004, and if the total household income is at or below the national poverty level for a family of four or less than 50 percent of county median household income in both of the previous two years.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An eligible producer must provide a total crop acreage report (FSA-578) including crops on cropland and non-cropland in all counties that the producer has interest. The total farm acreage report includes native and improved grass that will be hayed or grazed, all grazing land and uninsurable land by either crop insurance or NAP coverage and file an AD-1026.

Award Procedure:

The applicant will submit the required forms to applicants local FSA office. Applications will be reviewed and the award will be distributed based on 60 percent of the difference of the SURE guarantee and total farm revenue calculation. Total farm revenue include estimated crop value, crop insurance indemnities, NAP payments, Market Assistance Loan proceeds, other disaster payments, DCP payments (15% of direct payments, plus all Counter-Cyclical and ACRE payments. To assist farmers and ranches in evaluating their options with SURE, USDA has created a SURE calculator. To utilize the calculator, visit the website www.fsa.usda.gov. The calculator and instructions linked on the FSA website are for informational purposes only. This calculator in no way binds FSA to potential payments under SURE and should not be relied on as the sole source of information to make final management decisions.

10.093 Voluntary Public Access and Habitat Incentive Program

(VPA-HIP).

FEDERAL AGENCY:

NATURAL RESOURCES CONSERVATION SERVICE, AGRICULTURE,
DEPARTMENT OF
AUTHORIZATION:

The Food Security Act of 1985; reauthorized by the Agricultural Act of 2014, P.L. 11379., Public Law 99-198, 15 USC Code 714b and 714c.

OBJECTIVES:

The primary objective of the VPA-HIP is to encourage owners and operators of privately-held farm, ranch, and forest land to voluntarily make that land available for access by the public for wildlife-dependent recreation, including hunting or fishing, under programs implemented by state or tribal governments.

TYPES OF ASSISTANCE:

Formula Grants, Project Grants

USES AND USE RESTRICTIONS:

The funding provided by the VPA-HIP will help states and tribal governments address many issues that can greatly increase access and recreational experiences. Grant recipients will be able to use the funding to provide higher rental payments, provide technical and conservation services to landowners, and increase acreage enrolled for public access. Twenty-six states have public access programs for hunting, fishing, and other related activities. These programs provide rental

ASSISTANCE LISTINGS DESCRIPTIONS

payments and other incentives, such as technical or conservation services to landowners who allow the public to hunt, fish, or otherwise appropriately recreate on their land. Section 726 of the Consolidated and Further Continuing Appropriations Act, 2012, effectively ended any new obligations, or modifications to existing obligations, under VPA-HIP.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; State; Only States and Tribal governments are eligible for VPA-HIP. An eligible State government means any State or local government, including State, city, town, or county government. An eligible Tribal Government means any Federally-recognized Indian tribe, band, nation, or other organized group, or community, including pueblos, rancherias, colonies and any Alaska Native Village, or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C 1601-1629H), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Beneficiary Eligibility:

Anyone/general public; The beneficiary eligibility is extended to the public for the purposes of expanding existing public access programs or create new public access programs or provide incentives to improve habitat on enrolled program lands. Proposals for grant money should be submitted to the local State or Tribal governments by owners and operators of privately-held farm, ranch, and forest land. An eligible owner is one who has legal ownership of farmland, ranchland, or forestland. . An eligible operator (individual, entity, or joint operation) is one who is determined by the FSA county committee to be in control of the farming, ranching, or silvicultural operations on the farm. For the purposes of receiving grant money, an appropriate wildlife habitat should be suitable or proper, as determined by the applicable State or tribal government, to support fish and wildlife populations in the area. An eligible farmland or ranch land means the sum of the Direct and Counter-Cyclical (DCP) cropland, forest, acreage planted to an eligible crop acreage and other land on the farm. Eligible forest land is at least 120 feet wide and one acre in size with at least 10 percent cover (or equivalent stocking) by live trees of any size, including land that formerly had such tree cover and that will be naturally or artificially regenerated. Forest land includes transition zones, such as areas between forest and non-forest lands that have at least 10 percent cover (or equivalent stocking) with live trees and forest areas adjacent to urban and built-up lands. Roadside, streamside, and shelterbelt strips of trees must have a crown width of at least 120 feet and continuous length of at least 363 feet to qualify as forest land. Unimproved roads and trails, streams, and clearings in forest areas are classified as forest if they are less than 120 feet wide or an acre in size. Tree-covered areas in agricultural production settings, such as fruit orchards, or tree-covered areas in urban settings, such as city parks, are not considered forest land. Eligible privately-held land means farm, ranch, or forest land that is owned or operated by an individual or entity that is not an entity of any government unit or Tribe.

Credentials/Documentation:

Funding priority will be given to proposals that will use the grant money in a public access program to address these objectives: Maximize participation by landowners; Ensure that land enrolled in the program has appropriate wildlife habitat; Provide incentives to strengthen wildlife habitat improvement efforts on Conservation Reserve Enhancement Program (CREP) or other conservation program land; Supplement funding and services from other federal, state, tribal government or private resources that is provided in the form of cash or in-kind services; and Provide information to the public about the location of public access land. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The applicant is the individual State or tribal government. Any application from any unit of the State or tribal government must be coordinated for a single submission of one application from the State or Tribal government. Incomplete applications will not be considered for funding.. Since the VPA-HIP is a competitive grants program, information furnished by grant applicants in their proposals will be used to determine eligibility for the VPA-HIP benefits and for ranking their proposals against others. Furnishing the data is voluntary; however, the failure to provide

information could result in program benefits being withheld or denied. The following forms must be completed, signed, and submitted as part of the application; other forms may be required, as specified in the applicable RFA/APF: 1. Application for Federal Assistance; 2. Budget Information-Non-Construction Programs; and 3. Assurances-Non-Construction Programs. Each application must contain the following elements; additional required elements may be specified in the applicable RFA/APF: Title page; Table of contents; Executive summary, which includes activities which provide a summary of the application that briefly describes activities proposed to be funded under this grant; objectives, funding, performance which includes the tasks to be accomplished, the amount of funding requested, how the work will be performed, whether organizational staff, consultants or contractors will be used, and whether other resources will be used.

Award Procedure:

Grants will awarded through a competitive RFA/APF process. Before receiving grant funding, the grantee will be required to sign an agreement similar in form and substance to the form of agreement published within or as an appendix to the RFA/APF. The agreement will require the grantee to commit to do all the following: 1. Take all practicable steps to develop continuing sources of financial support from other Federal, State, tribal government, or private resources; 2. Make arrangements for the monitoring and evaluation of the activities related to implementation of the public access program of the owners or operators that enroll farm, ranch, and forest land; and 3. Provide an accounting for the money received by the grantee. The grantee will be required to monitor funds or services as specified and must agree to that monitoring before grant funds are awarded. The grantee must also certify that the grant funds and services will not be used for ineligible purposes. Other requirements may be specified in the formal agreement between the Natural Resources Conservation Service and the awardee.

10.098 Reimbursement Transportation Cost Payment Program for Geographically Disadvantaged Farmers and Ranchers

(RTCP).

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Food, Conservation, and Energy Act of 2008, Title I, Section 1621, Public Law 110-246

OBJECTIVES:

The intended goal of the program is to provide direct reimbursement payments to a geographically disadvantaged farmer or rancher who transports an agricultural commodity, or inputs used to produce an agricultural commodity during a fiscal year. Input transportation cost are transportation costs of inputs used to produce an agricultural commodity including, but not limited to, air, ocean, and land freight of chemicals, feed, fertilizer, fuel, seeds, plants, supplies, equipment parts, and other inputs. The Farm Service Agency (FSA), Deputy Administrator for Farm Programs (DAFP) administers RTCP. The program will be carried out in the field by FSA State and county committee and FSA employees. State and local governments and their political subdivisions and related agencies are not eligible for RTCP payments.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

RTCP provides monetary assistance to geographically disadvantaged farmers and ranchers by reimbursing them for a portion of the transportation cost of their agricultural commodity, or transported inputs used to produce an agricultural commodity during the fiscal year. The payments provided by RTCP are intended to offset a portion of the high cost of transporting inputs for production purposes and transporting products to markets. The types of transportation rates used to determine reimbursable amounts are: (1) Actual transportation rates which are based on the actual costs incurred by the applicant and must be determined in all cases from verifiable records. (2) Fixed transportation rates are determined by FSA and will establish per unit transportation costs for each eligible commodity or input used to produce the eligible commodity. (3) Set transportation rates are established for those transportation costs that are not on the FSA list of fixed rates and for which a actual rate cannot be documented. They will be set by FSA based on available data of transportation costs similar commodities and inputs.

Applicant Eligibility:

U.S. Territories and possessions; Individual/Family; Specialized group (e.g. health professionals, students, veterans); To be eligible to receive program benefits, a geographically disadvantaged farmer or rancher must: (1) Be a producer of an eligible agricultural commodity in substantial commercial quantities (2) Incur transportation costs for the transportation of the agricultural commodity or input used to produce the agriculture commodity (3) Submit an application for payment during the specified period applicable for each fiscal year. (4) Be in compliance with conservation and wetland protection requirements on all their land (5) Be a citizen of or legal resident alien of the U.S. Eligible commodities include any agricultural commodity (including horticulture, aquaculture, and floriculture) food, feed, fiber, livestock (including elk, reindeer, bison, horses, and deer), insects or products thereof.

Beneficiary Eligibility:

Farmer/Rancher/Agriculture Producer; The U.S. farmers and ranchers outside the continental U.S. (the 48 contiguous U.S.) receive the ultimate benefit from the program because they operate at a competitive disadvantage relative to farmers and ranchers in the continental U.S. This disadvantage is due to the high cost of transporting agricultural commodities from those areas to markets in the continental U.S. and in other countries, and the high cost of transporting agricultural inputs to those areas. Geographically disadvantaged farmers and ranchers located in Hawaii, Alaska, or an insular area such as the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Federated States of Micronesia, the Republic of the Marshall

ASSISTANCE LISTINGS DESCRIPTIONS

Islands, the Republic of Palau, and the Virgin Islands of the U.S. are the primary beneficiaries.

Credentials/Documentation:

Each producer requesting payment must certify to the accuracy and truthfulness of the information in their application and any supporting documentation. Producers who submit actual costs for reimbursement at the actual cost rate, must provide verifiable records. Failure or refusal to allow FSA to verify the information provided will result in a denial of eligibility. Furnishing the information is voluntary; however, without it program benefits will not be approved. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An application for payment must be submitted on a completed application form. Applications and any other supporting documentation must be submitted to the FSA county office that services the county where the agricultural operation is located, but, in any case, must be received by the FSA county office by the close of business on the last day of the application period established by the Deputy Administrator. An application received after the close of business after the application period will not be eligible for benefits.

Award Procedure:

Eligibility reimbursement amount will be calculated by multiplying the number of units of the reported transportation amount times the applicable transportation fixed, set, or actual rate times the applicable non-foreign area cost of living allowance or post differential (COLA).

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

From 15 to 30 days. The appellant must submit a written request asking the next level reviewing authority within FSA to review a decision. The appeal regulations are specified in 7CFR parts 11 and 780 apply to determinations for RTCP.

10.099 Conservation Loans

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Consolidated Farm and Rural Development Act, Title XIV, Part A, Section 304, 7 USC Code 1924.

OBJECTIVES:

Conservation Loan (CL) program is to provide access to credit for farmers who need and want to implement conservation measures on their land but do not have the up front funds available to implement these practices. Unlike FSAs traditional farm ownership and operating loan programs that are targeted toward smaller and less financially established farmers, eligibility requirements for the CL program are expanded to permit FSA to provide assistance to some applicants who may be large and financially strong.

TYPES OF ASSISTANCE:

Direct Loans, Guaranteed/Insured Loans

USES AND USE RESTRICTIONS:

CL funds can be used to implement a conservation practice approved by the Natural Resources and Conservation Service (NRCS), such as reducing soil erosion, improving water quality, promoting sustainable and organic agricultural practices. Specific conservation practices include: installation of conservation structures, establishment of forest cover, installation of water conservation measures, establishment or improvement of permanent pastures, transitioning to organic production, manure management, including manure digestion systems, adaptation of other emerging or existing conservation practices, techniques or technologies.

Applicant Eligibility:

Individual/Family; Minority group; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An applicant must (1) Not have caused a loss to the Agency after April 4, 1996, or received debt forgiveness on more than three occasions prior to April 4, 1996 to receive a guaranteed loan, and for a direct loan, must not have received debt forgiveness from the Agency on any direct or guaranteed loan; (2) be a U.S. citizen, non-citizen national or qualified alien; (3) possess the legal capacity to incur the obligations of the loan; (4) for a direct loan, have the necessary education and/or experience, training, and managerial ability to operate a farm; and (5) for a direct loan, fulfill the Agency's borrower training requirements. If the applicant is an entity, it must be controlled by farmers engaged primarily and directly in farming in the U.S., after the loan is made. Unlike other Agency loan programs, Conservation Loans are

ASSISTANCE LISTINGS DESCRIPTIONS

not limited to applicants who are unable to obtain sufficient credit from other sources at reasonable rates and terms or to those who are the owner or operator of a not larger than family size farm. However, the applicant's operation must realistically project the ability to repay the loan.

Beneficiary Eligibility:

Individual/Family; Small business; Farmer/Rancher/Agriculture Producer; Small Business Person; Land/Property Owner; Black; American Indian; Asian; Other Non-White; U.S. Citizen; Women; Rural; Applicants are the direct beneficiaries and must meet the applicant eligibility requirements. Families, individual, and entities who are farmers are the beneficiaries.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The following forms must be submitted by applicants: For Loan Guarantees FSA-2211 Application for Guarantee or FSA-2212 Preferred Lender Application for Guarantee. Must be submitted with supporting information with the prospective lender. Applicants must provide an approved NRCS conservation plan that includes the conservation measure for which loan funds are requested.

Award Procedure:

Certification as to eligibility is made by the authorized agency official and an approval determination is made by the authorized agency official based on loan feasibility, soundness, and adequate security.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Other. The loan approval official approves or disapproves a completed application. The average approval time for direct loans is 30 days and 10 days for guaranteed loans.

Appeals:

Other. Applicants for direct and guaranteed loans may appeal an adverse decision. The applicant is given an opportunity to appeal the decision to the National Appeals Division. The applicant may in the final step of the appeal process ask for a review of the decision by the Director of the National Appeals Division in Washington, DC.

Renewals:

Other. Applicants may reapply at any time. Applicants denied assistance through the appeal process must establish that substantial change has occurred since the denial decision.

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Loans are scheduled for repayment over periods up to 20 years for direct loans and up to 30 years for guaranteed loans depending on the type of security available. The interest rate for guaranteed loans is negotiated between the lender and borrower. The interest rate for direct loans is determined by the Secretary of Agriculture. Method of awarding/releasing assistance: lump sum.

10.102 Emergency Forest Restoration Program

(EFRP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Consolidated and Further Continuing Appropriations Act, 2012 Division A, Title VII, Section 735, Public Law 112-55, 125 Stat. 588., Food, Conservation, and Energy Act of 2008, Title VIII, Section 8203, Statue 122-2051, Public Law 110-246, 16 USC Code 2201-2206.

OBJECTIVES:

The object of EFRP is to make financial assistance available to eligible participants on eligible land for certain practices to restore nonindustrial private forest land that has been damaged by a natural disaster. The financial assistance will be cost share payments to assist an EFRP participant to establish practices required to address qualifying damage suffered in connection with a qualifying disaster.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Subject to the availability of funds the Farm Service Agency (FSA) will provide cost share payments to owners of nonindustrial private forest land who carry out emergency measures to restore land damaged by a natural disaster on or after January 1, 201, as determined by FSA.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; Non-Government - General; Individual/Family; Minority group; Specialized group (e.g. health professionals,

ASSISTANCE LISTINGS DESCRIPTIONS

students, veterans); Small business (less than 500 employees); Anyone/general public; To be eligible to participate in EFRP, a person or legal entity must be an owner of nonindustrial private forest land affected by a natural disaster, and must be liable for or have the expense that is the subject of the financial assistance. The owner must be a person or legal entity (including Indian tribes) with full decision-making authority over the land, as determined by FSA, or with such waivers as may be needed from lenders or others as may be required, to undertake program commitments. Federal agencies and States, including all agencies and political subdivisions of a State, are ineligible for EFRP. For land to be eligible, it must be nonindustrial private forest land and must, as determined by FSA. The land must have existing tree cover or have had tree cover immediately before the natural disaster and be suitable for growing trees, have damage to natural resources caused by a natural disaster, which occurred on or after January 1, 2010, that, if not treated, would impair or endanger the natural resources on the land and would materially affect future use of the land. The land must be physically located in a county in which EFRP has been implemented and is ineligible for EFRP if FSA determines that the land is owned or controlled by the United States, or owned or controlled by States, including State agencies or political subdivisions of a State. A qualifying natural disaster means wildfires, hurricanes or excessive winds, drought, ice storms or blizzards, floods, or other naturally-occurring resource impacting events as determined by FSA. For EFRP, a natural disaster also includes insect or disease infestations as determined by FSA in consultation with other Federal and State agencies as appropriate.

Beneficiary Eligibility:

Small business; Anyone/general public; Land/Property Owner; Federally Recognized Indian Tribal Governments; The owners of nonindustrial private forest land will receive the ultimate benefit.

Credentials/Documentation:

After completion of the approved practice, the participant must certify completion and request payment by the payment request deadline. FSA will provide the participant with a form or another manner to be used to request payment. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Participants who perform practices shall be responsible for obtaining the authorities, permits, rights, easements, or other approvals necessary to the performance and maintenance of the practices according to applicable laws and regulations. The EFRP participant shall be wholly responsible for any actions taken with respect to the project and shall, in addition, be responsible for returning and refunding any EFRP cost shares made, where the purpose of the project cannot be accomplished because of the applicants' lack of clearances or other problems. Cost share assistance is dependent upon the availability of funds and the performance of the practice. An eligible applicant must certify and provide proof of completion of the practice. The eligible participant shall submit all information to their local FSA county office. The enrollment period for submitting EFRP cost-share requests will be accepted after the announced enrollment period.

Award Procedure:

FSA will establish the minimum qualifying cost of restoration, which may vary by State or region. Participants are not eligible to receive funding under EFRP for land on which FSA determines that the participant has or will receive funding for the same or similar expenses under: The Emergency Conservation Program The Wetland Reserve Program The Emergency Wetland Reserve Program The Emergency Watershed Protection Program

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable. An onsite inspection must be made before approval of any request for EFRP assistance. The on site inspection may be waived by FSA, in its discretion only, where damage is so severe that an onsite inspection is unnecessary as determined by FSA. The time limits for submission of information shall be determined by the Deputy Administrator. The payment request deadline for each EFRP practice will be provided in the agreement after the application is approved.

Time limits may be extended where failure to submit required information within the applicable time limits is due to reasons beyond the control of the participant.

Appeals:

Other. Determinations may be appealed in accordance with the administrative appeal regulations at parts 11 and 780 of 7 CFR .

10.105 Disaster Relief Appropriations Act, Emergency Conservation Program

Disaster Relief Appropriations Act, ECP,
FEDERAL AGENCY:

ASSISTANCE LISTINGS DESCRIPTIONS

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF AUTHORIZATION:

Making supplemental appropriations for the fiscal year ending September 30, 2013, to improve and streamline disaster assistance for Hurricane Sandy, and for other purposes., Statute 127-18, Public Law 113-2, 16 USC Code 2201,2202. Agricultural Credit Act of 1978, Title IV, Statute 92-420, Public Law 95-334, 16 USC Code 2201-2205.

OBJECTIVES:

To enable farmers to perform emergency conservation measures to control wind erosion on farmlands, to rehabilitate farmlands damaged by wind erosion, floods, hurricanes, or other natural disasters.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Following a natural disaster, the county FSA committee determines, with concurrence from the State FSA committee, to make the program available in the county. Emergency cost-sharing is limited to new conservation problems created by natural disasters which, if not treated will impair or endanger the land, materially affect the productive capacity of the land, represent damage that is unusual in character and, except for wind erosion, is not the type that would recur frequently in the same area and will be so costly to rehabilitate that Federal assistance is or will be required to return the land to productive agricultural use.

Applicant Eligibility:

Specialized group (e.g. health professionals, students, veterans); Any agricultural producer who as owner, landlord, tenant, or sharecropper on a farm or ranch, including associated groups, and bears as part of the cost of an approved conservation practice affected by Hurricane Sandy is eligible to apply for cost-share conservation assistance.

Beneficiary Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Any agricultural producer who as owner, landlord, tenant, or sharecropper on a farm or ranch, including associated groups, and bears as part of the cost of an approved conservation practice affected by Hurricane Sandy is eligible to apply for cost-share conservation assistance.

Credentials/Documentation:

Identification as an eligible person who has been affected by Hurricane Sandy and proof of contribution to the cost of performing the conservation practice. FSA encourages farmers and ranchers to record losses from Hurricane Sandy. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible persons may submit an application on Form FSA-848, for cost sharing, at the county FSA office for the county in which the affected land is located.

Award Procedure:

The county FSA committee reviews, prioritizes, and may approve applications in whole or in part. Approvals cannot exceed the county allocation of Federal funds for that purpose.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Sign-up deadlines are established by the local FSA county committee. Once applicants are approved for rehabilitation cost-share assistance, producers have up to six months to perform approved farmland rehabilitation practice and report completion.

Appeals:

Other. Participants may appeal to county FSA committee, State FSA committee, or National Appeals Division (NAD) on any determination.

Renewals:

Other. Certain approvals may be extended by the FSA county committee, when

necessary, with proper justification.

10.108 Livestock Indemnity Program-2014 Farm Bill

(LIP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

The Agricultural Act of 2014 (2014 Farm Bill), Title I, Part III, Section 1501, Public Law 113-79

OBJECTIVES:

LIP provides benefits to eligible livestock owners or livestock contract growers for livestock deaths in excess of normal mortality caused by adverse weather. It also covers attacks by animals reintroduced into the wild by the federal government or protected by federal law, including wolves and avian predators.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

LIP is a permanent program and provides retroactive authority to cover eligible livestock losses back to October 1, 2011. Eligible livestock owners and contract growers will be compensated for eligible livestock deaths in the calendar year for which benefits are being requested as a direct result of an eligible adverse event.

Applicant Eligibility:

Individual/Family; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); To be eligible for benefits, an individual or legal entity must be a citizen of the United States (U.S.); Resident alien; Partnership of citizens of the U.S.; or Corporation, limited liability corporation, or other farm organizational structure organized under State law. An eligible livestock owner must have had legal ownership of the eligible livestock on the day the livestock died and under conditions in which no contract grower could have been eligible for benefits with respect to the animal. To be eligible an eligible owner's livestock must have died as a direct result of an eligible adverse weather event occurring on or after October 1, 2011, no later than 60 calendar days from the ending date of the applicable adverse weather event, and in the calendar year for which benefits are requested. An eligible contract grower must have had possession and control of the eligible livestock and a written agreement with the eligible livestock owner setting the specific terms, conditions and obligations of the parties involved regarding the production of livestock on the day the livestock died. An eligible livestock for a livestock owner must be alpacas, adult or non-adult dairy cattle, buffalo, beefalo, elk, emus, equine, llamas, sheep, goats, swine, poultry, deer, or reindeer. An eligible livestock for a contract grower must be poultry or swine. The eligible livestock must have been maintained for commercial use as part of a farming operation before dying and on the day the eligible livestock died. An eligible adverse weather event is defined as an extreme or abnormal damaging weather event that is not expected to occur during the loss period or which it occurred, which results in eligible livestock death losses in excess of normal mortality. This includes but not limited to earthquake, lightning, tornado, tropical storm, typhoon, vog if directly related to a volcanic eruption, winter storm that last for three consecutive days and is accompanied by high winds, freezing rain or sleet, heavy snowfall and extremely cold temperatures, hurricanes, floods, blizzards, wildfires, extreme heat, extreme cold, anthrax, and a disease if exacerbated by other eligible adverse weather event. Drought is not an eligible adverse weather event except when anthrax, which is exacerbated by drought, causes the death of eligible livestock.

Beneficiary Eligibility:

Farmer/Rancher/Agriculture Producer; The eligible livestock or contract owner will receive the ultimate benefit from LIP.

Credentials/Documentation:

Verifiable proof of death of livestock must show that the death of the eligible livestock occurred as a direct result of an eligible adverse weather event or attacks by animals reintroduced into the wild by the Federal Government or protected by Federal law. Verifiable proof that documents or verifies that the livestock died as a direct result of an eligible event are, purchase records; veterinarian records, bank or other loan documents; rendering truck receipts or certificates, Federal Emergency Management Agency records; National Guar records, written contracts, production records; records assembled for tax purposes, property tax records; private insurance documents; or similar documents. If verifiable proof of death documentation is not available, the producer may provide reliable records such as beginning and ending inventory records as proof of death. Reliable records may include contemporaneous producer records existing at the time of the adverse weather event, dairy herd improvement records, brand inspection records, vaccination records, dated pictures, certification of livestock deaths by a third party, and livestock inventory reports. Please contact a local FSA county office for additional information for documentation requirements for livestock deaths that occurred after October 1, 2011 through December 31, 2014. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible livestock and contract growers must submit a notice of loss and an application for payment to the local FSA office who maintains their farm records. A notice of loss must be submitted within the earlier of 30 calendar days of when the loss of livestock is apparent to the producer or 30 calendar days after the end of the calendar year in which the loss of livestock occurred. If the date of livestock death is on or after October 1, 2011 and before January 1, 2015, the Notice of Loss and application must be submitted by January 30, 2015. If the date of livestock death is calendar years 2015 and subsequent years, the Notice of Loss must be submitted 30 days after death is apparent and the application must be submitted by January 30th of each year. An eligible contract grower must provide a copy of the grower contract and the following supporting documentation

Award Procedure:

Eligible livestock owners LIP payments are calculated by multiplying the national payment rate for each livestock category by the number of eligible livestock in each category. LIP national payment rate for eligible livestock owners are based on 75 percent of the average fair market value of the livestock. The eligible livestock contract grower national payment rate is based on 75 percent of the average income loss sustained by the contract grower with respect to the dead livestock. The LIP payment will be reduced by the amount of monetary compensation received from their contractor for the loss of income suffered from the death of livestock under contract.

10.109 Livestock Forage Program-2014 Farm Bill

(LFP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Agricultural Act of 2014 (The 2014 Farm Bill), Title I, Part III, Section 1501,
Public Law 113-79

OBJECTIVES:

LFP provides compensation to eligible livestock producers that have suffered grazing losses for covered livestock on land that is native or improved pastureland with permanent vegetative cover or is planted specifically for grazing. It also provides compensation to eligible livestock producers that have suffered grazing losses on rangeland managed by a federal agency if the eligible livestock producer is prohibited by the federal agency from grazing the normal permitted livestock on the managed rangeland due to a qualifying fire.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

LFP is a permanent program and provides retroactive authority to cover eligible losses back to October 1, 2011.

Applicant Eligibility:

Individual/Family; To be eligible for benefits, an individual or legal entity must be a citizen of the United States (U.S.); Resident alien; Partnership of citizens of the U.S.; or Corporation, limited liability corporation, or other farm organization structure organized under State law. An eligible livestock producer must own, cash or share lease, or be a contract grower of covered livestock during the 60 calendar days before the beginning date of a qualifying drought or fire; provide pastureland or grazing land for covered livestock, including cash-rented pastureland or grazing land that is either physically located in a country affected by a qualifying drought during the normal grazing period for the county, or rangeland managed by a federal agency and the eligible livestock producer is prohibited from grazing the normally permitted livestock because of a qualifying fire.

Beneficiary Eligibility:

Individual/Family; U.S. Citizen; The eligible livestock or contract owner will receive the ultimate benefit from LFP.

Credentials/Documentation:

The eligible livestock producer must certify that they have suffered a grazing loss because of a qualifying drought or fire and timely file an acreage report for all grazing land for which a loss of grazing is being claimed. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply for LFP, the eligible livestock producer must submit a completed application for payment and required supporting documentation for grazing losses no later than 30 calendar days after the end of the calendar year in which the grazing loss occurred. A contract grower must provide a copy of the grower contract along with the completed application and supporting documentation for payment.

Award Procedure:

Payment calculations for grazing losses because of a qualifying drought are equal to 1, 3, 4, or 5 times the LFP monthly payment rate. The monthly payment rate for drought is equal to 60 percent of the lesser of the monthly feed cost for all covered livestock owned or leased by the producer; or calculated by using the normal carrying capacity of the eligible grazing land of the producer. Total payments to a producer in a calendar year for grazing losses will not exceed five monthly payments for the same covered livestock. For losses suffered because of a qualifying fire on federally managed rangeland for which the producer is prohibited from grazing the normal permitted livestock, the payments begin on the first day the Federal agency excludes the eligible livestock producer from using the managed grazing land for grazing and end on the last day of the Federal lease not to exceed 180 days.

Deadlines:

January 31, 2015. Livestock producers have 30 calendar days after the end of the calendar year in which the loss occurs to submit a completed application for payment and required supporting documentation.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

10.110 Emergency Assistance for Livestock, Honeybees and Farm-Raised Fish Program-2014 Farm Bill

(ELAP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Agricultural Act of 2014 (The 2014 Farm Bill), Title I, Part III, Section 1501
OBJECTIVES:

ELAP provides emergency assistance to eligible producers of livestock, honeybees and farm-raised fish who have losses due to an eligible adverse weather or eligible loss condition, including blizzards, disease (including cattle tick fever), water shortages and wildfires, as determined by the Secretary, that occurs on or after October 1, 2011. ELAP covers losses that are not covered under the Livestock Forage Program (LFP), and Livestock Indemnity Program (LIP).

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

ELAP is a permanent disaster program and provides retroactive authority to cover eligible losses back to October 1, 2011. Public Law 113-79 authorized up to \$20 million of Commodity Credit Corporation (CCC) funds in a fiscal year for ELAP. ELAP begins October 1 of the fiscal year and ends September 30 of the fiscal year. There are four categories of livestock losses covered by ELAP, livestock death losses caused by an eligible loss condition; livestock feed and grazing losses that are not due to drought or wildfires on federally managed lands; losses resulting from the additional cost of transporting water to livestock due to an eligible drought; and losses resulting from the additional cost associated with gathering livestock for treatment related to cattle tick fever. Recipients of ELAP payments may receive a pro-rated reduced payment should the total annual national demand for ELAP exceed \$20 million in a fiscal year.

Applicant Eligibility:

Federally Recognized Indian Tribal Governments; Individual/Family; Minority group; Small business (less than 500 employees); Profit organization; Anyone/general public; To be eligible for benefits, an individual or legal entity must be a citizen of the United States (U.S.); Resident alien; Partnership of citizens of the U.S.; or Corporation, limited liability corporation, or other farm organizational structure organized under State law. The eligible applicant must have legal ownership of the livestock on the day the livestock died and must be a producer or contract grower of livestock, honeybee, or farm-raised fish that assumes the production and market risks associated with the agricultural production of crops or livestock on a farm and that meet the requirements to receive ELAP payments. Starting with the 2012 program year (October 1, 2011), an eligible livestock producer who certifies they are socially disadvantaged, limited resource, or a beginning farmer or rancher, will have their payments for livestock losses under ELAP based on a national payment factor of 90 percent.

Beneficiary Eligibility:

Farmer/Rancher/Agriculture Producer; Eligible producers of livestock, honeybees, and farm-raised fish will receive the ultimate benefits from ELAP. An eligible livestock producer, honeybee producer, and eligible farm-raised fish producer may receive payments for eligible losses based on a national payment rate.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply for ELAP, the participant must have suffered an eligible livestock, honeybee, or farm-raised fish loss. The eligible producer must submit a Notice of Loss and a completed application to the FSA administrative county office that maintains the participant's farm records for the agricultural operation. For livestock feed, grazing, and death losses and losses resulting from the transporting water and gathering livestock to treat for cattle tick fever the applicant must submit a completed Emergency Loss Assistance for Livestock application, for honeybee fee, colony, hive, or farm-raised fish feed or death losses, the applicant must complete a Emergency Loss Assistance for Honeybees or Farm-Raised Fish Application; a report of acreage (if applicable); a copy of the participant's grower's contract (if a contract grower); other supporting documents required by the Farm Service Agency (FSA); and a farm operating plan.

Award Procedure:

FSA will use the data furnished by the applicant to determine eligibility for program benefits. Furnishing the data is voluntary; however, without all required data program benefits will not be approved or provided.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 15 to 30 days.

Appeals:

From 15 to 30 days. Appeal regulations are set for in Parts 11 and 780 of 7 CFR

(TAP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Agricultural Act of 2014 (The Farm Bill), Title I, Part III, Section 1501, Public Law 113-79

OBJECTIVES:

TAP provides financial assistance to eligible orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes, and vines damaged by natural disasters.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

TAP is a permanent disaster program and provides retroactive authority to cover eligible losses back to October 1, 2011. Eligible orchardists and nursery tree growers will be compensated for eligible tree, bush, and vine losses that occurred in the calendar year (or loss period in the case of plant disease) for which benefits are requested and as a direct result of a natural disaster.

Applicant Eligibility:

Individual/Family; To be eligible for benefits, an individual or legal entity must be a citizen of the United States (U.S.); Resident alien; Partnership of citizens of the U.S.; or Corporation, limited liability corporation, or other farm organizational structure organized under State law. An eligible orchardist is a person or legal entity that produces annual crops from trees, bushes, or vines for commercial purposes. An eligible nursery tree grower is a person or legal entity that produces nursery, ornamental, fruit, nut, or Christmas trees for commercial sale. To qualify for TAP, the eligible orchardist or nursery tree grower must have planted, continuously owned, and suffered eligible losses of trees, bushes, or vines that were planted for commercial purposes; and replaced eligible trees, bushes, and vines within 12 months from the date the application is approved. Eligible losses must be the result of a natural disaster. The stand must have sustained a mortality loss in excess of 15 percent after adjustment for normal mortality, or where applicable, damage in excess of 15 percent, adjusted for normal mortality and normal damage, that occurred in the calendar year (or loss period in the case of plant disease) for which benefits are being requested. The loss could not have been prevented through reasonable and available measures; the damage or loss must be visible and obvious to the FSA representative; and FSA may require information from a qualified expert to determine the extent of loss in the case of plant disease or insect infestation. An eligible natural disaster means plant disease, insect infestation, drought, fire, freeze, flood, earthquake, lightning, or other natural occurrence of such magnitude or severity so as to be considered disastrous.

Beneficiary Eligibility:

Individual/Family; Farmer/Rancher/Agriculture Producer; The eligible orchardists and nursery tree grower receives the TAP benefit.

Credentials/Documentation:

The eligible applicant must present a written estimate of the number of trees, bushes, or vines lost or damaged that is certified by the producer or qualified expert, including the number of acres on which the loss occurred. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. To apply for TAP a orchardist or nursery tree grower must submit a completed application provided by FSA; an acreage report for the farming operation; a written estimate of the number of trees, bushes, or vines lost or damaged; and sufficient evidence of the loss, a farm operating plan.

Award Procedure:

Payments to eligible orchardist or nursery tree growers who suffered losses in excess of 15 percent damage or mortality will be calculated using the lesser of 65 percent of the actual cost of the practice or the amount calculated using rates established by the Deputy Administrator for the practice. For the cost of pruning, removal, and other costs incurred for salvaging damaged trees, bushes, or vines, or

10.112 Price Loss Coverage

(PLC),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

The Agricultural Act of 2014, Title I, Part II, Section 1116, Public Law 113-79

OBJECTIVES:

The Price Loss Coverage program (PLC) is similar to the previous Direct and Counter-cyclical Payments Program (DCP) and the Average Crop Revenue Election (ACRE) which were repealed by P.L. 113-79. PLC provide revenue and price loss payments to eligible producers.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The PLC yield for covered commodities on the farm is equal to the counter-cyclical payment yield established for each covered commodity on the farm that was effective on September 13, 2013, unless the PLC yield is updated.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Individual/Family; Minority group; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Other private institutions/organizations; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An eligible producer is eligible to enter into a contract if 1) the owner of the farm has an ownership of a crop and assumes all or a part of the risk producing a crop that is commensurate with that claimed ownership of the crop; 2) a producer, other than the owner, on a farm with a share-rent lease for such farm, regardless of the length of the lease, if the owner of the farm enters into the same contract; 3) a producer, other than an owner, on a farm who rents such farm under a lease expiring on or after September 30 of the year of the contract in which case the owner is not required to enter into the contract; 4) a producer, other than an owner, on a farm who cash rents such farm under a leasing expiring before September 30 of the year of the contract; 5) An owner of an eligible farm who cash rents such farm and the lease expires before September 30 of the year of the contract, if the tenant declines to enter into a contract for the applicable year.

Beneficiary Eligibility:

Farmer/Rancher/Agriculture Producer; Small Business Person; School; PLC provides payments to eligible producers on farms enrolled for the 2014 through 2018 crop years.

Credentials/Documentation:

It is understood and agreed that producers on a farm may participate in the program only by enrolling in a contract that is consistent with the election previously made for the farm and covered commodities of that farm. Election is not enrollment and the election that applies to a farm and the covered commodities of a farm applies without regard to whether or not producers choose to enroll the farm or not. Enrollment is required each and every contract year. This program is excluded

ASSISTANCE LISTINGS DESCRIPTIONS

from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

PLC program payments are issued when the effective price of a covered commodity is less than the respective reference price for that commodity. The effective price equals the higher of the market year average price (MYA) or the national average loan rate for the covered commodity. Producers receive their PLC payments after October 1 following the end of the 12 month marketing year for the covered commodity as applicable.

Deadlines:

December 01, 2016 - August 01, 2017. This applies to crop year 2017 The 2017 enrollment will begin on December 1, 2016 and end on August 1, 2017; the 2018 enrollment will begin on December 1, 2017 and end on August 1, 2018.

Range of Approval/Disapproval Time:

Other. Approval of payments depends on farmer compliance with conservation and wetland provisions.

Appeals:

From 1 to 15 days. A producer may obtain reconsideration and review of any adverse determination made under this part in accordance with the appeal regulations found at parts 11 and 780 of Title 7 Agriculture.

Renewals:

10.113 Agriculture Risk Coverage Program

ARC,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The 2014 Farm Bill, Title 1, Section 1115, Public Law 113-79

OBJECTIVES:

The ARC program is similar to the previous Direct and Counter-cyclical Payments Program (DCP) and the Average Crop Revenue Election (ACRE) which were repealed by P.L. 113-79. ARC provides income support to eligible producers of covered commodities.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use
USES AND USE RESTRICTIONS:

The Agricultural Risk Coverage-County Coverage (ARC-CO) provides revenue less coverage at the county level for selected covered commodities on a farm. The Agricultural Risk Coverage-Individual Coverage program provides revenue loss coverage at the farm level for all acreage devoted to covered commodities across all of a producer's ARC-IC farms. ARC is a revenue-based program that is designed to cover a portion of a farmer's out-of-pocket loss (referred to as "shallow loss:") when crop revenues fall below benchmark revenue levels, with the benchmark revenue based on either county level historic revenue for ARC-CO or the individual farm's historic revenue for ARC-IC.

Applicant Eligibility:

Individual/Family; Small business (less than 500 employees); Profit organization; Anyone/general public; An eligible producer is eligible to enter into a contract if 1) the owner of the farm has an ownership of a crop and assumes all or a part of the risk producing a crop that is commensurate with that claimed ownership of the crop; 2) a producer, other than the owner, on a farm with a share-rent lease for such farm, regardless of the length of the lease, if the owner of the farm enters into the same contract; 3) a producer, other than an owner, on a farm who rents such farm under a lease expiring on or after September 30 of the year of the contract in which case the owner is not required to enter into the contract; 4) a producer, other than an owner, on a farm who cash rents such farm under a leasing expiring before September 30 of the year of the contract; 5) An owner of an eligible farm who cash rents such farm and the lease expires before September 30 of the year of the contract, if the tenant declines to enter into a contract for the applicable year.

Beneficiary Eligibility:

Individual/Family; Minority group; Small business; Profit organization; Anyone/general public; Farmer/Rancher/Agriculture Producer; Land/Property Owner; Federally Recognized Indian Tribal Governments; ARC provides payments to eligible producers on farms enrolled for the 2014 through 2018 crop years.

ASSISTANCE LISTINGS DESCRIPTIONS

Credentials/Documentation:

When required, the Farm Service Agency (FSA), may require documentary evidence supporting any certification of yield or production be provided to the county committee of the county where the farm is administratively located. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Not Applicable

Award Procedure:

ARC is a revenue-based program that is designed to cover a portion of a farmer's out-of-pocket loss when crop revenues fall below the guarantee, with the benchmark revenue based on either county level for ARC-CO or the individual farms historic revenue for ARC-IC. ARC-CO payment calculation is based on base acres including any base acres attributed to a covered commodity from generic base acres based on P&CP or eligible subsequently planted crop acreage. Payments are triggered when actual county crop revenue of a covered commodity is less than the ARC-CO guarantee for the covered commodity. ARC-IC payments are triggered when the actual crop revenue, averaged across all covered commodities planted or eligible subsequently planted crop acreage on the ARC-IC farm, is less than ARC-IC guarantee, averaged across those covered commodities planted or eligible subsequently planted crop acreage on the farm. Producers receive their ARC payments after October 1.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 15 to 30 days. Approval of payments depends on farmer compliance with conservation and wetland provisions.

Appeals:

From 15 to 30 days. A producer may obtain reconsideration and review of any adverse determination made under this part in accordance with the appeal regulations specified in 7 CFR parts 11 and 780.

Renewals:

10.114 Cotton Transition Assistance Program

(CTAP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Agricultural Act of 2014, Title I, Part II, Section 1119, Public Law 113-79

OBJECTIVES:

CTAP is a temporary program that provides payments to producers on farms for which cotton base acres were in existence as of September 30, 2013.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use
USES AND USE RESTRICTIONS:

CTAP is intended to be a transition for producers on farms with upland cotton base acres that were in existence as of September 30, 2013, between the previous Direct and Counter-Cycle Program (DCP) payments and the new Stacked Income Protection Plan (STAX) which is scheduled to be made available to most cotton counties in 2015 crop year. CTAP is authorized for all counties and farms having cotton base acres in the 2014 crop year; however it will only operate in the 2015 crop year in counties where STAX is not yet available. STAX is specified in Section 11017 of P.L. 113-79. Similar to DCP, producers do not have to actually grow or harvest upland cotton to be eligible for CTAP. CTAP payments will be made to eligible producers on or after October 1 of the crop year when upland cotton is or ordinarily would have been harvested. Similar to DCP, payment eligibility is based upon the number of upland cotton base acres, which are not required to be planted to cotton.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Federally Recognized Indian Tribal Governments; Individual/Family; Minority group; Small business (less than 500 employees); Profit organization; Private nonprofit institution/organization (includes institutions

ASSISTANCE LISTINGS DESCRIPTIONS

of higher education and hospitals); Other private institutions/organizations; Anyone/general public; Native American Organizations (includes Indian groups, cooperatives, corporations, partnerships, associations); An eligible producer for CTAP is required to be a person or legal entity who is actively engaged in farming and otherwise eligible to receive payment. CTAP payments in each of the 2014 and 2015 program years are limited to \$40,000 per person or legal entity, similar to the \$40,000 per person or legal entity limitation to applied to DCP under The Food, Conservation, and Energy Act of 2008, P.L. 110-246. A person or legal entity is ineligible for payments if the person's or legal entity's average gross income (AGI) for the applicable compliance program year is in excess of \$900,000. If a person with an indirect interest in a legal entity has AGI in excess of \$900,000, the CTAP payments subject to AGI compliance provisions to the legal entity will be reduced as calculated based on the percent interest of the person in the legal entity receiving the payment.

Beneficiary Eligibility:

Individual/Family; Anyone/general public; Farmer/Rancher/Agriculture Producer; The Farm Service Agency (FSA) will provide adequate notice to producer about the new CTAP regulations so they will be ready to begin sign-up for CTAP. Payments will process as soon as possible after October 1, 2014, as soon as the application period closes. Therefore, to begin providing benefits to producers in a timely fashion, the final rule is effective when published in the Federal Register.

Credentials/Documentation:

An eligible producer on a farm is required to provide a copy of their written lease to the county committee and, in the absence of a written lease, is required to provide the county committee a complete written description of the terms and conditions of any oral agreement or lease. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible producers may apply for CTAP by completing CCC-957 application and providing supportive and necessary contractual documents to the FSA county office. For 2014 CTAP applications must be submitted by September 30, 2014 and for 2015 CTAP, by July 31, 2015.

Award Procedure:

Eligible producers receive their 2014 CTAP payments after October 1, 2014 after the end of the application period. Eligible producers receive their 2015 CTAP payments after October 1, 2015 after the end of the application period.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 15 to 30 days. Each eligible producer on a farm may apply for and receive CTAP payments determined to be fair and equitable as agreed to by all producers on the farm and as approved by the county committee. CTAP payments will be determined based on shares recorded on the application for CTAP payments for the particular program year.

Appeals:

Other. Generally, participants receiving an adverse program determination have 30 days from date of receipt to file an appeal of that decision. A participant may seek reconsideration and appeal review of any individual program eligibility adverse determination made in accordance with the appeal regulations found in 7 CFR, parts 11 and 780.

Renewals:

Not Applicable.

Formula and Matching Requirements:

10.115 Dairy Product Donation

(DPDP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

The Agricultural Act of 2014, Title I, Part III, Section 1431, Public Law 113-79, 7 USC Code 9071.

OBJECTIVES:

The Dairy Product Donation Program (DPDP) is designed to address low dairy producer margins, through periodic purchases of dairy products. Funding will be provided by the Commodity Credit Corporation (CCC). The purchase aspect of DPDP will be operated by the Secretary of Agriculture (Secretary) and for CCC by the Farm Service Agency (FSA) under the direction of the FSA's Deputy Administrator for Commodity Operations. The distribution of products purchased through DPDP will be operated for the Secretary under the direction of the Food and Nutrition Service (FNS).

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Direct Payments for Specified Use, Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Dairy products purchased for DDPDP will be used to provide nutritional assistance to members of low-income groups. Purchases will be made only for those months that the FSA Administrator has determined meet all the requirements specified in P.L. 113-79.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Private nonprofit institution/organization (includes institutions of higher education and hospitals); Purchased products will be distributed to private and public organizations eligible to receive donated foods for distribution to low-income groups through the FNS distribution program. Public and private non profit organizations receiving donated dairy products will be responsible for the proper handling and distribution. The FNS regulations for food distribution is specified in 7 CFR part 250.

Beneficiary Eligibility:

Individual/Family; Minority group; Anyone/general public; Farmer/Rancher/Agriculture Producer; Consumer; Low Income; The ultimate benefit of DDPP is to provide dairy operations protection against financial losses that occur during times of low operating margins.

10.116 The Margin Protection Program

MPP-Dairy,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

The Agricultural Act of 2014, Title I, Part I, Section 1401, Public Law 113-79, 7 USC Code 9051.

OBJECTIVES:

MPP-Dairy offers a protection plan which provides payments to dairy operations when the difference between the all-milk price and the average feed cost falls below a certain, producer selected, dollar amount. Producers will be eligible for a basic level of margin protection for a small administrative fee, and be able to purchase greater coverage for a premium. The Secretary of Agriculture (Secretary) will use administrative fees collected to cover administrative costs incurred to carry out the margin protection program.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Milk is produced in all 50 states and the maintenance and expansion of existing markets for dairy are vital to the welfare of milk producers in the United States (U.S.). The dairy industry has experienced dramatic structural changes at all levels of the marketing channel that have directly affected milk prices, dairy product sales, farm incomes, and other direct aspects of dairy profitability and volatility.

ASSISTANCE LISTINGS DESCRIPTIONS

Low margins have been a producer complaint for some time. In addition, low prices, high production costs, and oversupply have been issues for the dairy industry in recent years. In order to address these concerns, MPP-Dairy was included in P.L. 113-79 to replace existing dairy price and income support programs.

Applicant Eligibility:

Individual/Family; Minority group; Specialized group (e.g. health professionals, students, veterans); Small business (less than 500 employees); Profit organization; Other private institutions/organizations; Anyone/general public; All dairy operations in the U.S. shall be eligible to participate in the MPP-Dairy program to receive margin protection payments. A dairy operation must produce milk from cows in the U.S. and must be commercially marketing milk produced at the time of enrollment and continue to market milk for the duration of the program. A dairy operation may participate in the MPP-Dairy program or the Livestock Gross Margin for Dairy (LGM-Dairy) but not both. LGM-Dairy is operated by the Risk Management Agency of the U.S. Department of Agriculture (USDA). However since the MPP-Dairy program is made available after potential applicants under MPP-Dairy have applied for coverage under LGM-Dairy, for the open enrollment period established for the 2014 and 2015 calendar year coverage only, a producer with coverage under LGM-Dairy that would like to participate in the MPP-Dairy program must register to participate in the MPP-Dairy program during the open enrollment period established for calendar 2014 and 2015 and agree not to extend or obtain new LGM-Dairy coverage.

Beneficiary Eligibility:

Individual/Family; Minority group; Small business; Profit organization; Anyone/general public; Federally Recognized Indian Tribal Governments; The ultimate benefit of the MPP-Dairy program will help protect farm equity and reduce financial losses that occur during times of low margins.

Credentials/Documentation:

To participate in the MPP-Dairy program, an eligible dairy operation must have a production history determined for the dairy operation; register to participate during a signup announced by the Farm Service Agency (FSA); pay a \$100.00 administrative fee annually for the duration of the MPP-Dairy program. For 2018 coverage year only, a limited resources, beginning, veteran, or socially disadvantaged farmer or rancher, shall be exempt from the administrative fee; select a coverage level ranging from \$4.00 to \$8.00 per cwt, in \$.50 increments; and select a coverage percentage of dairy operation's production history ranging from 25 percent to 90 percent, in 5 percent increments. For an existing dairy operation FSA will determine the production history from the highest of the 2011, 2012, and 2013 calendar years. For a new dairy operation (in operation for less than one year), FSA will determine the production history by either the volume of the actual milk marketings for the months the participating dairy operation has been in operation extrapolated to a yearly amount or an estimate of the actual milk marketing of the participating dairy operation based on the herd size of the participating dairy operation relative to the national rolling here average data published by USDA. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A dairy operation must submit an accurate and complete contract to participate during the application period. The contract is prescribed by the Commodity Credit Corporation (CCC). Producers may obtain such contract in person, by mail, or by facsimile from any county FSA office. The form may be downloaded at <http://www.sc.egov.usda.gov>. Contract offers must be received at FSA by the close of business on the last day of the open enrollment period.

Award Procedure:

An eligible dairy operation must complete and submit a contract; agree with all terms and conditions in the contract; comply with instructions issued by or for CCC; provide proof of milk production commercially marketed by all persons in the dairy operation; and provide any other supporting documentation to any county FSA office. Producers must certify to accuracy and truthfulness of the information in their contracts and supporting documentation.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

10.117 Biofuel Infrastructure Partnership

Biofuel Infrastructure Partnership (BIP),

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

CCC Charter Act, 15 USC Code 714c.

OBJECTIVES:

The objective of BIP is to expand infrastructure for renewable fuels, in order to increase the demand for ethanol, by offering competitive grants to States, the Commonwealth of Puerto Rico, and Washington, D.C. Federal funds, matched with state and private contributions, will create innovative ways to distribute higher blends of renewable fuel.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

BIP funds may be used to pay a portion of the costs related to the installation of fuel pumps and related infrastructure dedicated to the distribution of higher ethanol blends, such as E15 and E85, at fueling stations or fleet facilities.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Additional information is provided in the Notice of Funds Availability (NOFA) published on June 16, 2015.

10.118 Cotton Ginning Cost Share Program

CGCS,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

ASSISTANCE LISTINGS DESCRIPTIONS

Executive Order This program is authorized by the Commodity Credit Corporation, 15 USC Code 714c.

OBJECTIVES:

With respect to cotton ginning expenses for the 2015 cotton crop, the Cotton Ginning Cost-Share (CGCS) Program provides a one-time cost-share payment, not to exceed 40 percent of calculated ginning costs by region, to cotton producers certifying to the number of cotton acres reported as being planted, including failed acreage, for the 2015 crop year and the percentage of share they had in the cotton.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Funds can be used to assist with the costs associated with ginning cotton, and funds can be used to have a broader sense to aid in the expansion and development of new and additional markets for upland cotton and extra-long staple cotton produced in the United States. CGCS payments are limited to \$40,000 per applicant.

Applicant Eligibility:

Individual/Family; Minority group; 1. Eligible applicants are individuals and legal entities with a share in the 2015 cotton crop reported as planted, including failed acres. 2. Use of the assistance is not restricted. 3. Cotton producers must comply with all USDA provisions on fraud (including the Federal Crop Insurance Corporation), conservation compliance, controlled substance, determined to be actively engaged in farming, and the adjusted gross non-farm income cannot exceed \$900,000.

Beneficiary Eligibility:

Individual/Family; Profit organization; Farmer/Rancher/Agriculture Producer; The beneficiary or estate of a deceased producer may submit a CGCS payment application provided the deceased producer or the estate meets all of the eligibility requirements required for a CGCS payment.

Credentials/Documentation:

Applicants are required to have an acreage report on file for the 2015 cotton crop either to Farm Service Agency on a FSA-578 form, or a crop insurance agent for Federal Crop Insurance purposes. The applicant must have a FSA-211 on file with FSA if an agent or representative of the applicant signs the CGCS application for payment on behalf of the applicant. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must sign and submit CCC-882 form CGCS Payment Application to FSA between June 20, 2016 to August 5, 2016 to be considered for a CGCS payment. Applications submitted after August 5, 2016, will not be eligible for a CGCS payment. The signed and completed CCC-882 may be submitted in person, by mail, FAX, or by email to the local FSA office.

Award Procedure:

The payment is based upon the number of 2015 cotton crop acres reported as planted, including failed acres, times the applicants share in the 2015 cotton crop, times the applicable production region cost-share rate based upon the location of the cotton production acres as identified on the CCC-882.

Deadlines:

June 20, 2016 - August 05, 2016.

Range of Approval/Disapproval Time:

Other. Applications must be approved and paid no later than September 30, 2016.

Appeals:

From 15 to 30 days. Applicants can appeal if all of the following occur: (1) the application was submitted by the signup deadline of August 5, 2016, (2) the number of acres, shares, and/or the production regional cost-share rate if the data is incorrect, and (3) a payment has not been disbursed.

Renewals:

Not Applicable. Renewal of information is not required since the program will be offered as a one-time signup for a one-time payment.

Formula and Matching Requirements:

Statutory Formula: Title CFR, Chapter 7, Part 1400, Subpart E, Matching requirements are not applicable to this assistance listing. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

This payment is a one-time payment that must be completed by September 30, 2016. Method of awarding/releasing assistance: lump sum.

Reports:

Each state and county will be required to report the total number of applications received, the number approved, the number disapproved, and the total dollar amount paid. Total expenditures compared to available funds will be monitored at the National level. A supplemental request will be submitted if additional funds are required to process eligible payments. The Farm Service Agency (FSA) will monitor the progress of the program based upon the number of applications submitted and the disbursed amounts on a county and state basis to determine the percentage of program participation and the availability of funds. FSA will be required to report the total expenditure amount paid. Any excess funding will be returned to the OMB. All applications received by FSA either on or before August 5, 2016 must be reviewed and approved/disapproved, and paid by September 30, 2016. The National office will be able to monitor the number of applications based upon the dollar amount of payments processed.

10.119 Dairy Assistance Program for Puerto Rico

ASSISTANCE LISTINGS DESCRIPTIONS

DAP-PR,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

Commodity Credit Corporation Charter (CCC) Act

OBJECTIVES:

DAP-PR will provide assistance to dairy operations for buying feed from feed dealers in Puerto Rico. Additional assistance may be provided for additional days of feed or for purchasing fuel if funds remain available. The assistance will provide help to the dairy industry with the production and marketing of dairy.

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

The assistance will be used based on the authority of the CCC Charter Act to make available materials and facilities required in connection with the production and marketing of agricultural commodities. The procurement of feed and fuel for the dairy sector in Puerto Rico is required in connection with the production and marketing of dairy. Each dairy operation in Puerto Rico can apply to FSA to receive a voucher to purchase a one-month supply of feed for 100 percent of the feed cost, as calculated by FSA.

Applicant Eligibility:

Government - General; U.S. Territories and possessions; The eligible applicants are the licensed dairy operations in Puerto Rico for acquiring feed from feed dealers in Puerto Rico.

Beneficiary Eligibility:

Farmer/Rancher/Agriculture Producer; The eligible applicants must be licensed by the Department of Agriculture of Puerto Rico. This is a one time assistance to dairy operation purchase feed.

Credentials/Documentation:

The Farm Service Agency (FSA) received certain information from the Puerto Rican Department of Agriculture about each dairy, including, the name, address, contact information, and number of head of cattle. An application on a form determined by FSA will include the number of dairy head and should only reflect only the number of live, eligible dairy cows at the time of the application. If the number of cattle on the application is correct, the dairy operation will certify as such on the application. If the number changes due to animal deaths or sales, the dairy operation must correct the number and certify to the change on the application. The dairy operation may apply for the Livestock Indemnity Program (LIP) if any cattle have died due to a LIP eligible cause of loss and all other LIP eligibility conditions and LIP payment limitations are met. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

The result of an approved feed application will be a one-time maximum eligible amount for feed to be acquired by the eligible dairy operation. As the dairy operation acquires feed from the vendor, FSA employees will deduct the value of the feed acquired, not to exceed the calculated eligible maximum. FSA will prepare one voucher for the value of the required feed needs for each eligible dairy operation.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

2017 WHIP,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

Public Law 115-123

OBJECTIVES:

The 2017 WHIP is directly reimbursing producers for crop production losses in 2018. In addition to WHIP, USDA is providing a grant to Florida, which is reimbursing citrus producers for the cost of buying and planting replacement trees, including resetting and grove rehabilitation, and for repair of damages to irrigation systems. This grant is also providing assistance for losses of citrus production expected during the 2019 and 2020 crop years.

ASSISTANCE LISTINGS DESCRIPTIONS

TYPES OF ASSISTANCE:

Direct Payments with Unrestricted Use

USES AND USE RESTRICTIONS:

Assistance will be used by producers who suffered losses due to hurricanes

Applicant Eligibility:

State; Individual/Family; Agriculture producers are eligible to apply.

Beneficiary Eligibility:

N/A.

Credentials/Documentation:

We recommend producers who have not participated in a USDA program to contact their local USDA service center to establish farm records. To establish a farm tract number, be sure to bring: Proof of identity: drivers license, Social Security number/card; Copy of recorder deed, survey plat, rental, or lease agreement of the land. You do not have to own property to participate in FSA programs; Entities: corporation, estate, or trust documents. Once signup begins, producers will be asked to provide verifiable and reliable production records by crop, type, practice, intended use, and acres. Producers with this information on file do not need to provide again. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Not Applicable

Award Procedure:

The assistance will be approved and awarded by FSA to eligible producers. The block grants will be granted to Florida State of Agriculture from FSA. They will determine who is eligible for assistance.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

From 30 to 60 days. a) Requesters seeking administrative appeal of a denial of a request for records or denial of a fee waiver must ensure that the appeal is received by the agency within 45 days of the date of the denial letter. (b) Each agency shall provide for review of appeals by an official different from the official or officials designated to make initial denials. (c) 5 U.S.C. 552(a)(6)(A)(ii) provides that each agency in the Department to which an appeal of a denial is submitted shall inform the requester of its determination concerning that appeal within 20 working days (excepting Saturdays, Sundays, and legal public holidays), plus any extension authorized by 1.16, of its date of receipt. If the agency determines to grant the appeal, it shall inform the requester of any conditions surrounding the granting of the request (e.g., payment of fees) and the approximate date upon which compliance will be effected. If the agency grants only a portion of the appeal, it shall treat the portion not granted as a denial. If it determines to deny the appeal either in part or in whole, it shall inform the requester of that decision and of the following: (1) The reasons for denial; (2) The name and title or position of each person responsible for denial of the appeal; and (3) The right to judicial review of the denial in accordance with 5 U.S.C. 552(a)(4). (d) Each agency, upon a determination that it wishes to deny an appeal, shall send a copy of the records requested and of all correspondence relating to the request to the Assistant General Counsel, General Law Division, Office of the General Counsel (Assistant General Counsel). When the volume of records is so large as to make sending a copy impracticable, the agency shall enclose an informative summary of those records. The agency shall not deny an appeal until it receives concurrence from the Assistant General Counsel. (e) The Assistant General Counsel shall promptly review the matter (including necessary coordination with the agency) and render all necessary assistance to enable the agency to respond to the appeal within the administrative deadline or any extension of the administrative deadline.

CRPFIA,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF
AUTHORIZATION:

Public Law 115-141

OBJECTIVES:

The Farm Service Agency (FSA), on behalf of Commodity Credit Corporation (CCC), is announcing the availability of competitive grants to conduct a forest inventory analysis, forest management, and economic outcomes modelling, for certain currently enrolled Conservation Reserve Program (CRP) land. The analysis is focused on lands enrolled in CRP for at least 8 years and located in areas with a substantial concentration of acres enrolled under the following conservation practices devoted to multiple bottomland hardwood tree species: General tree planting, hardwood tree planting, vegetative cover on previously established tree stands, riparian buffers, bottomland timber establishments, and farmable and aquaculture wetlands.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The purpose of the grants is to provide the CRP Program Manager with information to inform decision-making about the effectiveness of certain conservation practices on CRP land for bottomland hardwoods and are passive in nature and will not involve ground disturbance or tree removals or disturbance. The grants will be used to conduct a forest inventory analysis focused on lands enrolled in CRP for at least 8 years and located in areas with a substantial concentration of acres enrolled under certain conservation practices devoted to multiple bottomland hardwood tree species, including conservation practices for general tree planting, hardwood tree planting, vegetative cover on previously established tree stands, riparian buffers, bottomland timber establishments, and farmable and aquaculture wetlands.

Applicant Eligibility:

Other public institution/organization; Quasi-public nonprofit institution/organization; Non-profit organizations dedicated to conservation, forestry, and wildlife habitats, that have experience in conducting forest inventory analysis through the use of remote sensing data and technology are eligible to apply. The term "non-profit organization" means any corporation, trust, association, cooperative, or other organization that is operated primarily for scientific educational, service, charitable, or similar purposes in the public interest. This excludes colleges and universities, unless a 501(c)(3) has been established; hospitals; state, local, and federally-recognized Indian tribal governments.

Beneficiary Eligibility:

10.171 Organic Certification Cost Share Programs

OCCSP,

FEDERAL AGENCY:

FARM SERVICE AGENCY, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

The Agricultural Management Cost Share Program is authorized under the Federal Crop Insurance Act (FICA) as amended., Title 7, Part 36, Section 1501-1524, 7 USC Code 1501-1524. The National Cost Share Program is authorized under 7 U.S.C. 7901 note, as amended by section 10004(c) of the Agriculture Act of 2014 (2014 Farm Bill)., Title 7, Part 94, Section 7901, Public Law 113-79, 7 USC Code 7901.

OBJECTIVES:

The objective of this program is to provide financial assistance to certified organic producers and handlers.

TYPES OF ASSISTANCE:

ASSISTANCE LISTINGS DESCRIPTIONS

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Organic Certification Cost Share Programs reimburse eligible producers and handlers for a portion of the costs of organic certification. Applicants may receive reimbursements of up to 75% of the costs of certification, with an annual maximum of \$750. State agencies (typically Departments of Agriculture) work with the USDA to administer the program. After entering into a grant agreement, the state agencies process applications for cost share funds from certified organic producers and handlers, and the USDA reimburses them. FSA will also process applications through FSA county offices. Applicants typically submit a one-page application form, along with proof of certification and an itemized invoice, to their States department of agriculture or an FSA county office. Funds may only be used to provide reimbursements to certified organic and transitional producers and handlers. A 10% indirect cost recovery is allowed.

Applicant Eligibility:

State; To be eligible for cost share payments, a producer or handler must possess USDA organic certification and/or transitional certification at the time of application and have paid fees/expenses related to its initial certification or renewal of its certification from a certifying agent. State Agencies are eligible to establish an agreement to administer the program within their State.

Beneficiary Eligibility:

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE,
DEPARTMENT OF

AUTHORIZATION:

Section 2 (c), Public Law 89-106, 7 U.S.C. 450i(c), as amended

OBJECTIVES:

To carry out research, to facilitate or expand promising breakthroughs in areas of the food and agricultural sciences of importance to the nation and to facilitate or expand on-going State-Federal food and agricultural research programs.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grant funds must be used for allowable costs necessary to conduct approved fundamental and applied research, extension and education objectives to address food and agricultural sciences. Awards are generally limited to high priority

problems of a regional or national scope.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; Special Research Grants: State agricultural experiment stations, all colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations and individuals having a demonstrable capacity to conduct research activities to facilitate or expand promising breakthroughs in areas of the food and agricultural sciences of importance to the United States.

Beneficiary Eligibility:

Federal; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; State; Public nonprofit institution/organization; Other public institution/organization; For Special Research Grants: State agricultural experiment stations, all colleges and universities, other research institutions and organizations, Federal agencies, private organizations or corporations and individuals having a demonstrable capacity to conduct research activities to facilitate or expand promising breakthroughs in areas of the food and agricultural sciences of importance to the United States.

Credentials/Documentation:

The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM).Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant.Applicants must furnish the information required in the Competitive Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. Fiscal Year 2017: Fiscal Year (FY) 2017 ACTIVE Programs:Total Appropriations for the Special Research Grants Program was approximately \$21.7 million for Fiscal Year (FY) 2017. Per the Budget Office, after legislatively authorized set-asides, approximately \$20.1 million was available for awards.(B) Global Change Ultraviolet Radiation Monitoring and Research Program (GC/UV-B):The program made one (1) continuation award.The Principal Investigators (PIs) operated and managed USDAs ultraviolet radiation climatology network, and conducted, in collaboration with other institutions, research on ultraviolet radiation effects on agriculturally relevant crops. Projection of regional and national climate change impacts on cotton/maize/soybeans using economic models, effects research, and simulations continued. The amount available to fund proposals was \$1,305,638.(D) Minor Crop Pest Management Program Interregional Research Project #4 (aka IR-4):For the Fiscal Year (FY) 2017 award cycle, \$11,070,513 was awarded. In FY 2017 NIFA posted a competitive RFA for four (4) regional centers and a National Headquarters Office to administer the Minor Crop and Minor Use Pesticide program known as IR-4 for the next two years. A peer review panel reviewed all applications that were received and recommended funding each of the 5 (five) proposals received. Funds support research on pesticides for use in specialty crops and minor crops.(F) Potato Breeding Research:For the Fiscal Year (FY) 2017 award cycle, \$2,078,195 was available for grant awards.A total of four (4) applications were received that requested a total of \$4,301,857. Five (5) proposals were submitted to the program. One (1) was rejected for lack of program fit, so four (4) were reviewed by a panel of five (5) reviewers.A six member peer-review panel evaluated these applications on June 12, 2017. The peer panels included faculty from land grant universities and Federal and industry scientists.Funds were available to support four new integrated research and extension projects awards totaling \$2,078,195.The funding success rate for this program in FY 2017 was 80% for new awards.Funded projects will support potato research that has a high potential to develop potato varieties with a high value to the potato industry.(H) Aquaculture Research and Aquaculture Centers:The Fiscal Year (FY) 2017 Aquaculture Research Special Research Grants program panel met from July 17-19. A total of 54 proposals were received. Four (4) proposals will be funded. There was approximately \$1,216,344 million available for these awards.For Fiscal Year (FY) 2017, approximately \$3.7 million was available for the Regional Aquaculture Centers Program. Each of the Regional Centers was awarded \$734,424.(I) Supplemental and Alternative Crops Competitive Grants Program (aka Canola Research and SACC):For the FY 2017 award cycle, \$766,656 was available to fund the proposals received by this program. The maximum award was \$325,000. Seven (7) applications were received, a total of \$ 1,397,133 was requested for the FY 2017 competition. On June 22, 2017, an eight (8) member peer review panel evaluated the applications. The peer panel included faculty from 1862 land-grant institutions (LGIs), and Federal and industry scientists.Three (3) awards were supported with the funding. The funding rate was 43%.Funded projects will develop canola as a viable supplemental and alternative crop in the United States. They are supporting integrated research and extension projects that focus on developing and testing superior canola germplasm; improving methods of planting, cultivation and harvesting; and transferring the new knowledge to producers. These projects involved stakeholders in priority setting, project development and implementation; and included multi-state cooperation. The funded projects will complement research being conducted by the U. S. Department of Agriculture's Agricultural Research Service (ARS).(S) Food and Agriculture Education Information System (FAEIS)In FY 2017 FAEIS funded a single continuation grant in the amount of \$220,000.SPECIAL NOTE: The listing below represents Programs which have not been recently funded. Hence, no further action is required (N/A/N) for the following Programs: (A) Expert IPM Decision Support Systems;(C) Integrated Pest Management & Biological Control;(E) Pest Management Alternatives (PMAP);(G) Critical Agricultural Materials;(J) Policy Research Centers (aka Agriculture and Rural Policy Research);(K) McIntire-Stennis Cooperative Forestry Research.NOTE: Previously, was erroneously listed under CFDA # 10.200 (K). Biological Impact Assessment Program; and (R) Regional Nutrition Education and Obesity Prevention Centers of Excellence (RNECE). Fiscal Year 2018: Fiscal Year (FY) 2018 ACTIVE Programs:Total Appropriations for the Special Research Grants Program was approximately \$22.9 million for Fiscal Year (FY) 2018. Per the Budget Office, after legislatively authorized set-asides, approximately \$21.3 million was available for awards.(B) Global Change Ultraviolet Radiation Monitoring and Research Program (GC/UV-B):The program anticipates making one (1) continuation award.The Principal Investigators (PIs) operated and managed USDAs ultraviolet radiation climatology network, and conducted, in collaboration with other institutions, research on ultraviolet radiation effects on agriculturally relevant crops. Projection of regional and national climate change impacts on cotton/maize/soybeans using economic models, effects research, and simulations continued. The amount available to fund proposals was \$1,305,638.(D) Minor Crop Pest Management Program Interregional Research Project #4 (aka IR-4):For the Fiscal Year (FY) 2018 award cycle, \$11,070,513 will be awarded as continuation awards to the current four (4) regional centers and the National Headquarters Office.(F) Potato Breeding Research:For the Fiscal Year (FY) 2018 award cycle, \$2,323,200 was available for grant awards.A total of four (4) continuation applications were received that requested a total of \$2,323,200. These awards were continuations from awards granted the year before from a peer reviewed panel. Project success was reviewed internally by NIFA staff to ensure projects were progressing.The funding success rate for this program in FY 2018 was 100% for continuation awards.(H) Aquaculture Research and Aquaculture Centers:The Aquaculture Research Special Research Grants Program was not included in the Presidents Fiscal Year (FY) 2018 budget request. However, funding was appropriated for this in FY 2018. The appropriated amount was \$1.35 million. After legislatively authorized set-asides, approximately \$1.2 million was available for awards.These funds were made, available for this program with a 56 proposals submitted for funding. Four (4) awards of approximately \$300,000 each were made. For Fiscal Year (FY) 2018, approximately \$4.6 million was available for the Regional Aquaculture Centers Program. Each of the Regional Centers was awarded \$929,280. (I) Supplemental and Alternative Crops Competitive Grants Program (aka Canola Research and SACC):For the FY 2018 award cycle, approximately \$762,600 is available to fund proposals received by this program. Maximum award size is \$200,000.Eight (8) applications were received, a total of \$ 1,589,476 was requested for the FY 2017 competition. On June 18, 2018, an eight (8) member peer review panel evaluated the applications. The peer panel included faculty from 1862 and 1890 land-grant institutions (LGIs), Federal scientists, and an industry farmer.Funded projects will support integrated research and extension projects that focus on developing and testing superior canola germplasm; improving methods of planting, cultivation and harvesting; and transferring the new knowledge to producers.(S) Food and Agriculture Education Information System (FAEIS)In FY 2018, FAEIS was competed for a single award of \$220,000.It is anticipated that continuation grants will be awarded, contingent upon performance, for project periods up to five (5) years. The anticipated total for the entire project period is approximately \$1,100,000.SPECIAL NOTE: The listing below represents Programs which have not been recently funded. Hence, no further action is required (N/A/N) for the following Programs: (A) Expert IPM Decision Support Systems;(C) Integrated Pest Management & Biological Control;(E) Pest Management Alternatives (PMAP);(G) Critical Agricultural Materials;(J) Policy Research Centers (aka Agriculture and Rural Policy Research);(K) McIntire-Stennis Cooperative Forestry Research.NOTE: Previously, was erroneously listed under CFDA # 10.200 (K). types of projects will be similar. NIFA projects that Competitive applications will be solicited for four (4) regional centers and a National Headquarters Office. A diverse panel will review the applications and recommend funding accordingly. A total of five (5) awards may be made. Funds support research on pesticides for use in specialty crops and minor crops. It is anticipated that the awards made in FY 2019 will be continuations into FY 2020. Pertinent details will be provided by Program at a future date. (F) Potato Breeding Research: The FY 2019 funding levels have not yet been established by Congressional Appropriations. If this Program is funded in FY 2019, it is anticipated that the funding level and types of projects will be similar. Pertinent details will be provided by Program at a future date. (H) Aquaculture Research and Aquaculture Centers: The FY 2019 funding levels have not yet been established by Congressional Appropriations. However, if the Program is funded in FY 2019, it is projected anticipated that an amount similar to the FY 2018 levels (\$1.35 million, appropriated) will be made available for this program with approximately 55 proposals submitted for funding. If funded, it is anticipated that approximately \$1.2 million will be available for four (4) awards of approximately \$300,000 each. However, if the Regional Aquaculture Centers Program is funded in FY 2019, it is projected anticipated that an amount similar to the FY 2018 level and similar projects will be funded. It is projected that similar projects will be supported in FY 2019. Pertinent details will be provided by Program at a future date. (I) Supplemental and Alternative Crops Competitive Grants Program (aka Canola Research and SACC): The FY 2019 funding levels have not yet been established by Congressional Appropriations. If this Program is funded in FY 2019, it is anticipated that the funding level and types of projects will be similar. Pertinent details will be provided by Program at a future date. (S) Food and Agriculture Education Information System (FAEIS): The FY 2019 funding levels will be dependent on Congressional Appropriations to Higher Education programs. FAEIS will be funded through a non-competitive award. Pertinent details will be provided by Program at a future date. **SPECIAL NOTE:** The listing below represents Programs which have not been recently funded. EXAMPLES OF FUNDED PROJECTS:

2017 Fiscal Year (FY) 2017 ACTIVE Programs: (B) Global Change Ultraviolet Radiation Monitoring and Research Program (GC/UV-B): 1. Continued operation and management of USDAs ultraviolet radiation climatology network. 2. Conducted, in collaboration with the other institutions, research on ultraviolet radiation effects on agriculturally relevant crops. 3. Projection of regional and national climate variability impacts on cotton/maize/soybeans using economic models, effects research, and simulations continued. 4. Increased emphasis of crop and economic modeling was suggested. (D) Minor Crop Pest Management Program Interregional Research Project #4 (aka IR-4): This project continued support for four (4) regional Centers plus a National Headquarters Office. Since the plant protection industry has little economic incentive to develop registrations for specialty crop chemicals, IR-4 develops the data that provide legal, effective, safe and IPM-compatible pest control agents for minor and specialty crops. Without this program, many specialty crops could no longer be produced in the US or would be greatly compromised in cost and quality. This projects objectives for minor and specialty crops are to obtain pesticide clearances for food uses, further the development and adoption of biopesticides, and conduct research to protect ornamental crops. (F) Potato Breeding Research: 1. Potato Breeding and Cultivar Development in the Southwest. 2. Potato Breeding and Variety Development for Improved Quality and Pest Resistance in the Eastern United States. 3. Potato Variety Development in the Northwest. (H) Aquaculture Research and Aquaculture Centers: The four (4) projects funded in the FY 2017 competition include: (1) Biomaniplulation as a tool to enhance aquaculture through the management of toxic cyanobacteria; (2) Bioeconomics of columnaris vaccines in channel catfish aquaculture; (3) Oral Vaccine for Infectious Hematopoietic Necrosis Virus; and (4) Production of reproductively sterile rainbow trout for environmentally-responsible and economically-sustainable US aquaculture industry. For Fiscal Year (FY) 2017, awards were made to the following Regional Aquaculture Centers: 1) Southern; 2) Western; 3) North Central; 4) Tropical and Subtropical; and 5) Northeastern. (I) Supplemental and Alternative Crops Competitive Grants Program (aka Canola Research and SACC): Actual projects: 1. DEVELOPMENT

(D) Minor Crop Pest Management Program Interregional Research Project #4 (aka IR-4):This project continued support for four (4) regional Centers plus a National Headquarters Office. Since the plant protection industry has little economic incentive to develop registrations for specialty crop chemicals, IR-4 develops the data that provide legal, effective, safe and IPM-compatible pest control agents for minor and specialty crops. (F) Potato Breeding Research:The Potato Breeding Research program is now offered in alternate years. New awards were made in FY 2017. Consequently, FY 2018 awards have not yet been finalized. Pertinent details will be provided by Program at a future date.(H) Aquaculture Research and Aquaculture Centers:Four (4) awards were selected from the 56 proposal submissions by a Competitive peer-review panel. These include: 1)Prevention of motile Aeromonas septicemia in catfish by novel live attenuated vaccines; 2) Genetic Enhancement of Texture and Carcass Traits of Catfish; 3) Pathways For Revitalizing U.S. Aquaculture: Reducing Regulatory Inefficiencies While Ensuring Sustainability And Social Responsibility; and 4) Underlying Mechanisms For Selected Disease Resistance And Enhanced Non-Specific Resistance In Rainbow Trout.For Fiscal Year (FY) 2018, awards were made to the following Regional Aquaculture Centers:1)Southern;2)Western;3)North Central;4)Tropical and Subtropical; and5)Northeastern (I) Supplemental and Alternative Crops Competitive Grants Program (aka Canola Research and SACC):Anticipated projects:Evaluate outcomes for canola performance, oil quality, and environmental and economic impacts, from use of new IPM strategies and improved input management for winter canola. Improve canola management practices and strategies to enhance canola production and profitability, including optimal seeding configuration, and practices for tolerance to broad-leaf weed herbicides and soil salinity, and management of blackleg, and assessment of clubroot prevalence. Support the long-term sustainability of monoculture cereal production in dryland agriculture, through increased canola productivity and grower profitability through new cultivars and production research; and, quantified presentation of economic

and environmental rotational benefits of canola in cereal rotations. A canola production manual will encourage more growers to include canola in cereal rotations, offering more crop diversity, greater long-term farm stability, and environmental stewardship. Breed canola varieties for enhanced winter survival, greater yield potential, higher oil content, and herbicide tolerance, toward long-term increased diversity in wheat-based cropping systems, efficiency of irrigation water use, and supply for U.S. domestic demand for canola oil. Adoption as winter crops in rotations. Producers will get hands-on experience through on-farm research evaluating new canola cultivars and best production practices, including new establishment methods, facilitating adoption of winter canola into cropping systems. 10.202 Cooperative Forestry Research

McIntire-Stennis Cooperative Forestry Research Act (M/S) Program,

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Executive Order Public Law 87-778 (76 Stat. 806, 16 U.S.C. 582a, et seq.) signed into law on October 10, 1962 is also known as the McIntire-Stennis Cooperative Forestry Research Act., 16 USC Code 582a thru a-7.

OBJECTIVES:

The purpose of this funding is to increase forestry research in the production, utilization, and protection of forestland; to train future forestry scientists; and to involve other disciplines in forestry research. Funding should also address the high priority issues described in the current M/S Strategic Plan: Sustaining Healthy and Productive Forests: An Investment in Americas Competitive Position in the Global Marketplace: (1) science of integration; (2) forest ecosystem services; (3) human attitudes and behaviors; (4) conflict, uncertainty, and decision-making; (5) technological advancements, productivity, and forest applications; and (6) urban ecosystems.

TYPES OF ASSISTANCE:

Formula Grants, Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

The McIntire-Stennis Cooperative Forestry Research Act (M/S) grant is used to assist all states in carrying out a program of state forestry research at state forestry schools and colleges and developing a trained pool of forest scientists capable of conducting needed forestry research, which should include: (1) ecological restoration; (2) catastrophe management; (3) valuing and trading ecological services; (4) energy conservation, biomass energy and bio-based materials development; (5) forest fragmentation; (6) carbon sequestration and climate change; and (7) ways of fostering healthy forests and a globally competitive forest resources sector. Additionally, M/S funds should be allocated to the following high priority issues: (1) science of integration (ecosystem or landscape approaches including interdisciplinary multi-state projects); (2) forest ecosystem services; (3) human attitudes and behaviors; (4) conflict, uncertainty, and decision-making; (5) technological advancements (biotechnology, nanotechnology and geospatial technology), productivity, and forest applications; and (6) urban ecosystems. Funding is provided to the States through a formula-based allocation process which depends on several factors. First, a base amount (approximately \$25,000) is allocated to each State; however, this base amount is excluded from the formula. The balance of funding to each State is determined through a ranking process and dependent upon the following three factors: (1) forty percent of the remaining balance is allocated based on the area of non-Federal commercial forest land; (2) forty percent is allocated based upon the volume of timber cut annually from stock; and (3) twenty percent is allocated based on the total expenditures for forestry research from non-Federal sources. Funds are then distributed to the eligible State-certified Institutions within the State as determined by the Governors designee. Applications may be submitted by State-certified Schools of Forestry as stipulated

in accordance with Section 2 of Public Law 87-788, McIntire-Stennis Act. Section 7412 of the Food, Conservation, and Energy Act of 2008 amended Section 2 of the McIntire-Stennis Cooperative Forestry Act (16 U.S.C. 582a-1) to include the 1890 Land-grant Institutions and made this change effective October 1, 2008.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); Funds are appropriated by Congress for distribution to State institutions certified as eligible by a State representative designated by the Governor of each State. Funds are apportioned among States by the Secretary of Agriculture after consultation with a National Advisory Council representing the State- certified forestry schools and other groups concerned with forestry research. This program is also available to Guam, Puerto Rico, the Virgin Islands, American Samoa, Northern Mariana Islands, and Micronesia.

Beneficiary Eligibility:

U.S. Territories; State; Funds are appropriated by Congress for distribution to State institutions certified as eligible by a State representative designated by the Governor of each State. Funds are apportioned among States by the Secretary of Agriculture after consultation with a National Advisory Council representing the State- certified forestry schools and other groups concerned with forestry research. This program is also available in Guam, Puerto Rico, the Virgin Islands, American Samoa, Northern Mariana, and Micronesia.

Credentials/Documentation:

The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFA is available via: <https://nifa.usda.gov/program/mcintire-stennis-capacity-grant> RFAs are generally released annually. Hence, the RFAs provide the most current and accurate information available. Preapplication Coordination:

ASSISTANCE LISTINGS DESCRIPTIONS

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All Request for Applications (RFAs) are published on the Agency's website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information:

<http://www.grants.gov/>. NIFA Applications (R&R Other Project Information - Section 4.4) requires a response to the question regarding "Actual or Potential Impact on the Environment." For this program the response is "No."

Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see:

<http://www.grants.gov/web/grants/learn-grants/grants-101/pre-award-phase.html>.

Further, applicants must follow the instructions provided in the NIFA Grants.gov Application Guide, which can be assessed as follows: Adobe NIFA Applications.2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDA's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via:

Award Procedure:

Funding is provided to the States through a formula-based allocation process which depends on several factors. First, a base amount (approximately \$25,000) is allocated to each State; however, this base amount is excluded from the formula. The balance of funding to each State is determined through a ranking process and dependent upon the following three factors: (1) forty percent of the remaining balance is allocated based on the area of non-Federal commercial forest land; (2) forty percent is allocated based upon the volume of timber cut annually from stock; and (3) twenty percent is allocated based on the total expenditures for forestry research from non-Federal sources. Funds are then distributed to the eligible State-certified Institutions within the State as determined by the Governors designee. Applications are subjected to a system of peer and merit review in accordance with section 103 of the Agricultural Research, Extension and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who are specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application. Evaluation Criteria will be delineated in the Request for Applications (RFA). 2 CFR 200 Subpart C and Appendix I and 2 CFR part 400 apply to this Program. Formula and Matching Requirements:

Statutory Formula: Public Law 87-778. Matching Requirements: Percent: 100%.

Requirement: Matching requirements are voluntary. Funding is provided to the States through a formula-based allocation process which depends on several factors. First, a base amount (approximately \$25,000) is allocated to each State; however, this base amount is excluded from the formula. The balance of funding to each State is determined through a ranking process and dependent upon the following three factors: (1) forty percent of the remaining balance is allocated based on the area of non-Federal commercial forest land; (2) forty percent is allocated based upon the volume of timber cut annually from stock; and (3) twenty percent is allocated based on the total expenditures for forestry research from non-Federal sources. Funds are then distributed to the eligible State-certified Institutions within the State as determined by the Governors designee. Formula grant recipients are to provide matching [as detailed in Part VIII.A.6 of the Formula Grant Opportunity (FGO)], either cash or in-kind, on a dollar-for-dollar basis (100 percent) on all Federal funds allotted. Eligible institutions located in insular areas (i.e., American Samoa, Guam, Micronesia, Northern Marianas, Puerto Rico, and the Virgin Islands) are not required to match amounts at or below \$100,000, if the allocation is below \$200,000. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

M/S funds are expected to be fully expended in the fiscal year (FY) of appropriation; however funds may be carried forward one (1) additional fiscal year (FY). These carryover funds must be fully expended by September 30 of the following year. No prior approval to carryover these funds is required from NIFA. Method of awarding/releasing assistance: quarterly. Further details are provided in the Award document Form NIFA-2009 and the NIFA General Terms and Conditions Grants and Cooperative Agreements (dated October 2016) at: <https://nifa.usda.gov/resource/nifa-general-terms-and-conditions-grants-and-cooperative-agreements-october-2016>. Reports:

Grantees are to submit initial project information, annual summary and final reports through NIFAs electronic, Web-based inventory system that facilitates both grantee submissions of project outcomes and public access to information on Federally-funded projects. The details of the reporting requirements are included in the award terms and conditions. The following is a description of project data reporting requirements through the REEport system (located at <http://portal.nifa.usda.gov>) as well as the SF-425 reporting requirements: 1. Financial Reporting A Financial Report shall be submitted to NIFA through REEport annually for all eligible projects from the preceding fiscal year. A Financial Report is also required for expenditures on all State projects that are to be included in the non-Federal funds and matching funds computation. Reports shall be made on the federal fiscal year basis. Financial reporting via the SF-425, Federal Financial Report is due to the Capacity Grants Branch of OGFM on December 31 for the period October 1 through September 30, on an annual basis, until the award is closed out. NIFA uses the SF-425, Federal Financial Report to monitor cash. McIntire-Stennis funds are expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to one year after the end of the year for which they were appropriated. No prior approval is required to carry over funds for one additional year; however, no additional carryover requests may be considered or approved, as no legislative authority to do so is provided. 2. REEport Reporting Institutions should submit a project proposal through the REEport systems. The Essentials of a McIntire-Stennis Proposal guideline document can assist you in developing the format of your proposal. The guideline can be found at <http://nifa.usda.gov/resource/mcintire-stennis-project-proposal-essentials> under the Resources section or on Appendix B in the RFA. The following is a description of project data reporting requirements through the REEport system (located at <http://portal.nifa.usda.gov>) as well as the SF-425 reporting requirements: Institutions must submit a REEport Project Initiation which includes the Project Description; Project Classification; Assurance Form; and Project Proposal through the REEport System prior to the initiation of each capacity-funded project. The project must undergo a review process and be approved before it is incorporated into the Program of Research. Each institution shall submit a REEport Progress Report annually for each eligible project. All Progress Reports from institutions are based on the federal fiscal year and shall be submitted by March 1 for the preceding fiscal year (FY). A Final Report shall be submitted to NIFA through REEport for each completed or terminated project. Such reports shall be submitted at the same time as are progress reports on active projects and should include a summary of accomplishments for the entire life of the project. See <http://nifa.usda.gov/program/mcintire-stennis-capacity-grant> for additional details of annual, final technical and financial reporting requirements. Instructions for using the REEport system are included on the NIFA web site at: <http://nifa.usda.gov/reeport-resources-land-grant-partners>. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal

awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Subpart F Audit Requirements nonfederal entities that expend financial assistance of \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part. A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in 200.503. Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General.

Records:

In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 200.333 Retention requirements for records. Grantees shall maintain separate records for each grant to ensure that funds are used for authorized purposes. Grant-related records are subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three (3) year period if litigation is pending or audit findings have not been resolved. 2 CFR Part 200, Subpart D applies to this program

10.203 Payments to Agricultural Experiment Stations Under the Hatch Act

Hatch Act and The Hatch Act of 1887 aka**PAYMENTS TO AGRICULTURAL EXPERIMENT STATIONS UNDER THE HATCH ACT:**(A) The Hatch Act of 1887 (Regular Research) (B) The Hatch Act of 1887 (Multistate Research Fund),
FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE, DEPARTMENT OF AUTHORIZATION:

Hatch Act of 1887, as amended; Public Law 84-352, 7 U.S.C. 361a-361i; Education Amendments of 1972, Section 506, Public Law 92-318; Public Law 93-471; Public Law 95-113; Education Amendments of 1980, Section 1361, Public Law 96-374, 7 U.S.C. 301; Public Law 97-98; Public Law 99-198; Public Law 101-624; Public Law 104-127; Public Law 105-185., Public Law 108, 7 USC Code 361a-i.

OBJECTIVES:

To support agricultural research at State Agricultural Experiment Stations. Its purpose is to promote efficient production, marketing, distribution, and utilization of products of the farm as essential to the health and welfare of people and to promote a sound prosperous agriculture and rural life. Up to 25 percent (25%) of funds to be used for integrated cooperative research and extension activities. Two (2) Programs are funded under CFDA 10.203. Specific Objectives are as follows: (A) The Hatch Act of 1887 (Regular Research) The Hatch Act of 1887 provides the basis for Federal funding for agricultural research activities at the State Agricultural Experiment Stations in the 50 States, the District of Columbia, and the Insular Areas.State Agricultural Experiment Stations are eligible for funds appropriated under this Act according to the following formula: The previous years base plus the current year increase as follows: Three percent (3%) for Federal Administration, Twenty percent (20%) equally, Twenty-six percent (26%) in an amount which bears the same ratio to the total amount to be allotted as the rural population of the State bears to the total rural population of all the States as determined by the last preceding decennial census; Twenty-six percent (26%) t in an amount which bears the same ratio to the total amount to be allotted as the farm population of the State bears to the total farm population of all the States as determined by the last preceding decennial census. Twenty-five percent (25%) for the Hatch Multistate Research Fund.(B) The Hatch Act of 1887 (Multistate Research) Not less than twenty-five percent (25%) of the total Hatch Act of 1887 funding is allotted to the States for cooperative research employing multidisciplinary approaches in which a State agricultural experiment station, working with another State agricultural experiment station, the Agricultural Research Service, or a college or university, cooperates to solve problems that concern more than one (1) State. These funds are designated as the Multistate Research Fund, State Agricultural Experiment Stations. Funds are allocated on a prorata basis and allocations are adjusted to support national and regional projects. These projects and their associated budgets are reviewed and approved annually.The 25 percent applies to any amounts appropriated above the level of funding in 1955 (the base year).

TYPES OF ASSISTANCE:

Formula Grants, Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

USES: Money appropriated pursuant to this Act shall also be available, in addition to meeting expenses for research and investigations conducted under authority of Section 2, for printing and disseminating the results of such research, retirement of employees subject to the provisions of an Act approved March 4, 1940 (54 Stat. 39), administrative planning and direction, and for the purchase and rental of land and the construction, acquisition, alteration, or repair of buildings necessary for conducting research. The State Agricultural Experiment Stations are authorized to plan and conduct any research authorized under Section 2 of this Act in cooperation with each other and such other agencies and individuals as may contribute to the solution of the agricultural problems involved, and moneys appropriated pursuant to this Act shall be available for paying the necessary expenses of planning, coordinating, and conducting such cooperative research. Up to twenty-five percent (25%) of funds to be used for integrated cooperative research and extension activities.(A) The Hatch Act of 1887 (Regular Research)

ASSISTANCE LISTINGS DESCRIPTIONS

This grant is used to support continuing agricultural research at institutions eligible to receive funds under the Act approved July 2, 1862 (12 Stat. 503, as amended) (1862 Land-Grant Institutions), as well as State agricultural experiment stations. Funds appropriated under this section shall be used to conduct original and other researches, investigations, and experiments bearing directly on and contributing to the establishment and maintenance of a permanent and effective agricultural industry of the United States, including researches basic to the problems of agriculture in its broadest aspects, and such investigations as have for their purpose the development and improvement of the rural home and rural life and the maximum contribution by agriculture to the welfare of the consumer, as may be deemed advisable, having due regard to the varying conditions and needs of the respective States. Further, funds may be used printing and disseminating the results of such research, retirement of employees subject to the provisions of an Act approved March 4, 1940 (54 Stat. 39), administrative planning and direction, and for the purchase and rental of land and the construction, acquisition, alteration, or repair of buildings necessary for conducting research. (B) The Hatch Act of 1887 (Multistate Research) In addition to the uses applicable to the Regular Research funds, Multistate Research funds must be used for cooperative research employing multidisciplinary approaches in which a State agricultural experiment station, working with another State agricultural experiment station, the Agricultural Research Service, or a college or university, cooperates to solve problems that concern more than one (1) State. These funds are known as the Hatch Multistate Research Fund (MRF).

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); U.S. Territories and possessions (includes institutions of higher education and hospitals); (A) The Hatch Act of 1887 (Regular Research) Hatch Act funds are provided for agricultural research on an annual basis to the State Agricultural Experiment Stations (SAESs) which were established under the direction of the college or university or agricultural departments of the college or university in each State in accordance with the act approved July 2, 1862 (7 U.S.C. 301 et seq.); or such other substantially equivalent arrangements as any State shall determine. Award recipients may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project. (B) The Hatch Act of 1887 (Multistate Research) Hatch Act funds are provided for agricultural research on an annual basis to the State Agricultural Experiment Stations (SAESs) which were established under the direction of the college or university or agricultural departments of the college or university in each State in accordance with the act approved July 2, 1862 (7 U.S.C. 301 et seq.); or such other substantially equivalent arrangements as any State shall determine. Award recipients may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project.

Beneficiary Eligibility:

U.S. Territories; State; Public nonprofit institution/organization; Funds under the Hatch Act are allocated in accordance with the statutory formula stated in the Act to the State agricultural experiment stations of the 50 States, the District of Columbia, Guam, Puerto Rico, the Virgin Islands, American Samoa, Micronesia, and Northern Mariana Islands. These institutions have been identified and declared eligible by their respective State legislatures.

Credentials/Documentation:

Credentials/Documentation (083): The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the

applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFA is available via: <https://nifa.usda.gov/program/hatch-act-1887RFAs> are generally released annually. Hence, the RFAs provide the most current and accurate information available. Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications should be submitted as outlined in the RFA. Applicants must follow the instructions provided per Grants.gov. Application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see: <http://www.grants.gov/web/grants/learn-grants/grants-101/pre-award-phase.html>. Further, applicants must follow the instructions provided in the NIFA Grants.gov Application Guide, which can be assessed as follows: Adobe NIFA Applications. 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDA's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via: <https://nifa.usda.gov/program/hatch-act-1887RFAs> are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Capacity, Competitive, and/or Non-Competitive RFAs supersede the general information provided in the CFDA database.

Award Procedure:

ASSISTANCE LISTINGS DESCRIPTIONS

Funds will be released on a quarterly basis to the institutions. See Appendix A of the Request for Application (RFA) for the specific allocations. Application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. Hatch Act Funds must be fully expended in the fiscal year of appropriation; no waiver requests may be considered and approved as no carryover authority is provided in the authorizing legislation. 2 CFR Part 200 Subpart C and Appendix I apply to this program. 2 CFR Part 400 applies to this program. Applications are subjected to a system of peer and merit review in accordance with section 103 of the Agricultural Research, Extension and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who are specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application. Evaluation Criteria will be delineated in the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFA). 2 CFR 200 Subpart C and Appendix I and 2 CFR part 400 apply to this Program. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via: <https://nifa.usda.gov/program/hatch-act-1887RFAs> are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Capacity, Competitive, and/or Non-Competitive RFAs supersede the general information provided in the CFDA database.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days. Section :094 - Deadlines: Dates for specific deadlines are announced in the Capacity Request for Applications (RFA) each fiscal year (FY). Section 095 - Range From 30 to 60 days. Contact the National Program Leader (NPL), as indicated per CFDA Section # 152 Headquarters Office regarding dates for specific deadlines, start and end dates, and range of approval/disapproval time. Information is also available via our website and may be obtained via the Grants.gov website. NIFAs respective links regarding general information are provided below: <http://nifa.usda.gov/http://www.grants.gov>. Appeals:

Not Applicable. Not Applicable. 2 CFR Part 200 Subparts D & E apply to this program.

Renewals:

Other. Not applicable, each year of funding is awarded as a new grant. Specific details are provided in the Request for Applications (RFA), which are generally

published annually. The most current RFA is available via: <https://nifa.usda.gov/program/hatch-act-1887>

Formula and Matching Requirements:

Statutory Formula: Title The Hatch Act of 1887, Public Law 084-352. Matching Requirements: Percent: 100%. Requirement: Matching requirements are voluntary. (Other Matching Requirements: A) The Hatch Act of 1887 (Regular Research) 100 percent. However, the state agricultural experiment stations in the District of Columbia and the insular areas shall provide non-Federal matching funds equal to not less than 50% of the formula funds distributed by the Secretary of Agriculture. This requirement may be waived by the Secretary. (B) The Hatch Act of 1887 (Multistate Research) Required Multistate Match amounts are disclosed in RFA. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Hatch funds are expected to be fully expended in the fiscal year (FY) of appropriation; however, funds may be carried over for up to one (1) year after the end of the year for which they were appropriated. No prior approval is required to carry over funds for one (1) additional year; however, no additional carryover requests may be considered or approved, as no legislative authority to do so is provided. Further details are provided in the Award document Form NIFA-2009 and the NIFA General Terms and Conditions Grants and Cooperative Agreements (dated October 2016) at: <https://nifa.usda.gov/resource/nifa-general-terms-and-conditions-grants-and-cooperative-agreements-october-2016>. Reports:

Grantees are to submit initial project information and annual summary reports to NIFAs electronic, Web-based inventory system that facilitates both grantee submissions of project outcomes and public access to information on Federally-funded projects. The details of the reporting requirements are included in the award terms and conditions. Application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. Institutions are expected to submit an annual Program of Research, which is a listing of all approved Hatch projects for said institution. Institutions must submit a Project Initiation form through the REEport System prior to the initiation of each AHDR project. The project must undergo a review process and be approved before it is incorporated into the Program of Research. Each institution shall submit a REEport Progress Report, annually for each eligible project. These reports shall be submitted by February 1 for the preceding fiscal year. A Final Report shall be submitted through REEport to NIFA for each completed or terminated project. Such reports shall be submitted at the same time as are Progress Reports on active projects and should include a brief summary of accomplishments for the entire life of the project. A REEport Project Financial Report, shall be submitted to NIFA annually for all projects. Reports shall be made on a fiscal year basis and are to be submitted by February 1. Financial reporting via the SF-425, Federal Financial Report are due annually to the Capacity Grants Branch, Awards Management Division, Office of Grants and Financial Management, on December 31st, for the period of October 1st through September 30th, on an annual basis until the award is closed out. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Subpart FAudit Requirements nonfederal entities that expend financial assistance of \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part. A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in 200.503. Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General. Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General.

Records:

In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 200.333 Retention requirements for records. Grantees shall maintain separate records for each grant to ensure that funds are used for authorized purposes. Grant-related records are subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three (3) year period if litigation is pending or audit findings have not been resolved. 2 CFR Part 200, Subpart D applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Fiscal Year (FY) 2017: In Fiscal Year (FY) 2017, the amount appropriated for this Program was \$243,701,000. The amount available for awards was \$228,105,022, after legislatively mandated set-asides. (A) HATCH REGULAR RESEARCH: For the Fiscal Year (FY) 2017 award cycle, \$172,423,744 was appropriated for awards to the 51 1862 state land-grant universities and six (6) land-grants in insular areas. There were 4,712 active Hatch Regular research projects associated with the Hatch Act appropriation reporting in the REEport systems. All Hatch projects are described as plans of work for a five-year period and roughly 20% of the total number of Hatch projects, about 1,000, are new each year. Projects are reviewed internally at the host institution for scientific merit and again by national program staff at NIFA for program compliance. Projects report progress through the REEport interface and are publically displayed through the CRIS system. Projects may span the spectrum of research affecting all aspects of agriculture, including: (1) soil and water conservation and use; (2) plant and animal production, protection, and health; (3) processing, distribution, safety, marketing, and utilization of food and agricultural products; (4) forestry, including range

management and range products; (5) multiple use of forest rangelands, and urban forestry; (6) aquaculture; (7) home economics and family life; (8) human nutrition; (9) rural and community development; (10) sustainable agriculture; (11) molecular biology; and (12) biotechnology. Research may be conducted on problems of local, State, regional, or national concern. (B) HATCH MULTI-STATE RESEARCH: The Hatch Act of 1887 provides Federal funding for agricultural research activities at the State Agricultural Experiment Stations in the 50 States, the District of Columbia, and the Insular Areas. Not less than 25 percent (25%) of the total Hatch Act of 1887 funding is allotted to the States for cooperative research employing multidisciplinary approaches in which a State agricultural experiment station, working with another State agricultural experiment station, the Agricultural Research Service, or a college or university, cooperates to solve problems that concern more than one State. These funds are designated as the Multistate Research Fund, State Agricultural Experiment Stations. Funds are allocated on a prorata basis and allocations are adjusted to support national and regional projects. These projects and their associated budgets are reviewed and approved annually. A matching fund requirement exists for this Capacity Grant Program. For the FY 2017 Capacity Request for Applications (RFA), \$56,120,901 was available for project grant awards. NIFA received a total of 57 applications requesting a total of \$56,120,901 in FY 2017. The funding ratio for this program in FY 2017 was 100%. Fiscal Year 2018: Fiscal Year (FY) 2018: In Fiscal Year (FY) 2018, the amount appropriated for this Program was \$243,701,000. The amount available for awards was \$229,053,592 after legislatively mandated set-asides. (A) HATCH REGULAR RESEARCH: For the Fiscal Year (FY) 2018 award cycle, \$171,984,121 was appropriated for awards to the 51 1862 state land-grant universities and six land-grants in insular areas. There are 5,874 active Hatch Regular research projects currently reporting in the REEport systems. All Hatch projects are described as plans of work for a five-year period and roughly 20% of the total number of Hatch projects, about 1,100, are new each year. Projects are reviewed internally at the host institution for scientific merit and again by national program staff at NIFA for program compliance. Projects report progress through the REEport interface and are publically displayed through the CRIS system. (B) HATCH MULTI-STATE RESEARCH: The Hatch Act of 1887 provides Federal funding for agricultural research activities at the State Agricultural Experiment Stations in the 50 States, the District of Columbia, and the Insular Areas. Not less than 25 percent (25%) of the total Hatch Act of 1887 funding is allotted to the States for cooperative research employing multidisciplinary approaches in which a State agricultural experiment station, working with another State agricultural experiment station, the Agricultural Research Service, or a college or university, cooperates to solve problems that concern more than one State. These funds are designated as the Multistate Research Fund, State Agricultural Experiment Stations. Funds are allocated on a prorata basis and allocations are adjusted to support national and regional projects. These projects and their associated budgets are reviewed and approved annually. A matching fund requirement exists for this Capacity Grant Program. For the FY 2018 Capacity Request for Applications (RFAs), NIFA projects that a similar level of funding and similar number of proposals as in FY 2017. Funded projects should address multistate agricultural research projects. For the FY 2017 Capacity Request for Applications (RFA), \$59,909,414 was available for project grant awards. NIFA received a total of 57 applications requesting a total of \$56,348,551 in FY 2018. The funding ratio for this program in FY 2018 was 100%. Fiscal Year 2019: Fiscal Year (FY) 2019: In Fiscal Year (FY) 2019, the amount appropriated for this Program was \$243,238,000. The amount available for awards was \$227,669,828 after legislatively mandated set-asides. (A) HATCH REGULAR RESEARCH: For the FY 2019 award cycle, \$171,984,121 appropriation is expected for the 51 1862 state land-grant universities and six land-grants in insular areas. We project that there will be approximately 5,200 active projects of which about 1,000 will be new in FY 2019. (B) HATCH MULTI-STATE RESEARCH: The Hatch Act of 1887 provides Federal funding for agricultural research activities at the State Agricultural Experiment Stations in the 50 States, the District of Columbia, and the Insular Areas. Not less than 25 percent (25%) of the total Hatch Act of 1887 funding is allotted to the States for cooperative research employing multidisciplinary approaches in which a State agricultural experiment station, working with another State agricultural experiment station, the Agricultural Research Service, or a college or university, cooperates to solve problems that concern more than one State. These funds are designated as the Multistate Research Fund, State Agricultural Experiment Stations. Funds are allocated on a prorata basis and allocations are adjusted to support national and regional projects.

These projects and their associated budgets are reviewed and approved annually. A matching fund requirement exists for this Capacity Grant Program. For the FY 2019 Capacity Request for Applications (RFAs), NIFA projects that a similar level of funding and similar number of proposals as in FY 2018. Funded projects should address multistate agricultural research projects.

REGULATIONS, GUIDELINES, AND LITERATURE:

As an administrator of U.S. government support, NIFA works in partnership with grantees to ensure responsible stewardship of federal funds. Our grantees and partners are required to comply with all relevant rules and regulations. EXAMPLES OF FUNDED PROJECTS:

2017 Fiscal Year (FY) 2017: (A) HATCH REGULAR RESEARCH: Investigators in the Western Region worked to connect water quantity and water quality considerations in water-scarce regions of the arid southwest. Researchers completed a detailed analyses of water policies, including such topics as groundwater governance in the United States, the use of grey water by the building/engineering industries, and the detection of antibiotic resistance in

environmental matrices, such as recycled water and grey water. A North Central project targeted three international areas: trade, environment and agriculture in a global context. Investigators focused specifically on international dimensions of comparative advantage in food, feed and biofuel production. (B) HATCH MULTISTATE RESEARCH: Projects initiated and/or renewed in FY 2017 include: (1) A Hatch Multistate project will: a) conduct multidisciplinary conventional and molecular marker-assisted breeding, germplasm enhancement, and early-generation selection research to improve potato productivity and quality for important Eastern U.S. markets. This will help develop new potato varieties with improved disease and insect resistance, resistance to internal heat necrosis, improved processing or fresh market characteristics, and enhanced nutritional quality will be released, providing growers with better marketing opportunities and/or improved resistance to pests; b) Use novel and improved potato germplasm to reduce the impact of economically important potato pests in the Eastern US. This will increase adoption of new, high quality, pest resistant varieties, leading to increased profitability, greater worker safety, and reduced pesticide load in the environment and human diet; c) evaluate yield, quality, and pest resistance of preliminary and advanced potato breeding lines in experimental- and commercial-scale trials at multiple Eastern locations to aid industry adoption of new varieties. Multi-site evaluation and selection process will result in the release of new, broadly adapted potato varieties that will be stress tolerant and suitable for use in a changing climate; and d) provide timely and relevant information to stakeholders through various means including the maintenance of a project website and a web-based potato variety performance database for use by researchers, extension, potato growers, and allied industry members. Web-based and traditional conduits will be used for the distribution of timely and readily available potato variety production information to growers, allied industry members and consumers will be further developed and strengthened. (2) A Hatch Multistate project will: a) develop new technologies for characterizing fundamental nanoscale processes; b) Construct and characterize self-assembled nanostructures that will lead to development of tools and products and benefit different aspects of agriculture and biological engineering research; c) Develop devices and systems incorporating microfabrication and nanotechnology; d) Develop a framework for economic, environmental and health risk assessment for nanotechnologies applied to food, agriculture and biological systems; e) Develop/improve education and outreach materials on nanofabrication, sensing, systems integration and application risk assessment; and f) Improve academic-industry partnership to help move the developed technologies to commercialization phase. Examples of research on continuing projects include: (1) A Hatch Multistate project will: a) develop new technologies for management of flies (biting and nuisance) in organic and conventional animal agriculture systems. This include in depth evaluation of the natural repellents used on livestock and further understand of how flies respond to repellents. Develop and evaluate recognition software to estimate fly population densities on livestock. Provide recommendations for alternative bedding materials to minimize fly development and optimal trapping strategies for target species; b) Detect Insecticide resistance and develop management strategies. Produce research and extension publications describing the mechanism(s) of resistance to insecticides in house flies, stable flies and horn flies. A database of resistance mechanisms by fly species and geographic distribution will be made available to support management efforts directed at house flies and stable flies. Develop a publicly-accessible database of the house fly and stable fly genomes that can be queried by fly researchers from various scientific disciplines; c) Investigate microbial ecology, epithelial immunity, and vector competence of biting and nuisance flies. Identification of attractive and repellent compounds from stable fly larval development substrates and from bacteria associated with flies and their development sites. Attractive lures will be developed and tested based upon fly response to these compounds. A database of bacterial, viral, and fungal taxa associated with blow flies will be developed. Produce research and extension publications describing infection of house flies by bacteria and other pathogens of concern to humans. Evaluate, develop and recommend selected essential oils with documented antimicrobial or microstatic activity against mastitis in dairy cattle; d) Characterize population biology of biting and nuisance flies. Datasets will be produced and made available describing the dispersal distance of stable flies with additional recorded data on environmental factors that affect dispersal. A population growth model for stable fly using time-series datasets will be provided to collaborators for use in further research or extension to growers and other extension clientele. A database of larval development site characteristics will be produced and made available; and e) Community and stakeholder engagement by developing a searchable, national database of all pesticides

ASSISTANCE LISTINGS DESCRIPTIONS

registered in the US for use in animal agriculture will be compiled and updated annually. A national website with links to all currently available livestock entomology research and extension information from across the US will be made available to our stakeholders. Collaborate on developing regular state, regional and national updates for user groups (Extension agents, producer groups, veterinarians, etc.) through conference calls and/or on-line conferencing utilities. We will conduct pest specific webinars for farmers/stakeholders (conventional and organic), private practitioners. 2018 Fiscal Year (FY) 2018: (A) HATCH REGULAR RESEARCH: A North Central study is investigating biocontrol of foodborne pathogens on fresh produce using bacteriophages. Bacteriophages are potentially useful in controlling foodborne pathogens on minimally processed products since phage application is a non-destructive treatment. A project in the Southern region is being conducted to identify genes and gene products that can be manipulated to improve reproduction, health, animal well-being, and production in livestock. Researchers are studying gene and protein expression profiles in unique populations to identify and understand biological pathways associated with these important traits. (B) HATCH MULTI-STATE RESEARCH: New projects which began in Fiscal Year (FY) 2018 include: (1) Regulation of Photosynthetic Processes Collaborators participating in this regional project will place considerable focus on understanding and improving the response of photosynthesis to genetic, developmental and environmental factors that limit productivity. The research spans all levels of organization from the molecular and cellular through the leaf, whole plant and canopy. Particular emphasis will be placed on abiotic stresses (i.e., heat, cold, drought and salinity), nitrogen- and water-use efficiency, carbon flux pathways, and the signal transduction mechanisms that initiate the plant response. (2) Enteric Diseases of Food Animals: Enhanced Prevention, Control and Food Safety The long-term goal of this collaborative project is to develop strategies to prevent and control enteric diseases of cattle, swine, and poultry, ultimately to decrease the incidence of enteric diseases in food animals, and decrease zoonotic food and water-borne illnesses in the USA. (3) Improving Forage and Bioenergy Crops for Better Adaptation, Resilience, and Flexibility This project is directed to these focus areas: Breeding crops with higher forage yield, improved forage quality for livestock production, longevity, and resistance or tolerance to biotic and abiotic stress conditions will provide more economical food production; forage crops need to be developed that will be productive under abiotic stresses, including drought, flooding, cold and warm temperatures, and soil salinity; Research needs to be done on stand establishment (improved seed germination and seedling vigor), biomass production, disease and insect resistance, etc., across multiple environments, especially on marginal soils where these species are likely to be used without competing with food crops; and Improving the yield, nutritional quality, and storability of forage crops will ensure an ample supply of good quality feed to animals and an essential step in securing the food chain to the consumer. (4) Elder Financial Exploitation: Family Risk and Protective Factors This project will address the following objectives: a) Understand family members' experiences (thoughts and feelings) related to elder financial exploitation by a relative; b) Identify risk and protective factors in family systems that increase or decrease the likelihood of family elder financial exploitation; c) Identify the range and scope of family experiences foundational to family elder financial exploitation, including the consequences of EFE on family systems; d) Disseminate findings and implications to gerontology, family studies, and family economics researchers and educators, law enforcement and attorneys, community-based practitioners, and family member; e) Continue to design further studies that build on earlier findings and create a conceptual model or expand Rabiner et al. (2004) Conceptual Model of Elder Financial Exploitation; and f) Social, Economic and Environmental Causes and Consequences of Demographic Change in Rural America. This project proposes to undertake a comprehensive analysis of current population processes affecting U.S. rural areas and provide to stakeholders policy-relevant research findings on the demographic causes and consequences of socioeconomic and environmental change. 2019 Fiscal Year (FY) 2019: (A) HATCH REGULAR RESEARCH: A North Central study is evaluating soil microbiome composition as an indicator of soil health. Researchers aim to develop a resource that will provide the basis for incorporating soil microbiome analysis into the standard package of soil health testing. (B) HATCH MULTI-STATE RESEARCH: New projects which began in Fiscal Year (FY) 2019 include: (i) Biochemistry and Genetics of Plant-Fungal Interactions Fungi are the dominant causal agents of plant disease in both agriculture and natural ecosystems. A better understanding of plant-fungal interactions and the response of plants to pathogens is critical to the development of effective and long term control measures. This new multistate committee

will: a) Bring together scientists that study the genetics and biochemistry of fungal-plant interactions in several different economically important fungal genera having different trophic interactions with plants. These genera include *Alternaria*, *Aspergillus*, *Cochliobolus*, *Colletotrichum*, *Fusarium*, *Magnaporthe*, *Monilinia*, *Pyrenophora*, *Sclerotinia* and *Ustilago*. b) Identify common and unique genetic and/or biochemical mechanisms required for infection and plant colonization by the economically important fungal genera named in Objective 1. c) As a logical extension of Objective 2, identify common and unique genetic and/or biochemical components of plant hosts that facilitate or deter diverse fungal-plant associations of the economically important fungal genera named in Objective 1. d) Integrate research findings concerning the biology and genomics of plant-fungal interactions with new information about resistance mechanisms in host plants (integrate Objectives 2 and 3), thereby providing field pathologists and agronomists with improved management strategies against plant pathogens. e) Explore new and collaborative funding possibilities to enhance activities. (ii) Genetic Bases for Resistance and Immunity to Avian Diseases Disease remains a major issue for the poultry industry. Economic losses due to morbidity, poor performance, and mortality are significant with the added threat that some bacterial and viral zoonotic pathogens can cause human illness or death. With a major focus on antibiotic free (ABF) production, understanding and optimizing immune function has become of paramount importance to maintaining sustainable levels of production. The objectives of the new multistate project are to: a) To Determine how Allelic Variation Influences the Efficacy of Innate and Acquired Immune Functions b) To Identify Factors and Agents Affecting Poultry Immune Development, Function, Dysfunction and Pathology c) To Develop and Employ Genetic Stocks, Methods, Reagents and other Tools to Assess Basic Immune Function, Characterize Immune Evolutionary Processes, Guide Genetic Selection, and Increase Resistance to or Protection Against Avian Diseases This multistate project will facilitate a better understanding of polymorphic loci and the consequence of selection on poultry health and production; new breeding strategies to produce more robust, disease resistant lines of poultry; improved efficacy of vaccines and other pharmaceutical agents; new vaccine programs for controlling existing as well as emerging diseases; a better comprehension of immune responses to specific antigens and a better fundamental understanding of how the avian immune system functions. (iii) U.S. Agricultural Trade and Policy in a Dynamic Global Market Environment U.S. agriculture is dependent on the international market. The U.S. has long been a proponent of developing opportunities for trade through multilateral, bilateral, and regional trade agreements. Recent events, however, including the U.S. withdrawal from the Trans-Pacific Partnership (TPP) and the announced renegotiation of the North American Free Trade Agreement (NAFTA) create uncertainties with respect to their implications for U.S. agriculture. This multistate project will a. Determine the impacts of U.S. and foreign policies, regulations, market structures, and productivity on U.S. food and agricultural trade, the economy, and the environment. Specifically, to examine the impact of the following a1. foreign investment and multinational firms, b1. international and national events and policies (e.g., Farm Bill, immigration and labor issues, food fraud, food labeling laws), and c1. economic growth and changing policies of developing and emerging economies, including safeguards or other mechanisms that target food security. b. Determine the impacts of international trade agreements and institutions on U.S. food and agricultural trade, the economy, and the environment. Specifically, to examine the potential implications of the following: a2. renegotiating preferential trade agreements (e.g., NAFTA), b2. not engaging in preferential trade agreements (e.g. Trans Pacific Partnership), and c2. future preferential trade agreements. This project will help a. increase ability to understand and predict changes resulting from changes in trade agreements. b. increase ability to understand and predict changes resulting from changes in domestic policy. c. provide more clientele exposure to trade research and information. (iv) Integrated Systems Research and Development in Automation and Sensors for Sustainability of Specialty Crops There is continuing need for sufficient and effective sensors, optimized assistive mechanization, and automation systems for specialty crops (fruits, vegetables, tree nuts, dried fruits and nursery). This is because many of the underlying biological processes related to quality and condition of fruits and vegetables are not readily transferred into engineering concepts. Biological variability, coupled with variable environmental factors, creates challenges and opportunities for developing sensors and automation systems for effective implementation at various stages of the production, harvest, and postharvest handling chain. This multistate research group will a. Adapt biological concepts associated with specialty crop production, harvest, and

ASSISTANCE LISTINGS DESCRIPTIONS

postharvest handling into quantifiable parameters which can be sensed. Develop specialty crop architectures and systems that are more amenable to mechanized production. Study interactions between machinery and crop to provide basis for creating optimal mechanical and/or automated solutions for specialty crop production. Develop sensors and sensing systems which can phenotype and measure and interpret quality parameters. Design and evaluate automation systems which incorporate varying degrees of mechanization and sensors to assist specialty crop industries with labor, management decisions, and reduction of production costs. Develop collaboration and work in partnership with equipment and technology manufacturers to commercialize and implement the outcomes of this project. This multistate project will help in a. Specialty crop technology development b. Modernized, mechanization compatible crop production designs, c. Research publications in the design of specialty crop technologies, d. Training of graduate and undergraduate students in the design and concepts of specialty crop automated equipment, e. Workshops and other continuing education opportunities for practicing scientists and engineers, f. Competitive advantage for domestic specialty crop producers by increasing labor efficiency with automated equipment and systems, g. Healthier and safer working environment for the remaining human workforce used in specialty crop production and handling, i. Manufacturing workforce (design engineers, mechanics, operators) better prepared to manufacture and use automated equipment for specialty crop production, postharvest storage, processing, handling, and sorting, j. Reduction of the impact of specialty crop production on the environment through more precise field, postharvest facilities, and packinghouse operations.

CRITERIA FOR SELECTING PROPOSALS:

Within guidelines established for the program as described in the Formula Grant Opportunity (FGO). 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDAs Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. 10.205 Payments to 1890 Land-Grant Colleges and Tuskegee University

Evans-Allen Research and/or Agricultural Research at 1890 Land-Grant Institutions, including Tuskegee University, West Virginia State University and Central State University.,

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Section 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA), enacted as Title XIV of Public Law 95-113 (21-326 and 328), including Tuskegee University, West Virginia State University and Central State University. Amended by Public Law 95-547, Public Law 97-98, Public Law 99-198, Public Law 101-624, Public Law 104-127 and Public Law 105-185., 7 U.S.C. 3222; Public Law 113-79, 7 USC Code 3222.

OBJECTIVES:

To support continuing agricultural research at colleges eligible to receive funds under the Act of August 30, 1890 (26 Stat. 417-419), as amended; 7 U.S.C. 321-326 and 328), including Tuskegee University, West Virginia State University and Central State University. Its purpose is to promote efficient production, marketing, distribution and utilization of products of the farm as essential to the health and welfare of people and to promote a sound prosperous agriculture and rural life.

TYPES OF ASSISTANCE:

Formula Grants, Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

This grant is used to support continuing agricultural research at 1890 Land-Grant Institutions, including Tuskegee University, West Virginia State University and Central State University. Funds appropriated under this section shall be used for expenses of conducting agricultural research, printing, disseminating the results of such research, contributing to the retirement of employees subject to the provisions of the Act of March 4, 1940 (54 Stat. 3940, as amended; 7 U.S.C. 331), administrative planning and direction, and purchase and rental of land and the construction, acquisition, alteration, or repair of buildings necessary for conducting agricultural research. The eligible institutions are authorized to plan and conduct agricultural research in cooperation with each other and such agencies, institutions and individuals as may contribute to the solution of agricultural problems, and funds appropriated pursuant to section 1445 shall be available for paying the necessary expenses of planning, coordinating and conducting such cooperative research.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Applications may be submitted by 1890 Land-Grant Universities, including Tuskegee University, West Virginia State University and Central State University.

Beneficiary Eligibility:

State; Public nonprofit institution/organization; Applications may be submitted by 1890 Land-Grant Universities, including Tuskegee University, West Virginia State University and Central State University.

Credentials/Documentation:

Credentials/Documentation (083): The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available as follows: <https://nifa.usda.gov/sites/default/files/resources/FY18AgriculturalResearchat1890InstitutionsModification882017.pdf> RFAs are generally released annually. Hence,

the RFAs provide the most current and accurate information available. Any specific instructions in the Capacity, Competitive, and/or Non-Competitive RFAs supersede the general information provided in the CFDA database. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All Request for Applications (RFAs) are published on the Agencies website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information: <http://www.grants.gov>. This program is excluded from coverage under E.O. 12372. Pre-award form submissions must be submitted to the Evans-Allen program as a new application on the www.grants.gov website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. Section 202 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended the Smith-Lever Act and the Hatch Act to require approved plans of work for agricultural extension and research activities at 1862 and 1890 Land-Grant Institutions in order to receive Federal funding. Therefore, each 1862 and 1890 Land-Grant Institution must submit both a Five (5) Year Plan of Work Update (i.e., submitted each year as an update) and an Annual Report of Accomplishments and Results. Both reports were due by April 1. Specific project details and pertinent information should be entered in the REEport. The REEport system collects technical and financial data about projects NIFA has funded and allows grantees to report significant accomplishments and impacts of their research, extension, and education work. An environmental impact statement is required for this program.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see: <http://www.grants.gov/web/grants/learn-grants/grants-101/pre-award-phase.html>. Further, applicants must follow the instructions provided in the NIFA Grants.gov Application Guide, which can be assessed as follows: Adobe NIFA Applications.2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDA's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via: <https://nifa.usda.gov/sites/default/files/resources/FY18AgriculturalResearchat1890InstitutionsModification882017.pdf> RFAs are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Capacity, Competitive, and/or Non-Competitive RFAs supersede the general information provided in the CFDA database.

Award Procedure:

The Planning, Accountability and Reporting Staff (PARS) and the Office of Grants and Financial Management (OGFM) Capacity Branch will be reviewing submitted documents to determine if all program, financial, and administrative requirements have been met and are current. To receive an annual allotment of funds, each eligible institution or State must first submit a plan of work to NIFA for approval. During the grant period, PARS will notify the OGFM Capacity Branch and the institution regarding each institutions compliance with the Plan of Work reporting requirements (i.e., Five (5) Year Plan of Work Update and an Annual Report of Accomplishments and Results). If all current program and administrative requirements have been met by the eligible institution, funding will continue to be released on a quarterly basis. The OGFM Capacity Branch will notify the institutions when all requirements have been met or approved. PARS will notify the OGFM Capacity Branch and the institution regarding each institutions compliance with the Plan of Work reporting requirements (i.e., Five (5) Year Plan of Work Update and an Annual Report of Accomplishments and Results). If all current program and administrative requirements have been met by the eligible institution, funding will continue to be released on a quarterly basis. The OGFM

Capacity Branch will notify the institutions when all requirements have been met or approved. 2 CFR Part 200 Subpart C and Appendix I apply to this program. 2 CFR Part 400 applies to this program. Applications are subjected to a system of peer and merit review in accordance with section 103 of the Agricultural Research, Extension and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who are specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application. Evaluation Criteria will be delineated in the Competitive Request for Applications (RFA). 2 CFR 200 Subpart C and Appendix I and 2 CFR part 400 apply to this Program. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via:

matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Evans-Allen Research Program funds are fiscal year appropriated and expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to one additional year. Please note there is no limitation on the amount of Federal funds that may be carried over for this one additional fiscal year. No prior approval from NIFA is required. Since this limitation is legislatively mandated, NIFA is not authorized to grant any carryover requests beyond this one additional year. 2 CFR Part 200, Subpart D applies to this program. Evans-Allen Research Program funds are fiscal year appropriated and expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to one (1) additional year. Please note there is no limitation on the amount of Federal funds that may be carried over for this one (1) additional fiscal year. No prior approval from NIFA is required. Since this limitation is legislatively mandated, NIFA is not authorized to grant any carryover requests beyond this one (1) additional year. Reports:

Grantees are to submit initial project information and annual summary reports to NIFAs electronic, Web-based inventory system that facilitates both grantee submissions of project outcomes and public access to information on Federally-funded projects. The details of the reporting requirements are included in the award terms and conditions. Pre-award form submissions must be submitted to the Evans-Allen Research Program as a new application on the www.grants.gov website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) and REEport and together satisfy all legislative and regulatory pre-award requirements. The Plan of Work Update and Annual Report of Accomplishments and Results should have been submitted by April 1 online at the web address: <http://pow.NIFA.usda.gov>. Section 225 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended NARETPA to require an approved Plan of Work for agricultural extension and research activities at 1890 Land-Grant Institutions in order to receive Federal funding. Therefore, each 1890 Land-Grant Institution, including Tuskegee University, West Virginia State University and Central State University, must submit both a Five (5) Year Plan of Work Update and an Annual Report of Accomplishments and Results. Both reports are due April 1. Specific project details and pertinent information should be entered in REEport. The REEport system collects technical and financial data about projects NIFA has funded and allows grantees to report significant accomplishments and impacts of their research, extension, and education work. The Plan of Work (POW) and Annual Report of Accomplishments and Results should be submitted online through the NIFA Reporting Portal at the web address:

<http://portal.nifa.usda.gov/portal>. Additional information about the POW is available at: <http://nifa.usda.gov/tool/pow> The following is a description of project data reporting requirements through the REEport system (located at <http://portal.nifa.usda.gov>) as well as the SF-425 reporting requirements:

Institutions must submit a REEport Project Initiation which includes the Project Description; Project Classification; Assurance Form; and Project Proposal through the REEport System prior to the initiation of each capacity-funded project. The

project must undergo a review process and be approved before it is incorporated into the Program of Research. Each institution shall submit a REEport Progress Report annually for each eligible project. All Progress Reports from institutions are based on the federal fiscal year and shall be submitted by March 1 for the preceding fiscal year. A Financial Report shall be submitted to NIFA through REEport annually for all eligible projects from the preceding fiscal year. A Financial Report is also required for expenditures on all State projects that are to be included in the non-Federal funds and matching funds computation. Reports shall be made on the federal fiscal year basis. Financial reporting via the SF-425, Federal Financial Report is due to the Capacity Grants Branch, Awards Management Division, OGFM, on December 31 for the period October 1 through September 30 annually, until the award is closed out. A Final Report shall be submitted to NIFA through REEport for each completed or terminated project. Such reports shall be submitted at the same time as are progress reports on active projects and should include a summary of accomplishments for the entire life of the project. See <http://www.nifa.usda.gov/business/awards/formula/evansallen.html> for additional details of annual, final technical and financial reporting requirements. Instructions for using the REEport system are included on the NIFA web site at: <http://nifa.usda.gov/reeport-resources-land-grant-partners>. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Subpart F Audit Requirements nonfederal entities that expend financial assistance of \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part. A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in 200.503. Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General.

Records:

In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 200.333 Retention requirements for records, grantees shall maintain separate records for each grant to ensure that funds are used for authorized purposes. Grant-related records are subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three (3) year period if litigation is pending or audit findings have not been resolved. 2 CFR Part 200 - Subpart D applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: In Fiscal Year (FY) 2017, the appropriated amount was \$54,185,000. Funding to the 19 institutions after legislatively authorized set-asides were \$50,780,008. Funds were distributed on a formula basis, with a 100 percent (100%) matching requirement by the State from non-federal sources. However, NIFA may consider and approve matching waiver requests above the 50 percent level. Fiscal Year 2018: In Fiscal Year (FY) 2018, \$54,082,000 was appropriated to support agricultural research at the 1890 Land-Grant Institutions (LGIs). The available amount after legislatively authorized set-asides was \$50,877,548. Funds will be distributed quarterly, after receipt of performance and financial reports. The program has a required matching component. If the institutions is unable to secure the 100% state match, NIFA may consider and approve matching waiver requests above the 50 percent level. Fiscal Year 2019: For Fiscal Year 2019, it is projected the funding level will be at the FY 2018 appropriated amount of \$54,082,000 to support the 19 LGIs located in 18 states. The projected amount after legislatively authorized set-asides will be \$50,877,548. Pertinent details will be provided by Program at a future

REGULATIONS, GUIDELINES, AND LITERATURE:

As an administrator of U.S. government support, NIFA works in partnership with grantees to ensure responsible stewardship of federal funds. Our grantees and partners are required to comply with all relevant rules and regulations. The following resources are provided to NIFAs partners and award recipients to support their adherence to federal regulations governing program performance: NIFAs primary (main) website: <https://nifa.usda.gov/regulations-and-guidelines> The following represent specific documents and direct links: POLICY GUIDELINES NIFAs Federal Assistance Policy Guide describes agency policies and procedures. <https://nifa.usda.gov/policy-guide> CERTIFICATIONS AND REPRESENTATIONS Certifications and representations provided through the NIFA application process. <https://nifa.usda.gov/certifications-and-representations> ACKNOWLEDGEMENT OF USDA SUPPORT BY NIFA When acknowledging USDA support in accordance with 2 CFR Part 415, grantees must use the following acknowledgement for all projects or initiatives supported by NIFA. <https://nifa.usda.gov/acknowledgment-usda-support-nifa> FEDERAL REGULATIONS The Code of Federal Regulations (CFR) lists all regulations published in the Federal Register. <https://nifa.usda.gov/federal-regulations> FOIA The Freedom of Information Act (FOIA) provides that any person has the right to request access to federal documents and information such as research data. <https://nifa.usda.gov/foia> NEPA POLICY AND GUIDANCE The National Environmental Policy Act (NEPA) Policy and Guidance set the standard for identifying potential environmental impacts. <https://nifa.usda.gov/nepa-policy-and-guidance> OGFM ISSUED CORRESPONDENCE The Office of Grants and Financial Management occasionally issues correspondence to applicants, grantees, and/or the general public for informational or clarification purposes. <https://nifa.usda.gov/ogfm-issued-correspondence> RESEARCH MISCONDUCT NIFA requires that all its awardees adhere to the USDA Scientific Integrity Policy and the Federal Policy on Research Misconduct. <https://nifa.usda.gov/research-misconduct> NIFAS GENERAL AWARD TERMS AND CONDITIONS Award terms and conditions are determined by statutory, regulatory, and agency requirements, as well as each grants circumstances. Terms and conditions dictate important items related to your grant, including method of payment, reporting frequency and content, and prior approval requirements. References to the terms and conditions of awards are located on the NIFA 2009 Award Fact Sheet. EXAMPLES OF FUNDED PROJECTS:

2017 TRANSCRIPTOME PROFILING OF HONEY BEE RESPONSE TO CHEMICAL STRESS UNDER DIFFERENTIAL NUTRITIONAL STATUS European honey bee is agriculturally the most beneficial insect as it pollinates a third of food crops in the world. Additionally, managed colonies satisfy the demand for products such as honey, wax and royal jelly. Since 2006, calamitous colony losses, referred to as colony collapse disorder (CCD), are registered in the US and in other world regions. The origin of CCD remains unknown, but many stressors are suspected to be contributing elements. Current research efforts to understand and curb CCD are specially focused on pesticides. This research direction is justified by the overuse of an array of chemicals in modern agriculture and apiculture that led to a contaminated honey bee habitat. Additionally, compared to other insects, honey bee possesses far less immunity genes and lack detoxification genes which could render it more sensitive to stressors. Although, in the last three years several studies investigated pesticide toxicity to honey bees, there are very few that used mixtures of pesticides and sub-lethal doses. These two points are important because they are the most relevant to the habitat, especially that synergy between pesticides is possible leading to higher toxicity than when used separately. The present proposal addresses this gap of knowledge; we suggest conducting a whole transcriptome profiling analysis of honey bee under chemical stress due to two pesticides in sub-lethal doses. Because fitness is closely related to balanced nutrition, especially in a stressful environment, diet is a prominent topic in honey bee research. MICROBIOME FUNCTIONAL DIVERSITY DRIVING PLANT BIOMASS DECOMPOSITION IN ENGINEERED ENVIRONMENTS Microbial diversity is the single most important resource needed for the conversion of plant biomass and waste biomass into useful products such as energy and industrially-useful chemical synthesis intermediates. Microbial diversity also drives biogeochemical cycles in soil and animal guts. This study focuses on microbial functional diversity in anaerobic digestion and mine site soil reclamation. Anaerobic digesters are components of waste treatment systems that are used to treat high-strength organic wastes. This research will study how microbial diversity affects the stability and efficiency of the anaerobic digestion process using long-term experiments with laboratory-scale reactors (digesters) that are treating agricultural waste biomass. TRANSITION AND DEMONSTRATION CAPACITY: NON-CHEMICAL TECHNOLOGY WEED DISRUPTION IN AGRICULTURE University faculty, undergraduate students, and industry partners will enhance crop production efficiency with reduced environmental impact by replacing post emergence herbicide use with directed energy to control weeds that compete with the crop for nutrients, water and light. The research teams solution spot-illuminates unwanted plants (weeds) with predetermined light frequencies at certain intensities and duration; controlled by integrated sensors and robotics. There is no equivalent non-chemical commercial farm product in the U.S. available today. Recently funded research has demonstrated in non-agriculture situations the ability to manage, prevent and abate unwanted plants in areas that require control. This teams approach has been shown effective to both remove unwanted plants and to keep seeds from germinating. OUTDOOR SWINE PRODUCTION MANAGEMENT: RELATIONSHIPS AMONG STOCK SELECTION AND CARCASS/MEAT QUALITY In order to address global food security to increase production of safe, local foods, grown in a manner that supports human and animal health and well-being, alternative production systems have grown in popularity. Such production systems in the swine industry, including group housing in deep-bedded hoop barns and pasture based production, have the potential to address animal welfare, environmental and food safety concerns and could be a way in which producers can take advantage of the niche/specialty markets these systems target if a quality product is developed. The project objectives will allow for development of improved Berkshire genetics, comparison of performance of Berkshire/heritage breed crosses and survey and testing of both on producer farms. Specific objectives

ASSISTANCE LISTINGS DESCRIPTIONS

are to: Develop an improved Berkshire genetic line, selecting not only for carcass/meat traits, but also reproductive performance. Investigate growth, carcass traits and meat quality of Berkshire crossbreds sired by heritage breeds. The graduate students were trained in performing necessary tasks at the swine unit, getting hands-on experience with handling the large animals and their offspring. The graduate students are expected to pass down the training to the undergraduate students in the following semesters. Through the training system, both the graduate and undergraduate students receive proper training that will prepare them for future careers in animal science. 2018 The 1890 Land-Grant Institutions (LGIs) are required to submit an annual plan of research (Administrative Project) as follows: ADMINISTRATION OF RESEARCH SUPPORTED BY SECTION 1445 To provide planning, direction, support, and effective administration of the research program supported by section 1445. The Land Grant Program is committed to excellence in research to meet the needs of a diverse population. The objectives of this project are: 1) to promote faculty, staff, and student research productivity through innovative research approaches that address stakeholder needs in both rural and urban settings, and 2) to enhance our research support and administrative efficiency in planning and implementing of Evans Allen funds to ensure compliance with NIFA regulations. The 1890 LGIs have submitted an approved research project under this program. Funding will be approved and released on a quarterly basis. Individual projects will be submitted in accordance to the Administrative Project (Plan of Work). 2019 The 19 institutions will respond to the Request for Applications and submit an Administrative Plan of Work. The programs of research must have at least one active research project before funds are released. Pertinent details will be provided by Program at a future date.

10.206 Grants for Agricultural Research Competitive Research Grants

National Research Initiative Competitive Grants Program (NRI),

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Competitive, Special and Facilities Research Grant Act, Section 2(2)(b), [7 U.S.C. 450i] ., 7 USC Code 450i.

OBJECTIVES:

To support research, education and extension grants that address key problems of national, regional and multistate importance in sustaining all components of agriculture (farming, ranching, forestry, aquaculture, rural communities, human nutrition and obesity, food and fiber processing, etc.) Providing this support to US agriculture requires that the NRI advance fundamental. Building on these discoveries will necessitate new efforts in education and extension that deliver science-based knowledge to people, allowing them to make informed practical decisions. All grants were awarded on a competitive basis.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

NIFA Competitive Programs Unit administers the NRI. The purpose of the NRI Competitive Grants Program was to support research grants and integrated research, extension, and education grants that address key problems of National, regional, and multi-state importance in sustaining all components of agriculture (farming, ranching, forestry including urban and agroforestry, aquaculture, rural communities, human nutrition, processing, etc.). Providing this support requires

that NRI advances fundamental sciences in support of agriculture and coordinates opportunities to build on these discoveries. Building on these discoveries will necessitate new efforts in education and extension that deliver science-based knowledge to people, allowing them to make informed practical decisions. Hence, the NRI accepted applications for fundamental research, mission-linked research, and integrated research, extension, and education projects. However, applicants should know that the NRI utilized no more than twenty-two percent (22%) of available funds to support integrated projects and that these funds were not distributed uniformly, but targeted to specific priorities. Targeted priorities for integrated projects were clearly identified within the detailed descriptions of program offerings [see Part II, E of the Fiscal Year (FY) 08 Request for Applications (RFAs)].

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Individual/Family; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Other private institutions/organizations; For research projects, the eligibility requirements for the NRI were as follows: except where otherwise prohibited by law, State agricultural experiment stations, all colleges and universities, other research institutions and organizations, Federal agencies, national laboratories, private organizations or corporations, and individuals were eligible to apply for and to receive a competitive grant. The Agricultural Research Enhancement Awards (AREA) have some notable differences from these requirements. See Part II C, 2. of Fiscal Year (FY) 08 Requests for Applications (RFAs). For integrated projects, the eligibility requirements for the NRI were as follows: except where otherwise prohibited by law, State agricultural experiment stations, all colleges and universities, research foundations maintained by colleges or universities, private research organizations with established and demonstrated capacities to perform research or technology transfer, Federal research agencies, and national laboratories were eligible to apply for and receive a competitive grant. The bridge grants have some notable differences from these requirements. See Part II, C, 3(b) of Fiscal Year (FY) 08 RFAs for details. Unsolicited applications were not considered and applications from scientists at non-United States organizations were not accepted. Award recipients may subcontract to organizations not eligible to apply provided such organizations were necessary for the conduct of the project.

Beneficiary Eligibility:

Federal; Individual/Family; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; Other private institution/organization; State; Public nonprofit institution/organization; Other public institution/organization; For research grants eligibility includes State Agricultural Experiment Stations, U.S. colleges/universities, other U.S. research institutions and organizations, Federal agencies, national laboratories, private organizations or corporations, and individuals. For integrated research, education and extension grants eligibility includes State Agricultural Experiment Stations, U.S. colleges/universities, research foundations maintained by colleges or universities, private research organizations with established and demonstrated capacities to perform research or technology transfer, Federal research agencies and national laboratories. Proposals from scientists at non-U.S. organizations will not be considered for support.

Credentials/Documentation:

A Data Universal Number System (DUNS) number must be obtained - A DUNS number is a unique number that identifies an organization. It has been adopted by the Federal government to help track how Federal grant money is distributed. If your organization does not have a DUNS number, call the special Dun & Bradstreet hotline at 1-866-705-5711 to receive one free of charge. You will receive a DUNS number within several days of your request. Please note, individual proprietorships (i.e. farmers, ranchers) can request and receive a DUNS number, but must register with Grants.gov as an organization, not as an individual. Registration with Central Contractor Registry (CCR) is required - The CCR is the central government repository for organizations working with the Federal government. If your organization is not already registered, identify the primary contact who should register your organization. When your organization registers with CCR, it will be required to designate an e-Business Point of Contact (e-Business POC). The e-Business POC authorizes individuals to submit grant

ASSISTANCE LISTINGS DESCRIPTIONS

applications on behalf of the organization and creates a special password called a Marketing Partner ID Number (M-PIN) to verify individuals authorized to submit grant applications for the organization. Visit the CCR Web site at <http://www.ccr.gov> to begin this process. It may take several days to collect the information needed for your organizations registration. The CCR Assistance Center can be reached at 888-227-2423. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs. Applicants must furnish the information required in the RFAs. Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but were not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one (1) time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there were factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All RFAs were published on the Agencys website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information: http://www.grants.gov/applicants/get_registered.jsp.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications should be submitted as outlined in the RFA. Applications must follow the instructions provided per Grants.gov and in the Agency guide to submitting applications via Grants.gov. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs.

Award Procedure:

Applications were subjected to a system of peer and merit review in accordance with Section 103 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who were specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications were judged most meritorious under the procedures set forth in the RFA. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs. Reviewers were selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

Deadlines:

Contact the headquarters or regional location, as appropriate for application deadlines.

Range of Approval/Disapproval Time:

Other. 094 Deadlines: Dates for specific deadlines were announced in the RFA each fiscal year (FY).:095 Range of Approval/Disapproval Time: From 30 to 180 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable. Proposals for renewal, were submitted at the announced deadline. Renewals were treated in competition with all other pending proposals. Authority has been repealed per Section 7406 of the Food, Conservation, and Energy Act of 2008 The Agriculture and Food Research Initiative (AFRI) was established to replace NRI. (See CFDA 10.310.)

Formula and Matching Requirements:

Statutory formula is not applicable to this assistance listing. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. Funds were awarded competitively. No formula grants were awarded under this authority. For equipment grants Unless criteria was met to qualify for waiver by the Secretary, matching shall not exceed 50 percent of the cost of the special research equipment or other equipment acquired using funds from the grant. For applied research if the grant was commodity-specific; and not of national scope, the grant recipient was required to match USDA funds awarded on a dollar-for-dollar basis from non-Federal sources with cash and/or in-kind contributions. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

Normally, competitive research projects were supported for periods of up to four (4) years. Method of awarding/releasing assistance: letter

Reports:

Grantees were required to submit annual and summary progress reports via NIFA Current Research Information System (CRIS). This reporting requirement was approved under OMB Control No. 0524-0042, NIFA Current Research Information System (CRIS). CRIS is an electronic, web-based inventory system that facilitates both grantee submission of project outcomes and public access to information on Federally-funded projects. Quarterly Reports of Federal Cash Transactions (SF-272) were required by the Department of Health and Human Services (DHHS) (www.dpm.psc.gov) and were submitted online through the DHHS Payment Management System (PMS) website. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General.

Records:

In accordance with the Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and other Non-profit Organizations [2 CFR 215, Subpart C, Section 215.53, (OMB Circular A-110)] grantees shall maintain separate records for each grant to ensure that funds were used for authorized purposes. Grant-related records were subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three-year period if litigation is pending or audit findings have not been resolved.

10.207 Animal Health and Disease Research

(AHDR),

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Executive Order National Agricultural Research, Extension, and Teaching Policy Act of 1977, Section 1433, Public Law 95-113, as amended; Section 1429, Public Law 97-98; Public Law 99-198; Public Law 101-624; Public Law 104-127; Public Law 105-185., 7 USC Code 3195.

OBJECTIVES:

The purpose of this funding is to increase animal health and disease research activities at accredited State veterinary schools or colleges or agricultural experiment stations that conduct animal health and disease research. To support animal health and disease research at eligible Schools and Colleges of Veterinary Medicine, and State Agricultural Experiment Stations whose purpose is to improve the health and productivity of food animals and horses through effective prevention, control or treatment of disease, reduction of losses from transportation and other hazards, and protect human health through control of animal diseases transmissible to people.

TYPES OF ASSISTANCE:

Formula Grants, Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

The National Institute of Food and Agriculture (NIFA) requests applications for the FY 2009 formula grants authorized under authorized under section 1433 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA) for the Animal Health and Disease Research (AHDR) Program. These grants are used to assist all states in carrying out a program of research activities designed to: (1) to meet expenses of conducting animal health and disease research, publishing and disseminating the results of such research, and contributing to the retirement of employees subject to the provisions of the Act of March 4, 1940 (54 Stat. 3940, as amended; 7 U.S.C. 331); (2) for administrative planning and direction; and (3) to purchase equipment and supplies necessary for conducting such research. States are eligible for funds appropriated under this Act according to the following formula: One half of the State allotment will be distributed among the States in the proportion that the value of and income to producers from domestic livestock, poultry, and commercial aquaculture species in each State bears to the total value of and income to producers from domestic livestock, poultry, and commercial aquaculture species in all the States, based on the most current inventory of all cattle, sheep, swine, horses, poultry, and commercial aquaculture species published by the U.S. Department of Agriculture. The remainder of the State allotment will be distributed among the States in the proportion that the animal health and disease research capacity of the eligible institutions in each State bears to the total animal health and disease research capacity in all the States, as determined by NIFA. Uses: Research on animal health and disease of food animals and horses conducted in eligible institutions under the following categories: (1) Infectious diseases; (2) internal and external parasites; (3) noninfectious diseases, toxins, poisons, transportation losses, predators and other hazards; (4) diseases and parasites of wildlife transmissible to food animals and horses; and (5) diseases and parasites of animals transmissible to people.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Eligibility is restricted to the following public nonprofit institutions having demonstrable capacity in animal disease research: (1) Schools and Colleges of Veterinary Medicine; and (2) State Agricultural Experiment Stations. Funds are appropriated by Congress for distribution to States and eligible State institutions according to the statutory formula stated in the Act. Applications may be submitted by accredited State veterinary schools or colleges or agricultural experiment stations that conduct animal health and disease research in accordance with NARETPA section 1433(c): Auburn University, Agricultural Experiment Station; Auburn University, School of Veterinary Medicine; Tuskegee University, School of Veterinary Medicine; University of Alaska, Agricultural Experiment Station; University of Arizona, Agricultural Experiment Station; University of Arkansas, Agricultural Experiment Station; University of California-Oakland,

Award recipients may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project or activity.

Beneficiary Eligibility:

State; Public nonprofit institution/organization; Eligibility is restricted to the following public nonprofit institutions having demonstrable capacity in animal disease research: (1) Schools and Colleges of Veterinary Medicine; and (2) State Agricultural Experiment Stations. Funds are appropriated by Congress for distribution to States and eligible State institutions according to the statutory formula stated in the Act.

Credentials/Documentation:

The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the

Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available as follows: <https://nifa.usda.gov/program/animal-health-and-disease-research-programRFAs> are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Capacity, Competitive, and/or Non-Competitive RFAs supersede the general information provided in the CFDA database. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All Request for Applications (RFAs) are published on the Agency's website and Grants.gov. Applicants must complete the Grants.gov registration process. Application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. Please see the following NIFA Agency link for more information: <http://nifa.usda.gov/program/animal-health-research-and-disease-program>

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications should be submitted as outlined in the RFA. Applicants must follow the instructions provided per Grants.gov. Application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see: <http://www.grants.gov/web/grants/learn-grants/grants-101/pre-award-phase.html>. Further, applicants must follow the instructions provided in the NIFA Grants.gov Application Guide, which can be assessed as follows: Adobe NIFA Applications. 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDA's Uniform Administrative Requirements, Cost Principles, and Audit

Award Procedure:

Funds will be released on a quarterly basis to the institutions. See Appendix A of the Request for Application (RFA) for the specific allocation. AHDR funds must be fully expended in the fiscal year of appropriation; no waiver requests may be considered and approved as no carryover authority is provided in the authorizing legislation. 2 CFR Part 200 Subpart C and Appendix I apply to this program. 2 CFR Part 400 applies to this program. Applications are subjected to a system of peer and merit review in accordance with section 103 of the Agricultural Research, Extension and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who are specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. Reviewers will be selected based upon training and experience in relevant scientific, education, or education fields, taking into account the following factors: (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application. Evaluation Criteria will be delineated in the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFA). 2 CFR 200 Subpart C and Appendix I and 2 CFR part 400 apply to this Program. **SPECIAL NOTE:** Please refer to the Capacity, Competitive, and/or Non-Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via: <https://nifa.usda.gov/program/animal-health-and-disease-research-program> RFAs are generally released annually. Formula and Matching Requirements:

Statutory Formula: Title Food and Agriculture Act of 1977, Public Law 95-113. Matching Requirements: Percent: 0%. Requirement: Matching requirements are voluntary. 7 U.S.C. 3200 provides that No funds in excess of \$100,000 shall be paid by the Federal Government to any State under this subchapter during any fiscal year in excess of the amount from non-Federal sources made available to and budgeted for expenditure by eligible institutions in the State during the same fiscal year for animal health and disease research. The Secretary is authorized to make such payments in excess of \$100,000 on the certificate of the appropriate official of the eligible institution having charge of the animal health and disease research for which such payments are to be made. If any eligible institution certified for receipt of matching funds fails to make available and budget for expenditure for animal health and disease research in any fiscal year sums at least equal to the amount for which it is certified, the difference between the Federal matching funds available and the funds made available to and budgeted for expenditure by the eligible institution shall be reapportioned by the Secretary among other eligible institutions of the same State, if there are any which qualify therefore, and, if there are none, the Secretary shall reapportion such difference among the other States. MOE requirements are not applicable to this assistance listing.

Length and Time Phasing of Assistance:

AHDR funds must be fully expended in the fiscal year of appropriation; no waiver requests may be considered and approved as no carryover authority is provided in the authorizing legislation. 2 CFR Part 200, Subpart D applies to this program. AHDR funds are expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to one (1) additional year. Please note that there is no limitation on the amount of federal funds that may be carried over for this one (1) additional fiscal year. No prior approval from NIFA is required. Since this limitation is legislatively mandated, NIFA is not authorized to grant any carry-over requests beyond this one (1) additional year. Reports:

Grantees are to submit initial project information and annual summary reports to NIFAs electronic, Web-based inventory system that facilitates both grantee submissions of project outcomes and public access to information on Federally-funded projects. The details of the reporting requirements are included in the award terms and conditions. Application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system and the Research, Extension, and Education Project Online Reporting Tool (REEport), and together satisfy all legislative and regulatory pre-award requirements. Institutions are expected to submit an annual Program of Research, which is a listing of all approved AHDR projects for said institution. Institutions must submit a Project Initiation form through the REEport System prior to the initiation of each AHDR project. The project must undergo a review process and be approved before it is incorporated into the Program of Research. Each institution shall submit a REEport Progress Report, annually for each eligible project. These reports shall be submitted by February 1 for the preceding fiscal year. A Final Report shall be submitted through REEport to NIFA for each completed or terminated project. Such reports shall be submitted at the same time as are Progress Reports on active projects and should include a brief summary of accomplishments for the entire life of the project. A REEport Project Financial Report, shall be submitted to NIFA annually for all projects. Reports shall be made on a fiscal year basis and are to be

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Subpart F - Audit Requirements nonfederal entities that expend financial assistance of \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part. A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in 200.503. Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General. Records:

In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 200.333 Retention requirements for records. Grantees shall maintain separate records for each grant to ensure that funds are used for authorized purposes. Grant-related records are subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three (3) year period if litigation is pending or audit findings have not been resolved. 2 CFR Part 200, Subpart D applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: Sixty-seven Capacity block grants, for a total of \$3,696,260, as determined by an OGF formula, were awarded to 67 eligible State entities (all Agricultural Experiment Stations and US Veterinary Colleges). These funds were

used at the discretion of authorized Deans and Directors to address local, regional or national agricultural animal health and disease research priorities of their respective states. The University of Alaska's Agriculture Experiment Station opted out this year and this was the first year of participation for the new Veterinary School at Lincoln Memorial University (Tennessee). Fiscal Year 2018: In accordance with financial data provided by the Budget Office, it is anticipated that approximately \$2.7 million will be available for this Program. Sixty-seven Capacity block grants, will be awarded to 67 eligible State entities (all Agricultural Experiment Stations and US Veterinary Colleges). These funds were used at the discretion of authorized Deans and Directors to address local, regional or national agricultural animal health and disease research priorities of their respective states. Midwestern University in Glendale, Arizona, is a new Veterinary School joining the group this year. The SAES at University of Alaska (Fairbanks) and Cornell University (Ithaca) opted-out of the program this year. Fiscal Year 2019: In accordance with financial data provided by the Budget Office, the FY 2019 funding levels have not yet been established by Congressional Appropriations. If this Program is funded in FY 2019, it is anticipated that the funding level will be comparable and the types of projects will be similar. Sixty-seven Capacity block grants, will be awarded to 67 eligible State entities (all Agricultural Experiment Stations and US Veterinary Colleges). These funds will be used at the discretion of authorized Deans and Directors to address local, regional or national agricultural animal health and disease research priorities of their respective states.

REGULATIONS, GUIDELINES, AND LITERATURE:

As an administrator of U.S. government support, NIFA works in partnership with grantees to ensure responsible stewardship of federal funds. EXAMPLES OF FUNDED PROJECTS:

2017 Forty-two percent (42%) of the institutional awards were less than \$30,000 each. Because so many smaller studies will be supported annually, some aspect of each of the topic areas listed below are generally represented in one (1) or more projects each program year. In accordance with the legal authority for this program, all of the following project topic areas relate directly toward the enhancement of animal health through the support of research activities related to: (1) reducing the incidence of food-borne illness and to provide a safer food supply; and Fiscal Year (FY) 2017: Forty-two percent (42%) of the institutional awards were less than \$30,000 each. Because so many smaller studies will be supported annually, some aspect of each of the topic areas listed below are generally represented in one (1) or more projects each program year. In accordance with the legal authority for this program, all of the following project topic areas relate directly toward the enhancement of animal health through the support of research activities related to: (1) reducing the incidence of food-borne illness and to provide a safer food supply; and (2) to protect animal health by minimizing disease transmission through improved basic and applied mechanisms to prevent and control disease in livestock (i.e., vaccinology, improved diagnostic testing and capabilities, and improved herd and flock management). Example of funded research in Swine NOVEL PORCINE EPIDEMIC DIARRHEA VIRUS VACCINE PIPELINE Recent emergence of extremely contagious Porcine Epidemic Diarrhea virus (PEDV) with 80-100% mortality in neonate pigs calls for the development of an effective prophylactic vaccine. PED has been such an important disease that it brought attention to the NIFA Animal Health and Disease priority area (A1221). In this seed grant proposal, we propose to develop an effective novel vaccine candidate against PEDV infection. We will produce a ferritin nanoparticle immunogen coated with PEDV's spike (S) glycoprotein to induce neutralizing antibodies. We will formulate this novel nanoparticle into a Newcastle virus (NDV) vector with mucosal tropism derived from an attenuated vaccine strain LaSota. The NDV vector is effective in inducing protective immunity at both the mucosal and systemic levels and it has been extensively used to express various antigens of important viral diseases including the full-length spike glycoprotein of SARS coronavirus. Resultant vector vaccines have shown safe and protective efficacies in different animal models, and NDV vector replication in eggs is amenable to large scale and rapid production. We hypothesize that the nanoparticle vaccine delivered by NDV vector mimic native viruses, which in turn elicit high titer neutralizing antibody responses and provide protection against PEDV infection in pigs. We propose to employ a pregnant sow model to test this hypothesis. Sow model is of clinical relevance because successful vaccination of sows is likely to play an important role in the control and eradication of PED epidemics in piglets. Example of funded research in Feeder Cattle ALTERING THE TIME OF VACCINATION AGAINST RESPIRATORY PATHOGENS TO ENHANCE VACCINE EFFICACY, HEALTH, AND PERFORMANCE OF FEEDER CATTLE The focus of this research project is to compare the effects of anticipated (15 days prior), delayed (15 days after), or vaccination at the time of weaning and feedlot entry on vaccine efficacy, health, and performance variables of feeder cattle. Example of funded research in Dairy Cattle ENHANCING DISEASE RESISTANCE IN DAIRY CATTLE The long term goal of this project is to reduce the use of antimicrobials in dairy cattle by providing new methods to optimize innate immunity through nutritional and/or targeted pharmacological approaches during time of increased susceptibility to disease. Many dairy cattle diseases during the early lactation period can result from dysfunctional inflammatory responses that are characterized by an imbalance of the robust initial response needed for pathogen clearance and the prompt return to immune homeostasis. The initiation and resolution of the inflammatory response is regulated by the production of potent lipid mediators. The potential benefits of reducing inflammatory-based diseases of early lactation dairy cattle through modification of lipid metabolism has not been explored in depth. Therefore, the immediate goals of this project are to not only identify how lipid mediator biosynthesis changes during the transition period and during disease, but also the potential impact that lipid metabolism has on macrophage

inflammatory functions. Therefore, the objectives of this project are to: (1) describe changes in lipid mediator biosynthesis during the transition period; (2) describe changes in lipid mediator biosynthesis during mastitis; and (3) determine the underlying mechanisms of how lipid mediators can impact macrophage inflammatory functions. Example of funded research in Poultry SAFE AND COST-EFFECTIVE NEXT GENERATION VACCINES AGAINST INFECTIOUS VIRUSES USING ESTABLISHED IMMORTAL AVIAN CELL LINES The goal of this proposal is to improve animal health by developing an optimal system for the production of infectious vaccine viruses of genetically engineered-, non-reversible and live attenuated vaccines using established immortal avian cell lines. The specific objectives are to: (1) attenuate virulent and vaccine virus strains using immortal avian cell lines; (2) develop a new reverse genetics system retaining the complete full length sequence of viral RNA genome of vaccine strain using a novel artificial bacterial chromosome (BAC) vector and immortal avian cell line substrates to produce vaccine candidates; (3) compare commercial vaccines with the newly generated vaccines in this project in terms of immunogenic activity and protective efficacy; and (4) produce a large quantity of optimally infectious vaccine strains for the use of vaccination in commercial setting. Example of funded research in sheep ENDOCRINE DISRUPTING CHEMICALS AND PREGNANCY HEALTH IN SHEEP The overall objective of this proposal is to define the molecular mechanisms whereby bisphenolic compounds (BPA, and BPA replacement chemicals) with estrogenic potential can induce placental dysfunction during pregnancy. Studies described in this proposal will test a novel hypothesis to assess the disease risk of exposure to endocrine disrupting chemicals during pregnancy in a relevant agricultural species, such as the sheep. Objectives: (1) to test if gestational exposure to BPA or BPA replacement compounds leads to a disruption in the maternal endocrine milieu and fetal growth in sheep; (2) to test if gestational exposure to BPA or BPA replacement compounds leads to a disruption in placental function; and (3) to test if exposure to BPA or BPA replacement compounds impairs placental steroidogenic potential. 2018 This program is subject to congressional budget approval for FY 2018. At this time, the projected funding level is Zero (\$0). However, if funding is provided, it is anticipated that numerous smaller (less than \$30,000 each) institutes receiving less than \$30,000 will make-up about 40% of the future funded projects. Because so many smaller studies will be supported annually, some aspect of each of the topic areas listed below will generally be represented in one (1) or more projects each program year. In accordance with the legal authority for this program, all of the following project topic areas relate directly toward the enhancement of animal health through the support of research activities related to: (1) reducing the incidence of food-borne illness and to provide a safer food supply; and (2) to protect animal health by minimizing disease transmission through improved basic and applied mechanisms to prevent and control disease in livestock (i.e., vaccinology, improved diagnostic testing and capabilities, and improved herd and flock management). 2019 Although it is too premature to state an actual number, it is anticipated that the institutions with smaller Animal Health Research Programs, that those receiving < \$30,000 each will make-up about 40% of the future funded projects. Because so many smaller studies will be supported annually, some aspect of each of the topic areas listed below will generally be represented in one or more projects each program year. In accordance with the legal authority for this program, all of the following project topic areas relate directly toward the enhancement of animal health through the support of research activities related to: 1) reducing the incidence of food-borne illness and to provide a safer food supply; and 2) to protect animal health by minimizing disease transmission through improved basic and applied mechanisms to prevent and control disease in livestock (i.e., vaccinology, improved diagnostic testing and capabilities, and improved herd and flock management).

10.210 Higher Education Graduate Fellowships Grant Program

Institution Challenge, Multicultural Scholars & Graduate Fellowships Grant Program (Graduate Fellowships)[Formerly: National Needs Fellowship (NFF)],

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE, DEPARTMENT OF

AUTHORIZATION:

Section 7106 of the Food, Conservation, and Energy Act (FCEA) of 2008 (Public Law 110-246) amends the legislative authority for this program contained in Section 1417 of the National Agricultural Research, Extension and Teaching Policy Act of 1977 (NARETPA) (99 Stat. 1548; 7 U.S.C. 3152) to include the University of the District of Columbia as an eligible applicant., 7 USC Code 3152.

OBJECTIVES:

The purpose of the NNF Grants Program is to train students for Masters and/or doctoral degrees and provide additional postdoctoral training for Fellows who have completed their doctoral degrees at colleges and universities that have demonstrable teaching and research competencies in the food and agricultural sciences. Fellowships and IRTA awards are specifically intended to support traineeship programs that encourage outstanding students to pursue and complete their degrees or obtain postdoctoral training in areas where there is a national need for the development of scientific and professional expertise in the food and agricultural sciences. Fellowships and IRTA awards invest in graduate training and relevant international experiential learning for a cadre of diverse individuals who demonstrate their potential to successfully complete graduate degree programs in disciplines relevant to the mission of the USDA.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Competitive annual grants providing for a limited number of graduate stipends are awarded to selected U.S. institutions of higher education so as to distribute support for graduate study to promising food and agricultural scientists and professionals. Individuals selected initially by the institution must enroll in a program leading to a graduate, master's or doctoral degree in one of the targeted national needs areas of the food and agricultural sciences. Such persons may not have been enrolled previously in the program at the same degree level. Current fellows are eligible to receive supplemental grants of \$3,000 to cover travel and living expenses for special international study or thesis/dissertation research experiences. Funding for the supplemental grants will be awarded on a competitive basis using no-year funds drawn from expired fellowship grants with unspent funds remaining as set forth in the annual program guidelines.

Applicant Eligibility:

State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Minority group; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Proposals may be submitted by all U.S. colleges and universities that confer a master's or doctoral degree in at least one area of the food and agricultural sciences targeted for national needs fellowships. As defined in Section 1404 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977, as amended (7 U.S.C. 3103), the terms "college" and "university" mean "an educational institution in any State which: (a) Admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate; (b) is legally authorized within such State to provide a program of education beyond secondary education; (c) provides an educational program for which a bachelor's degree or any other higher degree is awarded; (d) is a public or other nonprofit institution; and (e) is accredited by a nationally recognized accrediting agency or association." Eligibility also applies to research foundations maintained by eligible colleges or universities.

Beneficiary Eligibility:

Minority group; Private nonprofit institution/organization; State; Public nonprofit institution/organization; Other public institution/organization; Funds awarded in

this program are used to support the training of graduate students to obtain either a master's or doctoral degree in one of the targeted specializations of the food and agricultural sciences.

Credentials/Documentation:

The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Competitive Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available as follows: <https://nifa.usda.gov/funding-opportunity/food-and-agricultural-sciences-national-needs-graduate-and-postgraduateRFAs> are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Competitive RFAs supersede the general information provided in the CFDA database. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All RFAs are published on the Agencies website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information: http://www.grants.gov/applicants/get_registered.jsp. An Environmental Impact statement (EIS) (actual or potential) is not required for this program. However the NIFA Application (R&R Other Project Information Part 4.4) requires a statement to that effect.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications should be submitted as outlined in the RFA. Applications must follow the instructions provided per Grants.gov and in the Agency guide to submitting applications via Grants.gov. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see: <http://www.grants.gov/web/grants/learn->

Award Procedure:

Applications are subjected to a system of peer and merit review in accordance with section 103 of the Agricultural Research, Extension and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who are specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors:

- (a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities;
- (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields;
- (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs;
- (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations;
- (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and
- (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application.

10.212 Small Business Innovation Research

(SBIR Program - Phase I and II),

FEDERAL AGENCY:

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE, AGRICULTURE,
DEPARTMENT OF
AUTHORIZATION:

This program solicitation is issued pursuant to the Small Business Innovation Development Act of 1982, Public Law 97-219, as amended (15 U.S.C. 638) and Section 630 of the Act making appropriations for Agriculture, Rural Development

ASSISTANCE LISTINGS DESCRIPTIONS

and Related Agencies programs for fiscal year ending September 30, 1987, and for other purposes, as made applicable by Section 101(a) of Public Law 99-591, 100 Stat. 3341., 15 USC Code 638.

OBJECTIVES:

To stimulate technological innovation in the private sector, strengthen the role of small businesses in meeting Federal research and development needs, increase private sector commercialization of innovations derived from USDA-supported research and development efforts, and foster and encourage participation, by women-owned and socially disadvantaged small business firms in technological innovation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The selected areas for research are Forests and Related Resources; Plant Production and Protection-Biology; Animal Production and Protection; Air, Water and Soils; Food Science and Nutrition; Rural and Community Development; Aquaculture; Biofuels and Biobased Products; Small and Mid-Size Farms, Plant Production and Protection-Engineering. The Small Business Innovation Research Program is carried out in three separate phases: Phase I projects are supported to determine the scientific or technical feasibility of ideas submitted by small business applicants on the selected research areas; Phase II awards are made to firms with approaches that appear sufficiently promising as a result of Phase I studies. Only those small businesses previously receiving Phase I awards in either of the two preceding fiscal years are eligible to submit Phase II proposals. Phase II projects are limited to \$450,000 for a period normally not to exceed 24 months; Phase III is to be conducted by the small business concern (including joint ventures and limited partnerships), and will be non-SBIR funded through the exercising of a follow-on funding commitment. The purpose of Phase III is to stimulate technological innovation and the national return on investment from research through the pursuit of commercialization objectives resulting from the USDA-supported work carried out in Phases I and II.

Applicant Eligibility:

Small business (less than 500 employees); Applicant Eligibility (1) is organized for profit, with a place of business located in the United States, which operates primarily within the United States, or which makes a significant contribution to the United States economy through the payment of taxes or use of American products, materials or labor; (2) is in the legal form of an individual proprietorship, partnership, limited liability company, corporation, joint venture, association, trust or cooperative, except that where the form is a joint venture, there can be no more than 49 percent participation by foreign business entities in the joint venture; (3) is at least 51 percent owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in, the United States, except in the case of a joint venture, where each entity in the venture must be 51 percent owned and controlled by one or more individuals who are citizens of, or permanent resident aliens in the United States; and (4) has, including its affiliates, not more than 500 employees. The term "affiliates" is defined in greater detail in 13 CFR 121.103. The term "number of employees" is defined in 13 CFR 121.106.

Beneficiary Eligibility:

Small business; Small businesses.

Credentials/Documentation:

The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a

Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Competitive Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available as follows: SBIR Phase I <https://nifa.usda.gov/funding-opportunity/small-business-innovation-research-program-phase-i> SBIR Phase II <https://nifa.usda.gov/funding-opportunity/small-business-innovation-research-program-phase-ii> RFAs are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Competitive RFAs supersede the general information provided in the CFDA database. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All RFAs are published on the Agencies website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information: http://www.grants.gov/applicants/get_registered.jsp.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see: <http://www.grants.gov/web/grants/learn-grants/grants-101/pre-award-phase.html>. Further, applicants must follow the instructions provided in the NIFA Grants.gov Application Guide, which can be assessed as follows: Adobe NIFA Applications. 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDA's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. SPECIAL NOTE: Please refer to the Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available via: SBIR Phase I <https://nifa.usda.gov/funding-opportunity/small-business-innovation-research-program-phase-i> SBIR Phase II <https://nifa.usda.gov/funding-opportunity/small-business-innovation-research-program-phase-ii> RFAs are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Competitive RFAs supersede the general information provided in the CFDA database.

Award Procedure:

Applications are subjected to a system of peer and merit review in accordance with Section 103 of the Agricultural Research, Extension and Education Reform Act of 1998 (7 U.S.C. 7613) by a panel of qualified scientists and other appropriate persons who are specialists in the field covered by the proposal. Within the limit of funds available for such purpose, the NIFA Authorized Departmental Officer (ADO) shall make grants to those responsible, eligible applicants whose applications are judged most meritorious under the procedures set forth in the RFA. Reviewers will be selected based upon training and experience in relevant scientific, extension, or education fields, taking into account the following factors:

ASSISTANCE LISTINGS DESCRIPTIONS

(a) The level of relevant formal scientific, technical education, or extension experience of the individual, as well as the extent to which an individual is engaged in relevant research, education, or extension activities; (b) the need to include as reviewers experts from various areas of specialization within relevant scientific, education, or extension fields; (c) the need to include as reviewers other experts (e.g., producers, range or forest managers/operators, and consumers) who can assess relevance of the applications to targeted audiences and to program needs; (d) the need to include as reviewers experts from a variety of organizational types (e.g., colleges, universities, industry, state and Federal agencies, private profit and non-profit organizations) and geographic locations; (e) the need to maintain a balanced composition of reviewers with regard to minority and female representation and an equitable age distribution; and (f) the need to include reviewers who can judge the effective usefulness to producers and the general public of each application. Evaluation Criteria will be delineated in the RFA. 2 CFR Part 200 Subpart C and Appendix I apply to this program. 2 CFR Part 400 applies to this program. Reports:

REEport GRANT REPORTING: All grant reporting must be completed using the Research, Education, and Extension project online reporting tool (REEport). Initial reporting (item a. below) is to be submitted through the REEport system. Annual progress and final reporting (items b. and c. below) also is to be done through the REEport system. Information on REEport can be found on NIFAs web site at <https://nifa.usda.gov/tool/reeport> and the REEport software can be found at <http://portal.nifa.usda.gov>. a. Initial Documentation in the REEport Database-- Research, Education, and Extension project online reporting tool (REEport) All projects must be documented in REEport. The NIFA contact for all REEport documentation is: REEport National Institute of Food and Agriculture U.S. Department of Agriculture STOP 2213 1400 Independence Avenue, S.W. Washington, D.C. 20250-2213 Telephone: (202) 690-0009 E-mail: electronic@nifa.usda.gov. b. Annual Progress Reports. All projects must report annually into REEport. An annual Progress Report is due 90 calendar days after the awards anniversary date (i.e., one year following the month and day of which the project period begins and each year thereafter up until a final report is required). An annual Progress Report covers the most recent one-year period. The following information, when applicable, must be included in the Project Modifications section of the annual Progress Report. 1) A comparison of actual accomplishments with the goals established for the reporting period (where the output of the project can be expressed readily in numbers, a computation of the cost per unit of output should be submitted if the information is considered useful); (2) The reasons for slippage if established goals were not met; and (3) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or unexpectedly high unit costs. c. Final Technical Report The Final Technical Report is required within 90 calendar days after the expiration or termination of the award. The Final Technical Report covers the entire period of performance of the award and must describe progress made during the entire timeframe of the project instead of covering accomplishments made only during the final reporting segment of the project. In addition to supplying the information required under item b. of this article, the final report must include the following when applicable: Identify equipment purchased with any Federal funds under the award and indicate subsequent use of such equipment. FINANCIAL REPORTING: As outlined in 2 CFR 200.327, the recipient must submit financial status reports by the frequency required in the terms and conditions of the award. The following are the financial reporting requirements for NIFA. Federal Financial Report, Form SF-425: NIFA uses the SF-425, Federal Financial Report to monitor cash. A Federal Financial Report, Form SF-425, is due on an annual basis no later than 90 days following the end of the award anniversary date (i.e., one year following the month and day when the project period begins and each year thereafter up until a final report is required). An annual Progress Report covers the most recent one-year period. A final Federal Financial Report, Form SF-425, is due 90 days after the expiration date of this award. The report must be submitted to the Awards Management Division (AMD) as a pdf attachment to an email sent to awards@nifa.usda.gov. If questions are encountered regarding financial reporting requirements, please contact: Awards Management Division (AMD) Office of Grants and Financial Management (OGFM) National Institute of Food and Agriculture (NIFA) U.S. Department of Agriculture (USDA) STOP 2271 1400 Independence Avenue, S.W. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, Subpart F Audit Requirements nonfederal entities that expend financial assistance of \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part. A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in 200.503. Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General.

Records:

In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 200.333 Retention requirements for records. Grantees shall maintain separate records for each grant to ensure that funds are used for authorized purposes. Grant-related records are subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three (3) year period if litigation is pending or audit findings have not been resolved. 2 CFR Part 200, Subpart D applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: For Fiscal Year (FY) 2017: Per the Budget Office, approximately \$22.8 million was available for the SBIR Program. (A) Small Business Innovation Research (SBIR) - Phase I: SBIR Phase I proposals were solicited in ten (10) different topic areas: (1) Forests and Related Resources; (2) Plant Production and Protection Biology; (3) Plant Production and Protection Engineering; (4) Animal Production and Protection; (5) Air, Water and Soils; (6) Food Science and Nutrition; (7) Rural and Community Development; (8) Aquaculture, (9) Biofuels and Biobased Products; and (10) Small and Mid-Size Farms. A total of 526 Phase I applications were reviewed and 88 projects were funded for a success rate of 17%. A total of \$22,206,532 was awarded for this program. A total of \$8,703,225 will be obligated on the Phase I projects. (B) Small Business Innovation Research (SBIR) - Phase II: SBIR Phase II proposals were solicited in ten (10) different topic areas: (1) Forests and Related Resources; (2) Plant Production and Protection Biology;

(3) Plant Production and Protection Engineering; (4) Animal Production and Protection; (5) Air, Water and Soils; (6) Food Science and Nutrition; (7) Rural and Community Development; (8) Aquaculture, (9) Biofuels and Biobased Products; and (10) Small and Mid-Size Farms. Phase II projects are funded based if a Phase I company successfully demonstrated feasibility of the SBIR funded innovation. Phase I companies are only allowed to apply for Phase II funding one (1) time. A total of 55 Phase II applications were reviewed and 26 projects were funded for a success rate of 47%. A total of \$15,482,865 was awarded for the Phase II projects. Fiscal Year 2018: For Fiscal Year (FY) 2018: Per the Budget Office, approximately \$24.2 million is available for the SBIR Program. (A) Small Business Innovation Research (SBIR) - Phase I: SBIR Phase I proposals were solicited in ten (10) different topic areas: (1) Forests and Related Resources; (2) Plant Production and Protection Biology; (3) Plant Production and Protection Engineering; (4) Animal Production and Protection; (5) Air, Water and Soils; (6) Food Science and Nutrition; (7) Rural and Community Development; (8) Aquaculture, (9) Biofuels and Biobased Products; and (10) Small and Mid-Size Farms. A total of 533 Phase I applications were reviewed and 79 projects were funded for a success rate of 15%. A total of \$27,502,689 was awarded for this program. A total of \$9,002,482 will be obligated on the Phase I projects. (B) Small Business Innovation Research (SBIR) - Phase II: SBIR Phase II proposals were solicited in ten (10) different topic areas: (1) Forests and Related Resources; (2) Plant Production and Protection Biology; (3) Plant Production and Protection Engineering; (4) Animal Production and Protection; (5) Air, Water and Soils; (6) Food Science and Nutrition; (7) Rural and Community Development; (8) Aquaculture, (9) Biofuels and Biobased Products; and (10) Small and Mid-Size Farms. Phase II projects are funded based if a Phase I company successfully demonstrated feasibility of the SBIR funded innovation. Phase I companies are only allowed to apply for Phase II funding one (1) time. A total of 66 Phase II applications were reviewed and 26 projects were funded for a success rate of 49%. A total of \$20,721,402 was awarded for the Phase II projects. Fiscal Year 2019: For Fiscal Year (FY) 2019: Per the Budget Office, it is projected that approximately \$17 million will be available for the SBIR Program. (A) Small Business Innovation Research (SBIR) - Phase I: SBIR Phase I proposals are to solicit proposals in ten (10) different topic areas: (1) Forests and Related Resources; (2) Plant Production and Protection Biology; (3) Plant Production and Protection Engineering; (4) Animal Production and Protection; (5) Natural Resource Conservation (formerly Air, Water, & Soils); (6) Food Science and Nutrition; (7) Rural and Community Development; (8) Aquaculture, (9) Biofuels and Biobased Products; and (10) Small and Mid-Size Farms. It is projected that approximately \$7,000,000 to \$8,000,000 will be available to fund FY 2019 Phase I projects. (B) Small Business Innovation Research (SBIR) - Phase II: SBIR Phase II projections are to solicit proposals in ten (10) different topic areas: (1) Forests and Related Resources; (2) Plant Production and Protection Biology; (3) Plant Production and Protection Engineering; (4) Animal Production and Protection; (5) Natural Resource Conservation (formerly Air, Water, & Soils); (6) Food Science and Nutrition; (7) Rural and Community Development; (8) Aquaculture, (9) Biofuels and Biobased Products; and (10) Small and Mid-Size Farms.

CRITERIA FOR SELECTING PROPOSALS:

(a) The proposing firm must qualify as a small business concern as specified in the SBIR solicitation; (b) The proposal must meet the Proposal Content and Format requirements as described in subsection 3.3 of the SBIR solicitation; (c) Proposals must be limited to one research problem (see subsection 3.1 of the SBIR solicitation); (d) The proposed budget must be within the dollar limit identified in subsection 1.2 of the SBIR solicitation; (e) The proposed duration of Phase I projects should normally not exceed 8 months, except in special, justified circumstances, and the duration of Phase II projects should normally not exceed 24 months. Where a proposed research project requires more than 8 months to complete in Phase I, a longer grant period, not to exceed 20 months, may be considered. An applicant of a Phase I project with an anticipated duration beyond 8 months should specify and justify the length of duration in the proposal at the time of its submission to USDA in order for it to be considered; (f) Proposals must cover scientific research activities only (see subsection 3.1 of the SBIR solicitation); (g) The proposed Phase I research must fall within a solicited topic area; (h) A proposal must contain adequate scientific/technical information to state clearly the research plan and objectives. USDA reserves the right not to submit for review any proposal which it finds to have insufficient scientific/technical information; (i) A resubmitted proposal must address concerns of the previous review panel. USDA reserves the right not to submit for review any proposal found not to be responsive to the previous review; and (j) Is it clear that the project director will work a minimum of 51 percent of his/her time for the small business firm during the period of the grant and that the small business firm will conduct a minimum of two-thirds of the research effort?2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDAs Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program.Within guidelines established for the program as described in the Competitive Request for Application (RFA). Section 1622 of the Food, Agriculture, Conservation, and Trade Act of 1990 (FACTA Act), and for selected national projects, Public Law 101-624, 7 USC Code 5812.

OBJECTIVES:

The purpose of the Sustainable Agriculture Research and Education Program (SARE) program is to encourage research designed to increase our knowledge concerning agricultural production systems that: (1) maintain and enhance the quality and productivity of the soil; (2) conserve soil, water, energy, natural resources, and fish and wildlife habitat; (3) maintain and enhance the quality of surface and ground water; (4) protect the health and safety of persons involved in the food and farm system; (5) promote the well being of animals; and (6) increase employment opportunities in agriculture (section 1619-1624 of the Food, Agriculture, Conservation and Trade Act of 1990 (FACTA), Public Law 101-624 (7 U.S.C. 5801)). The request for applications (RFA) is for the regional SARE host institutions to apply for funds to carry out the regional SARE programs under the direction of the SARE Regional Administrative Councils (section 1622 of FACTA (7 U.S.C. 5812)), and for selected national projects. Most SARE competitive grants are made by the SARE regions as subawards. Typically, approximately 85% of the award to a SARE regional host institution is used for subawards. Individuals and organizations interested in applying for SARE competitive grants should NOT respond to this funding opportunity; rather they should apply to the appropriate SARE regional program. TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grant funds must be used for allowable costs necessary to conduct approved fundamental and applied research, extension and education objectives to address food and agricultural sciences.

Applicant Eligibility:

Federal; State (includes District of Columbia, public institutions of higher education and hospitals); Public nonprofit institution/organization (includes institutions of higher education and hospitals); Other public institution/organization; Profit organization; Private nonprofit institution/organization (includes institutions of higher education and hospitals); Quasi-public nonprofit institution/organization; Land-grant colleges or universities, other universities, State agricultural experiment stations, State cooperative extension services, nonprofit organizations, and individuals with demonstrable expertise, or Federal or State governmental entities.

Beneficiary Eligibility:

Federal; Profit organization; Private nonprofit institution/organization; Quasi-public nonprofit organization; State; Public nonprofit institution/organization; Other public institution/organization; Land-grant colleges or universities, other universities, State agricultural experiment stations, State cooperative extension services, nonprofit organizations, and individuals with demonstrable expertise, or Federal or State governmental entities.

Credentials/Documentation:

The System for Award Management (SAM) combines eight federal procurement systems, including CCR, and the Catalog of Federal Domestic Assistance into one new system. CCR activities are conducted through SAM (the CCR website will redirect users to SAM). Dun and Bradstreet Universal Numbering System (DUNS) Number and System for Award Management (SAM): Each applicant (unless excepted under 2 CFR 25.110(b) or (c), or has an exception approved by the Federal awarding agency under 2 CFR 25.110(d)) is required to: (i) Be registered in SAM before submitting its application; (ii) Provide a valid DUNS number in its application; and (iii) Continue to maintain an active SAM registration with current information at all times during which it has an active Federal award or an application or plan under consideration by a Federal awarding agency. It also must

state that the Federal awarding agency may not make a Federal award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time the Federal awarding agency is ready to make a Federal award, the Federal awarding agency may determine that the applicant is not qualified to receive a Federal award and use that determination as a basis for making a Federal award to another applicant. Applicants must furnish the information required in the Competitive Request for Applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information. SPECIAL NOTE: Please refer to the Competitive Request for Applications (RFAs) for further specific and pertinent details. The most current RFAs are available as follows: <https://nifa.usda.gov/funding-opportunity/sare-regional-host-institution> RFAs are generally released annually. Hence, the RFAs provide the most current and accurate information available. Any specific instructions in the Competitive RFAs supersede the general information provided in the CFDA database. 2 CFR 200, Sub-part E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application coordination is required. An environmental impact statement is required for this listing. This program is excluded from coverage under E.O. 12372. All RFAs are published on the Agency's website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information: http://www.grants.gov/applicants/get_registered.jsp.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The National Institute of Food and Agriculture (NIFA) only accepts electronic applications which are submitted via Grants.gov in response to specific Requests for Applications (RFA). Applicants must complete the Grants.gov registration process. For information about the pre-award phase of the grant lifecycle application processes see: <http://www.grants.gov/web/grants/learn-grants/grants-101/pre-award-phase.html>. Further, applicants must follow the instructions provided in the NIFA Grants.gov Application Guide, which can be assessed as follows: Adobe NIFA Applications. 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and 2 CFR part 400 USDA's Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards apply to this program. Award Procedure:

2 CFR Part 200 - Subpart C and Appendix I apply to this program. Regional technical committees will review, rank and prioritize proposals received from public and private organizations and make recommendations for funding to the regional administrative councils. Regional administrative councils will approve proposals for funding and associated plans of work and submit them to USDA. Research and education subcommittee on sustainable agriculture will review plans of work and the Department will give final approval. Applications are subjected to a system of peer and merit review in accordance with section 103 of the

Reports:

REEport GRANT REPORTING: All grant reporting must be completed using the Research, Education, and Extension project online reporting tool (REEport). Initial reporting (item a. below) is to be submitted through the REEport system. Annual progress and final reporting (items b. and c. below) also is to be done through the REEport system. Information on REEport can be found on NIFAs web site at <https://nifa.usda.gov/tool/reeport> and the REEport software can be found at <http://portal.nifa.usda.gov>. a. Initial Documentation in the REEport Database-- Research, Education, and Extension project online reporting tool (REEport) All projects must be documented in REEport. The NIFA contact for all REEport documentation is: REEportNational Institute of Food and Agriculture U.S. Department of Agriculture STOP 22131400 Independence Avenue, S.W. Washington, D.C. 20250-2213 Telephone: (202) 690-0009 E-mail: electronic@nifa.usda.gov. b. Annual Progress Reports. All projects must report annually into REEport. An annual Progress Report is due 90 calendar days after the awards anniversary date (i.e., one year following the month and day of which the project period begins and each year thereafter up until a final report is required). An annual Progress Report covers the most recent one-year period. The following information, when applicable, must be included in the Project Modifications section of the annual Progress Report. 1) A comparison of actual accomplishments with the goals established for the reporting period (where the output of the project can be expressed readily in numbers, a computation of the cost per unit of output should be submitted if the information is considered useful); (2) The reasons for slippage if established goals were not met; and (3) Additional pertinent information including, when appropriate, analysis and explanation of cost overruns or unexpectedly high unit costs. c. Final Technical Report The Final Technical Report is required within 90 calendar days after the expiration or termination of the award. The Final Technical Report covers the entire period of performance of the award and must describe progress made during the entire timeframe of the project instead of covering accomplishments made only during the final reporting segment of the project. In addition to supplying the information required under item b. of this article, the final report must include the following when applicable: Identify equipment purchased with any Federal funds under the award and indicate subsequent use of such equipment. FINANCIAL REPORTING: As outlined in 2 CFR 200.327, the recipient must submit financial status reports by the frequency required in the terms and conditions of the award. The following are the financial reporting requirements for NIFA. Federal Financial Report, Form SF-425: NIFA uses the SF-425, Federal Financial Report to monitor cash. A Federal Financial Report, Form SF-425, is due on an annual basis no later than 90 days following the end of the award anniversary date (i.e., one year following the month and day when

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503 Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). This program is also subject to audit by the cognizant Federal audit agency and the USDA Office of Inspector General.

Records:

In accordance with 2 CFR Part 400 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 200.333 Retention requirements for records. Grantees shall maintain separate records for each grant to ensure that funds are used for authorized purposes. Grant-related records are subject to inspection during the life of the grant and must be retained at least three (3) years. Records must be retained beyond the three (3) year period if litigation is pending or audit findings have not been resolved. 2 CFR 200 Subpart D applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2017: In FY 2017 the SARE Research and Education funding line (CDFA # 10.215) and the SARE Professional Development Program (CDFA # 10.500 (K)) were combined into a single appropriation; with the guidance to maintain the functions of both programs. For FY 2017, \$25,297,920 was available after deductions for legislatively authorized set asides. Of this amount, \$1,662,989 was used for national communications, outreach and coordination activities; and \$23,634,931 was distributed equally to the four SARE regional programs. The four regional programs subsequently made a total of 341 sub-awards for individual projects. Fiscal Year 2018: In FY 2018 the SARE Research and Education funding line (CDFA # 10.215) and the SARE Professional Development Program (CDFA

10.500(K)) were combined into a single appropriation, with the guidance to maintain the functions of both programs. For FY 2018, \$32,770,088 will be available after deductions for legislatively authorized set asides. Of this amount, \$1,502,460 will be used for national communications, outreach and coordination activities; and \$31,267,628 will be distributed equally to the four SARE regional programs. The four regional programs will subsequently make approximately 450 sub-awards for individual projects. Fiscal Year 2019: The FY 2019 funding levels have not yet been established by Congressional Appropriations. Pertinent details will be provided by Program at a future date.
